# Internet Assisted Review (IAR) Release Notes

## Database Queries

### IAR Performance Improvement

With this release, IAR module performance improves due to database query enhancement.

## Review Meeting Material

### Mail Reviewers

With this release, a Mail Reviewer can only view application-specific meeting materials for assigned applications.

---

**NOTE:** Mail Reviewers continue to have access to non-application-specific materials in the meeting as before.

---

## Exclude SRA/GTA

### Final Scores Screens

With this release, the Final Scores Details screen, and Final Scores Matrix (Excel Worksheet) **exclude** SRA and GTA names. In addition, voter sheets are not created for SRAs and GTAs.

# Voter Sheets

## Sort Order

Prior to this release, the system inadvertently changed user applied sort back to default when saving scores. With this release, user-specified sort order is retained when scores are saved on the Voter Sheet.

Voter Sheet—Available Sort Fields

# eAdditions

## Access eAdditions from IAR Grant Folder View

IAR Grant Folder views now display a new link—[Additions for Review](#) (see Figure 2).

The new link provides access to additional—electronically viewable—items available for use when evaluating grant applications.

**NOTE:** The link includes the number of additional items available—shown in parentheses.

On the **Grant Folder** window:

1. Click the [Additions for Review](#) link (Figure 2).

Link shows 3 documents available

Figure 2: Grant Folder View.

---

**NOTE:** Click the [Close](#) link to close the **Grant Folder** window.

---

- The **Additions for Review** window displays with additional item information (Figure 3). The list of additional items' headings identify each item by:
  - **Group** – identifies the listed item's file category. Categories include:
    - **Updated Pages**
    - **Supplemental Material**
    - **Collaboration Letters**
    - **Modified Budget Pages**
    - **Accepted Publication**
    - **Biographical Sketches**
    - **Other**
  - **Document** – the actual link clicked to display the additional item.
  - **Date** – identifies the additional item's upload date and time.

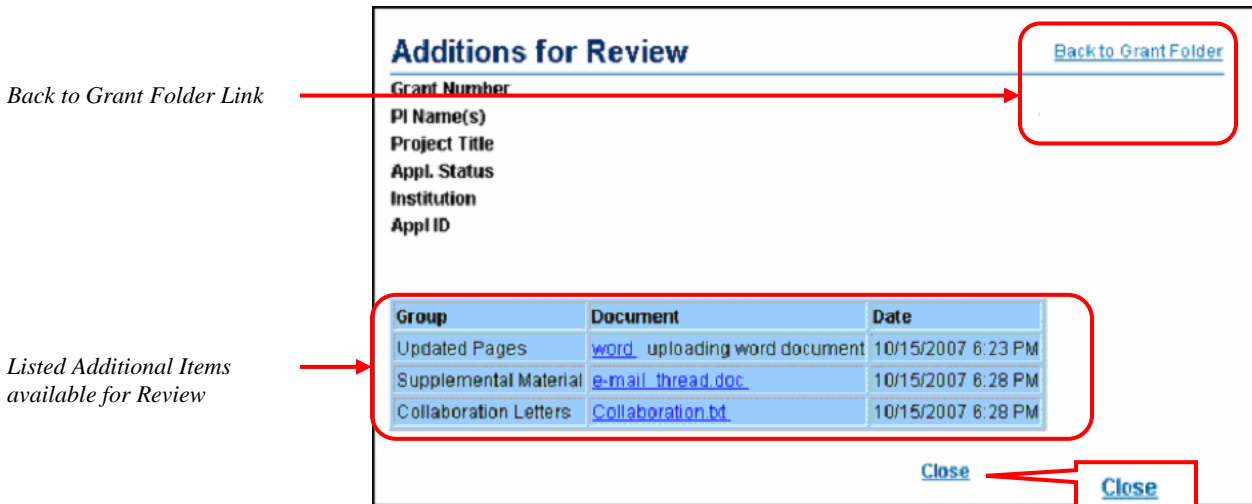

Figure 3: Additions for Review Window.

2. Click a **Document** link to display the item.

---

**NOTE:** Click the [Back to Grant Folder](#) link to return to the **Grant Folder** window or the [Close](#) link to close the **Additions for Review** window.

---

# Preliminary Summary Statements

## Missing PI First Name

Prior to this release, an error occurred when attempting to download a ZIP file with generated Preliminary Summary Statements for a Meeting if one of the subproject application's PI first name was missing. The error is corrected with this release.

## No Pre-SS File Message

A new user message displays when **there are no Preliminary Summary Statements generated yet, and user has requested a** ZIP file for download in IAR. Figure 4 shows a Pre-SS link.

Figure 4: Download Link Example.

“There are no files available to download. Please wait for the system to generate Preliminary Summary Statements, before they are available to download within a ZIP file.”

- When clicking the link and no file exists, the new message displays (see Figure 5).
