<b>2010 Hiring Reform Action Plan</b>				
<b>Hiring Reform Initiative:</b> Eliminate any requirement that applicants respond to essay-style questions when submitting their initial application materials for any Federal job.	<b>Date:</b> <b>July 29, 2010</b>			
<b>Describe the barrier, problem, or deficiency being addressed:</b> Expansion to streamlined strategies is hindered by the application of appropriate qualification standards to assess minimum qualifications for positions.				
<b>Describe what is causing the barrier/problem (i.e., What is the root cause?):</b> The current qualification standards are written specifically towards assessing answers to essay questions and the qualifications are not always easily identified on a resume.				
<b>Define success or the desired outcome upon completion of applied tasks:</b> The resume only process does not extend the time period for HR review of qualifications and new employee survey scores show improved satisfaction with the hiring process.

The NRC has conducted two Lean Six Sigma Studies of the Hiring Process. This has resulted in implementing some streamlining initiatives. The NRC chooses to use the 45 day hiring metric as a measure. We recruit for highly skilled individuals and they cannot always come on board in a 2 week notice period. In addition, we have a Security process for all employees. We have been very successful using the 45 day hiring metric and manager's work within that timeframe.	As part of the NRC Operating Plan each office reports on a quarterly basis on the 45 day hiring metric. This is then rolled into an Agency level metric.	Ongoing	Powell	NA

<b>2010 Hiring Reform Action Plan</b>																													
<b>Hiring Reform Initiative:</b> Notify individuals applying for Federal employment through USAJOBS, an OPM-approved Federal web-based employment search portal, about the status of their application at key stages of the application process.	<b>Date:</b> <b>July 29, 2010</b>																												
<b>Describe the barrier, problem, or deficiency being addressed:</b> Applicant notifications sent out by HR Specialists do not align with the applicant status in USAJOBS.																													
<b>Describe what is causing the barrier/problem (i.e., What is the root cause?):</b> NRC uses Hiring Management as a front end to USA jobs. The status of applicants in Hiring Management does not correlate one for one to the USAJobs applicant status. The NRC hiring system is in transition to a more modern system and we hope this will eliminate some of the issues. Staff needs time to complete the transition.																													
<b>Define success or the desired outcome upon completion of applied tasks:</b> New employee survey scores show improved satisfaction with the hiring process.
