

GENERAL PURPOSE SURVEY SET
Market Survey Questionnaire
December 17, 2012

GENERAL INFORMATION:

The U.S. Government (USG) appreciates the time and effort taken to respond to this survey. This is a market survey requesting information in support of a possible competition for the General Purpose Survey Set (GPSS). Product Manager – Sets, Kits, Outfits & Tools is the requiring activity for this acquisition. No contract will be awarded from this announcement. This is not a Request for Proposal (RFP) or an announcement of a forthcoming solicitation. Also, it is not a request seeking contractors interested in being placed on a solicitation mailing list. Response to this questionnaire is voluntary and no reimbursement will be made for any costs associated with providing information in response to this market survey and any follow-on information requests. Data submitted in response to this market survey will not be returned. No solicitation document exists at this time, and calls requesting a solicitation will not be answered.

DESCRIPTION OF INTENT:

The USG is contemplating an RFP for a five year requirements contract for the GPSS. The USG is considering using full and open competition due to available information concerning industry's ability to comply with the non-manufacturer rule at FAR 19.102(f). The components included in the set, as listed in the attached draft Description for Purchase (DFP), would be subject to the Berry Amendment.

The above strategy is solely for informational purposes of this market survey questionnaire. It does not obligate the Government in any way and the Government reserves the right to change any/all of the strategy listed above at any time.

INSTRUCTIONS FOR COMPLETING THE QUESTIONNAIRE:
