What Lies Beneath?

Concealed sedimentary basins and hidden oil under Silicon Valley

By Richard G. Stanley, Geologist

-  Before computers and cubicles there were orchards—and a few oil wells, too
-  Learn about the “oil boom” in Los Gatos about 100 years ago
-  See how historical records from old oil wells, together with modern scientific studies, reveal the hidden geology beneath the urban landscape
-  Is there more oil to be found here?

Thursday, May 25, 2006, 7:00 p.m.
USGS, Conference Room A, Bldg 3,
Menlo Park, California

The Map and Publication Sales counter in Building 3 will remain open until 7:00 p.m. on the evening of the lecture.
