FEDERAL RESERVE SYSTEM**Sunshine Act Meeting**

AGENCY HOLDING THE MEETING: Board of Governors of the Federal Reserve System.

TIME AND DATE: 3:30 p.m., Wednesday, June 29, 2011.

PLACE: Marriner S. Eccles Federal Reserve Board Building, 20th Street entrance between Constitution Avenue and C Streets, NW., Washington, DC 20551.

STATUS: Open.

On the day of the meeting, you will be able to view the meeting via webcast from a link available on the Board's public Web site. You do not need to register to view the webcast of the meeting. A link to the meeting documentation will also be available approximately 20 minutes before the start of the meeting. Both links may be accessed from the Board's public Web site at <http://www.federalreserve.gov>.

If you plan to attend the open meeting in person, we ask that you notify us in advance and provide your name, date of birth, and social security number (SSN) or passport number. You may provide this information by calling 202-452-2474 or you may register online. You may pre-register until close of business

on June 28, 2011. You also will be asked to provide identifying information, including a photo ID, before being admitted to the Board meeting. The Public Affairs Office must approve the use of cameras; please call 202-452-2955 for further information.

If you need an accommodation for a disability, please contact Penelope Beattie on 202-452-3982. For the hearing impaired only, please use the Telecommunication Device for the Deaf (TDD) on 202-263-4869.

Privacy Act Notice: The information you provide will be used to assist us in prescreening you to ensure the security of the Board's premises and personnel. In order to do this, we may disclose your information consistent with the routine uses listed in the Privacy Act Notice for BGFRS-32, including to appropriate federal, state, local or foreign agencies where disclosure is reasonably necessary to determine whether you pose a security risk or where the security or confidentiality of your information has been compromised. We are authorized to collect your information by 12 U.S.C. 243 and 248, and Executive Order 9397. In accordance with Executive Order 9397, we collect your SSN so that we can keep accurate records, because other people may have the same name and birth date. In addition, we use your SSN when we make requests for information about you from law enforcement and other regulatory agency databases. Furnishing the information requested is voluntary; however, your failure to provide any of the information requested may result in disapproval of your request for access to the Board's premises. You may be subject to a fine or imprisonment under 18 U.S.C. 1001 for any false statements you make in your request to enter the Board's premises.

DEPARTMENT OF HEALTH AND HUMAN SERVICES**Announcement of Availability of the Report on Carcinogens, Twelfth Edition**

AGENCY: National Toxicology Program (NTP), National Institute of Environmental Health Sciences (NIEHS); National Institutes of Health (NIH).

ACTION: Availability of the Report on Carcinogens, Twelfth Edition (12th RoC).

SUMMARY: The Department of Health and Human Services released the 12th RoC to the public on June 10, 2011. The report is available on the RoC Web site at: <http://ntp.niehs.nih.gov/go/roc12> or in printed text or electronically from the Office of the RoC (see **ADDRESSES** below).

DATES: The 12th RoC will be available to the public on June 10, 2011.

ADDRESSES: Dr. Ruth Lunn, Director, Office of the RoC, NTP, NIEHS, P.O. Box 12233, MD K2-14, Research Triangle Park, NC 27709; *telephone:* (919) 316-4637; *FAX:* (919) 541-0144; *lunn@niehs.nih.gov*.

FOR FURTHER INFORMATION CONTACT: Questions or comments concerning the 12th RoC should be directed to Dr. Ruth Lunn (*telephone:* (919) 361-4637 or *lunn@niehs.nih.gov*).

SUPPLEMENTARY INFORMATION:

Background Information on the RoC

The RoC is a Congressionally mandated document that identifies and discusses agents, substances, mixtures, or exposure circumstances (collectively referred to as “substances”) that may pose a hazard to human health by virtue of their carcinogenicity. Substances are listed in the report as either *known* or *reasonably anticipated to be human carcinogens*. The listing of a substance in the RoC indicates a potential hazard, but does not establish the exposure conditions that would pose cancer risks to individuals in their daily lives. For each listed substance, the RoC provides information from cancer studies that support the listing as well as information about potential sources of exposure and current Federal regulations to limit exposures. Each edition of the RoC is cumulative, that is, it lists newly reviewed substances in addition to substances listed in the previous edition. Information about the RoC is available on the RoC Web site (<http://ntp.niehs.nih.gov/go/roc12>) or by contacting Dr. Lunn (see **ADDRESSES** above).

The NTP prepares the RoC on behalf of the Secretary of Health and Human Services. For the 12th RoC, the NTP followed an established, multi-step process with multiple opportunities for public input, and used established criteria to evaluate the scientific evidence on each candidate substance under review (<http://ntp.niehs.nih.gov/go/15208>).

New Listings to the 12th RoC

The 12th RoC contains 240 listings, some of which consist of a class of structurally related chemicals or agents. There are six new listings and two revised listings in this edition. The revised listings include (1) Formaldehyde, which was previously listed as *reasonably anticipated to be a human carcinogen* and is now listed as *known to be a human carcinogen*, and (2) certain glass wool fibers (inhalable). Glass wool (respirable) was first listed in the 7th RoC as *reasonably anticipated to be a human carcinogen*, but the scope of the listing changed and now certain glass wool fibers (inhalable) are listed as *reasonably anticipated to be human carcinogens*. The six new listings to the 12th RoC include one substance, aristolochic acids, listed as *known to be human carcinogens*, and five substances—captafol, cobalt-tungsten carbide: powders and hard metals, o-nitrotoluene, riddelliine, and styrene—listed as *reasonably anticipated to be a human carcinogen*.

Dated: June 14, 2011.

Director, National Institute of Environmental Health Sciences and National Toxicology Program.

Proposed Data Collections Submitted for Public Comment and Recommendations

In compliance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the Centers for Disease Control and Prevention (CDC) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the data collection plans and instruments, call 404-639-5960 and send comments to Daniel Holcomb, CDC Reports Clearance Officer, 1600 Clifton Road, MS-D74, Atlanta, GA 30333 or send an e-mail to *omb@cdc.gov*.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have

practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Written comments should be received within 60 days of this notice.

Proposed Project

Environmental Health Specialists Network (EHS-NET) Program Generic Package (no. 0920-0792; expiration date: 10/31/2011)—Revision—National Center for Environmental Health (NCEH), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

The CDC is requesting OMB approval for three additional years to use this generic clearance for a research program focused on identifying the environmental causes of foodborne illness. This revision will provide OMB clearance for EHS-NET data collections conducted in 2011 through 2014 (a maximum of 3 annually). The program is revising the generic information collection request (ICR) in the following ways:

(1) We reduced the number of respondent groups from 3 to 1.

(2) We reduced the number of studies we expect to conduct on an annual basis, which reduces the estimated burden.

(3) We will use enhanced statistical methods in comparison to the previous ICR. Specifically, we plan to collect generalizable data.

Reducing foodborne illness first requires identification and understanding of the environmental factors that cause these illnesses. We need to know how and why food becomes contaminated with foodborne illness pathogens. This information can then be used to determine effective food safety prevention methods. Ultimately, these actions can lead to increased regulatory program effectiveness and decreased foodborne illness. The purpose of this food safety research program is to identify and understand environmental factors associated with foodborne illness and outbreaks. This program will continue to involve up to 3 data collections a year. This program is conducted by the Environmental Health Specialists Network (EHS-NET), a collaborative project of CDC, FDA, USDA, and six state/local sites (CA, NYC, NY, MN, RI, and TN).
