INTRODUCTION

UniSea Fleet Cooperative (UFC) is pleased to submit this document and results of their 2009 Bering Sea fishery to the North Pacific Fishery Management Council (NPFMC) in compliance with annual reporting requirements of the 1998 American Fisheries Act (AFA).

Year 2009 was the tenth year of UFC operations under the AFA. The UniSea fleet was managed and operated during 2009 following the successful model established during the preceding 2000-2008 fisheries--basically without change. This document format and 14 exhibits herein reporting UFC co-op members, management, allocations, catches, sideboard limits, prohibited species catches and enforcement is also consistent with UFC's earlier years reporting to the NPFMC. We believe this reporting format and detail is both in keeping with AFA reporting requirements and provides easy comparison to the prior year results.

UNISEA FLEET MEMBER VESSELS AND CO-OP MANAGEMENT

Nine individual members of the UFC representing 14 catcher vessels signed their Co-op Membership Agreement, which enabled them to operate under the laws of the AFA in a fishing cooperative delivering pollock to UniSea Inc. during the 2009 fishing season (Attachment 1, UniSea Fleet Cooperative Membership Agreement 2009 Addendum dated 12/01/08 with pollock harvest schedule). The 2009 member vessels and their owners are listed below:

Margaret Hall, General Manager, Rondy's, Inc.

- F/V *Alsa* 124 ft LOA
- F/V *Argosy* 124 ft LOA

Jeff Hendricks, Manager, Auriga/Aurora General Partnership

- F/V *Auriga* 193 ft LOA
- F/V *Aurora* 193 ft LOA

Barry Ohai, Manager, F/V *Defender* LLC

- F/V *Defender* 195 ft LOA

Barry Ohai, Authorized Agent, Pacmon LLC

- F/V *Pacific Monarch* 165 ft LOA

Gunnar Ildhuso, Jr., Margun Enterprises, LLC

- F/V *Mar-Gun* 112 ft LOA

Gunnar Ildhuso, Jr., President, Ildhuso Fisheries, Inc.

- F/V *Gun-Mar* 164 ft LOA

Chris Swasand, Member, Aleutian Spray Fisheries, Inc.

- F/V *Starfish* 123 ft LOA

Cary Swasand, F/V *Nordic Star* LLC

- F/V *Nordic Star* 123 ft LOA

Fred Yeck, President, FY Fisheries, Inc.

- F/V *Sea Dawn* 124 ft LOA

Phil Hanson, President, Starlite Fisheries, LLC.

- F/V *Starlite* 123 ft LOA

Phil Hanson, President, Starward Fisheries, LLC.

- F/V *Starward* 123 ft LOA

Rick Mezich, President, Fierce Allegiance, LLC.

- F/V *Fierce Allegiance* 167 ft LOA

Co-op management and administration continued during 2009 and remained basically unchanged from management and administration of the nine prior co-op years (Exhibit 1). Mr. Jeff Hendricks continued to serve as the president of UFC and Mr. Pete Maloney continued to serve as the UFC coordinator. Coordination of information on allocations, transfers, pollock catches, sideboard catches and prohibited species catches between the UniSea plant in Dutch Harbor, the member vessels, Sea State, the Inter Co-op Manager and the National Marine Fisheries Service all continued during 2009 as established in year 2000 and as conducted in 2001-2008.

UFC BERING SEA POLLOCK ALLOCATION TRANSFERS AND CATCH

In 2009, UFC's 14 member vessels received a final AFA Bering Sea pollock allocation that totaled 85,400 mt. This pollock allocation to UFC represented 12.128% of the total Bering Sea directed pollock allocation and 24.256% of the inshore sector allocation. Exhibit 2 shows the distribution of final 2009 pollock allocations between the seven inshore pollock cooperatives. UFC's allocation of 24.256% of the inshore sector allocation ranked UFC as the second largest inshore co-op.

Each of the 14 UFC vessel's final pollock allocations are identified in Exhibit 3 showing their respective tonnage and each vessel's percentage of the UFC total allocation. The F/V *Pacific Monarch's* allocation was transferred to 8 other vessels in the UFC and divided up between those 8 vessels as reported in Exhibit 4.

Exhibit 5 reports the final 2009 Bering Sea pollock allocations for each of the remaining and active 13 vessels in the UniSea fleet during the 2009 season after both the F/V *Pacific Monarch* transfers and after in-season transfers of pollock allocations between member vessels.

Exhibit 6 provides UFC Bering Sea pollock catches that occurred during the 2009 season relative to final allocations after all co-op transfers. The UFC directed Bering Sea pollock catch totaled 85,394.068 mt, which was 5.932 mt less than the final allocation. This catch equated to 99.99% utilization of the final 2009 Bering Sea pollock allocation.

The AFA provides that co-op member vessels may deliver up to 10% of the co-op's Bering Sea pollock catch to non-affiliated processors. During 2009, UFC member vessels delivered 84,840.318 mt of their 85,285.443 mt total deliveries to their affiliated plant at UniSea. The UniSea deliveries represented 99.48% of all directed pollock deliveries by UFC member vessels, in keeping with AFA requirements.

Bycatch of other groundfish, herring, halibut, crab and salmon from the directed Bering Sea pollock fishery is detailed by member vessel in Exhibit 7. Pollock represented 97.03% of the total catch of pollock plus all other groundfish in the directed pollock fishery.

Further detail of salmon bycatch in the directed Bering Sea pollock fishery is reported for UFC in 2009 to meet additional reporting requirements under Amendment 84 as begun in 2008 (salmon bycatch ICA). Specifically, Exhibit 7 summarizes the seasonal (A and B) catches of Chinook and chum salmon (other salmon), and the number of appearances of each vessel on the "dirty 20" lists for both salmon species. To appear on the "dirty 20" list, a vessel must have exceeded the salmon bycatch base rate for that weekly period and have been among the top 20 vessels with the highest salmon bycatch rate for that weekly period.

We have been advised of a new reporting requirement that continues into 2009 which deals with estimated numbers of salmon avoided by vessels as a result of vessels relocating fishing effort away from salmon savings areas. We understand that this salmon savings analysis will be calculated by industry sector and presented in the Inter-coop Report rather than in each individual cooperative report.

Regarding the new compliance audit reporting requirement dealing with vessels violating the rolling hotspot closures for salmon bycatch, we are not aware of any UFC member violations, but we have been advised that the required third party audit of vessel VMS data is not concluded. That report from the separate third party audit will be provided to the NPFMC when it is available.

SIDEBOARD LIMITATIONS, ALLOCATIONS AND CATCHES

The laws of the AFA place limits on AFA qualified catcher vessels whereby their harvest of groundfish other than Bering Sea pollock is limited to historic levels. Halibut bycatch (PSC) is also limited through the co-op sideboard allocations. By AFA definition, all catch of groundfish sideboard species made by non-exempt AFA catcher vessels, whether as targeted catch or incidental catch, are to be deducted from the sideboard limits. These are reported in the final harvest specifications (Table 13, 74 FR 7359) and are intended to be a cap on all catches of these species.

Initial BSAI sideboard limits for all AFA CV cooperatives totaled 55,737 mt for all sideboard species. Of this total, only BSAI Pacific cod was allocated further to AFA co-ops and the allocation to UFC vessels totaled 3,264 mt where 227 mt was transferred from UFC to other co-ops leaving 3,037 mt of Pacific cod sideboard for UFC vessels. A total of 3,588 mt of BSAI sideboard species were caught by UFC vessels and 1,634 mt of UFC allocated sideboards were left unharvested (Exhibit 8). Aggregate differences between catch and sideboard limits for all AFA CV cooperatives will be reported in the Inter-coop Report.

Initial GOA sideboard limits for all AFA CV cooperatives totaled 20,844 mt for all sideboard species. Only pollock and Pacific cod were allocated further to AFA co-ops and this allocation to UFC vessels totaled 2,271 mt where 0 mt was transferred from UFC to other co-ops leaving 2,271 mt of sideboard for UFC vessels (Exhibit 9). UFC member vessels did not conduct fisheries for pollock or for other species of groundfish in the GOA management region and all GOA sideboard limits were left unharvested.

DIRECTED BERING SEA COD AND GULF POLLOCK FISHERY

UFC member vessels conducted a small directed Bering Sea cod fishery within sideboard limits (3,037 mt) during 2009. This fishery was conducted by three member vessels (Exhibit 10) and yielded a harvest of 832 mt. UFC member vessels did not conduct a directed fishery for Gulf of Alaska pollock, and they did not conduct directed fisheries for yellowfin sole or rock sole.

Bycatch of other groundfish, halibut, herring, crab and salmon in the UFC directed Bering Sea cod fishery is detailed in Exhibit 11. Cod comprised 71.7% of the total groundfish catch in UFC's directed Bering Sea cod fishery.

As earlier noted, UFC member vessels did not fish Gulf of Alaska pollock in 2009 and there were no transfers of this GOA pollock allocation to other coops leaving all 2,110 mt unharvested.

DIRECTED CRAB FISHING

Amendments 18 and 19 to the Fishery Management Plan for BSAI king and Tanner crab (70FR 10174 – March 2005), commonly referred to as the BSAI Crab Rationalization Program, have eliminated the prior AFA crab harvesting reporting requirements by AFA pollock vessels.

UFC PROHIBITED SPECIES AND ALL GROUND FISH CATCH TOTALS

UFC member vessel total prohibited species catches of halibut, herring, Bristol Bay red king crab, *bairdi* Tanner crab, other Tanner crab, chinook salmon and other salmon from all directed Bering Sea pollock and cod fisheries are provided in Exhibit 13. UFC member vessels total catch (landings and discards) by groundfish species, area and vessel is shown in Exhibit 14.

UFC MONITORING AND ENFORCEMENT

All UFC directed Bering Sea pollock and cod catches, as well as sideboard catches and the halibut PSC were successfully managed and did not exceed allocations. The co-op was accordingly not required to take any enforcement actions.

Note:

Total landings and discards by vessel are provided by Seastate including any adjustments from final NMFS observer data and represent all directed or incidental catch of both landings and discards taken in all UFC fishing in 2009. Discards of non-sideboard species are accounted for by MIRA compliance primarily during the directed cod fishing.

ATTACHMENT 1

UFC MEMBERSHIP AGREEMENT 2009 ADDENDUM

UNISEA FLEET COOPERATIVE

MEMBERSHIP AGREEMENT

2009 ADDENDUM

Each of the undersigned hereby acknowledges and agrees that the terms and conditions of the UniSea Fleet Cooperative Membership Agreement dated as of December 14, 1999, as amended by that First Amendment to Membership Agreement dated as of May 10, 2001, that Second Amendment to Membership Agreement dated as of May 15, 2003, that Third Amendment to Membership Agreement dated as of June 30, 2004, that Fourth Amendment to Membership Agreement dated as of January 10, 2006, that Membership Agreement Addendum dated as of January 10, 2006, and that Fifth Amendment to Membership Agreement dated as of February 5, 2007 shall be in full force and effect among the undersigned for the year 2009, and that Exhibit A attached hereto replaces in its entirety Exhibit A to the Membership Agreement and to all prior amendments and addenda thereto.

In addition, each of the undersigned hereby certifies that the vessel on behalf of which it is executing this Addendum: (i) delivered more pollock to UniSea, Inc. than to any other AFA inshore processor in the last year in which the vessel engaged in directed fishing for pollock in the BSAI for delivery to the inshore sector; (ii) is a qualified catcher vessel; (iii) is otherwise eligible to fish for groundfish in the BSAI; (iv) has an AFA catcher vessel permit with an inshore endorsement; and (v) has no permit sanctions or other type of sanctions against it that would prevent it from fishing for groundfish in the BSAI.

Dated effective as of December 1, 2008.
