

Free Public Lecture

Science, Society, and the Survey

50 Years of the USGS in Menlo Park

By David G. Howell, Research Geologist

Hear about some of the scientific highlights from 1954 to 2004, such as—

- The search for strategic minerals
- Exploring the high seas
- The birth of astrogeology
- Advancing the theory of plate tectonics
- From topo maps to digital GIS
- Predicting volcanic eruptions
- Monitoring the health of San Francisco Bay
- Understanding earthquake hazards

Thursday, April 22, 2004, 7:00 p.m.
USGS, Conference Room A, Bldg 3,
Menlo Park, California

The Earth Science Information Center (Map and Publication Sales) in Building 3 will remain open until 7:00 p.m. on the evening of the lecture. Map for lecture site on reverse.

For current information about the evening lecture series, call (650) 329-5000 or visit our website at <http://online.wr.usgs.gov/calendar/>

U.S. Department of the Interior • U.S. Geological Survey • Western Region Center
