

Free Public Lecture • **Thursday, January 29th, 2009** • 7 p.m. USGS Conference Room A, Bldg. 3 • 345 Middlefield Road, Menlo Park, CA

EXPLORING MARS: Geology, Climate Change and Prospects for Past Life

Michael H. Carr
USGS Astrogeologist

Data from a recent polar lander, two still active rovers and three spacecraft in orbit are changing our perceptions about how Mars evolved. What do these new data imply for the prospects of past and present life?
