“Read, think, study, read, think, study, read, think, study, read, think, study, read.”

Name: Dawn M. McIntosh

Title: Computer Engineer

What I do: I help write computer code to create a virtual environment of the International Space Station. The virtual environment can be used to train astronauts.

Education: B.S. in Astrophysics

Experience: at NASA worked two and a half years in Atmospheric Sciences and Computational Sciences

Skills: willingness to learn new things and take on new tasks; team player, critical thinking

Interests: traveling, reading, gardening, swimming
