SUBJECT : Correction to the FY 1992 Allotment in the Title I Vocational Rehabilitation
(VR) Services Program

CONTENT : On January 14, 1992, Information Memorandum (IM) 92-11 was issued.
Attached to it was the FY 1992 Allotment Table for the Title I VR Services
Program. That IM explained that the formula was being adjusted to distribute
the Trust Territory of the Pacific Islands funds in the initial allotment instead of
during the reallocation process.

Since that time RSA has discovered that the contractor-developed allotment system produced an error in the calculation of the distribution of these funds. The purpose of this IM is to provide each State agency with a corrected FY 1992 Allotment Table. With the correction, most State agencies will receive a very small increase in their allotments. The correction for a few State agencies will result in a slight (no more than 0.16 percent) decrease in their allotments. You are reminded that all State agencies may request additional funds during the reallocation.

¹ Under Development

Attached is a copy of the new FY 1992 Allotment Table. The revised FY 1992 annual allotment amount will be reflected in the fourth quarter allotment. RSA regrets if this error has created an inconvenience to any State agency.

INQUIRIES: If there are any questions concerning this correction to the distribution of the remainder of the FY 1992 Title I VR Program funds, contact the Director, Financial Management and Information Systems Staff, at (202) 732-1358.
