SUBJECT : Summary of Statistical Information of the Randolph-
Sheppard Vending Facility Program for Fiscal Year
1993

Attached for your use is a Table showing the National Summary of Operations of the Vending Facility Program for Fiscal Year (FY) 1993 as compared with FY 1992.

The Randolph-Sheppard Act at 20 USC §107d-3(a) provides authority to the Commissioner of the Rehabilitation Services Administration to prescribe regulations that impose a ceiling on income from vending machines on Federal property that is disbursed to eligible vendors each year. The Randolph-Sheppard regulations at 34 CFR §395.8(a) state: "Vending machine income from vending machines on Federal property which has been disbursed to the State licensing agency by a property managing department, agency, or instrumentality of the United States under §395.32 shall accrue to each blind vendor operating a vending facility on such Federal property in each State in an amount not to exceed the average net income of the total number of blind vendors within such State, as determined each fiscal year on the basis of each prior year's operation, except that vending machine income shall not accrue to any blind vendor in any amount exceeding the average net income of the total number of blind vendors in the United States." (Underlining added.) The national average net income in FY 1993 was \$25,832.

It should be noted, that the degree of competition presented to blind licensees operating facilities on Federal property by non-blind operated vending machines is relevant only to a determination of the amount of vending machine income the Federal agency must disburse to the State licensing agency. The degree of competition is not relevant to the obligations imposed upon the State licensing agency to in turn disburse income to a licensed vendor on the Federal property. See 20 U.S.C. §107d-3 and 34 C.F.R. 395.32.

The Randolph-Sheppard regulations at 34 C.F.R. 395.1(g) state in relevant part: "Federal property means any building, land, or other real property owned, leased, or occupied by any department, agency, or instrumentality of the United States...."

The data contained in the attached Table were obtained from the Form RSA-15 for FY 1993. Any subsequent data revisions by individual States may cause minor changes in the totals. These data in part are used by the Commissioner to implement 34 C.F.R. 395.8(a).

The total gross income for the program was \$401.0 million in FY 1993 compared to \$397.5 million in FY 1992, a 0.9 percent increase. The total earnings of all vendors were \$80.9 million in FY 1993 and \$78.7 million in FY 1992, an increase of 2.9 percent. The national average annual earnings of vendors increased 4.2 percent to \$25,832 in FY 1993 from \$24,783 the previous year.¹

The number of vendors in FY 1993 was 3,486 compared to 3,487 in FY 1992, a decrease of 1 operator. There were 3,389 vending facilities in FY 1993 and 3,344 the previous year. This is an increase of 45 locations.

¹ The average annual earnings of vendors is determined by dividing the vendors' total earnings by the number of vendor person years. In FY 1993, the number of vendor person years was 3133.5.
