

# Trading Cards

*"Things happen for a reason"*  
*"No hay mal, que por bien no venga"*

**Name:** Berta Alfonso

**Title:** Computer Design Engineer

**What I do:** I design computer hardware and software for the space program. I work with a team of engineers to design, build, and "debug" systems for the payloads, shuttle and space station. The process of bringing new ideas to life is what I love best about my job!

**Education:** B.S. in Electrical/ Computer Engineering

**Experience:** sixteen years at NASA/KSC as a Design Engineer; one year at KSC as a Systems Engineer

**Skills:** computer programming (logic, reasoning, the binary, and hexadecimal number systems), computer electronics, mechanical systems

**Interests:** spending time with family, traveling
