

Trading Cards

Name: Bruce Jakosky

Title: Astrobiologist

What I do: I study Mars atmosphere, surface and subsurface to understand the availability of resources to support life. I'm also interested in the relationship between science and society and why issues about life on Mars are so engaging to the public.

Education: Ph.D.

Experience: became involved in Mars research working on the Viking mission which led to an interest in potential for life

Skills: ability to string words into a coherent sentence; broad understanding of different scientific disciplines; touch typing

Interests: literature, music and roller blading

"Buy stock low and sell high, and if it doesn't go up, don't buy it in the first place."
