Subject: Bayou Terrebonne Emergency Use Authorization Request

Please accept this email as a request on behalf of Terrebonne Parish Consolidated Government for written emergency authorization to proceed with the construction of an earthen embankment along the eastern bank of Bayou Terrebonne to minimize impacts associated with MC252 Deepwater Oil spill. Attached are project location maps and preliminary drawings with estimated borrow quantities for both the upper and lower reaches. Borrow material will be dredged from Bayou Terrebonne and side cast to reestablish the eastern bank within open water sections along Bayou Terrebonne. Oyster leases within Bayou Terrebonne from Bush Canal to Lapeyrouse Canal (map attached) have been obtained by the Terrebonne Levee and Conservation District for the Morganza to the Gulf Project and any other obstruction will be identified prior to construction.

Applicant: Terrebonne Parish

POC: Terrebonne Parish President Michel Claudet, mobile [REDACTED] or Leslie Suazo [REDACTED]

Area of impact: Channel of Bayou Terrebonne and East bank of Bayou Terrebonne (Located on attached map).

Protection installed: Earthen embankment constructed from borrow material within Bayou Terrebonne

Installation: Possibly Parish and Terrebonne Levee District equipment and personnel, supplemented with contractors

Your consideration for this request is greatly appreciated. Equipment is on standby to begin deployment upon written authorization to proceed.

You may contact me for additional information if needed [REDACTED]

Thank you for consideration of this request.

Jerome Zeringue

Deputy Director

Hello Jerome,

I have been assigned Project Manager for the below described project. For reference, the Corps file number is: MVN-2010-01338-WJJ.

Based on the information submitted in the e-mail chain below and attachments, I have determined that your request does not meet the requirements for emergency permitting procedures from this District. Therefore, I respectfully request that Terrebonne Parish submit a completed Joint Permit Application and appropriate drawings to detail the work they are requesting through the Louisiana Department of Natural Resources and subsequently allow this project to be evaluated through normal permitting procedures. If you would like to meet to discuss the proposal prior to submitting your joint application, please contact me and I will arrange for such a meeting. It would be helpful if a jurisdictional determination/delineation were completed for your proposed project footprint prior to submitting your application to define the limit of Department of the Army jurisdiction. If you would like information on jurisdictional determinations, please contact Mr. Rob Heffner, Chief of our Surveillance and Enforcement Section at (504) 862-1288.

Thank you. I look forward to working with you on this proposal.  
Bobby

Jerome,

I have not heard back on- is applicant planning to proceed with normal permitting procedures for above project?
