INFORMATION MEMORANDUM
RSA-IM-01-04
DATE: October 20, 2000

TO: :   STATE VOCATIONAL REHABILITATION AGENCIES (GENERAL)
                    STATE VOCATIONAL REHABILITATION AGENCIES (BLIND)

SUBJECT   :   REVISED COMPUTER EDITS FOR THE RSA-911

CONTENT   :   RSA has revised the computer edit program for the RSA-911 data system.
                    There are two Y2K-compliant versions of the edit: one for Windows 95/98 and
                    one for Windows NT. Both versions are available for download at
                    "http://www.rehabsrvs.bizland.com". Instructions and additional information are
                    available at this site.

                    Since the recent distribution of a few copies of the edits as a Beta test, several
                    corrections and enhancements have been made. It is possible that some
                    additional issues might arise as the edits are implemented by all State
                    Vocational Rehabilitation agencies. An e-mail list of individuals within your
                    agencies responsible for RSA-911 data processing would facilitate the
                    distribution of future revisions of the edit programs. Please provide the contact
                    person noted below with the e-mail addresses of the appropriate individual(s).

EFFECTIVE
DATE   :   Upon Issuance

INQUIRIES :   Questions and requested feedback should be addressed to Mr. John Chapman,
                    Chief, Data Management Unit, RSA at 202-205-9290, or by e-mail at
                    "john_w._chapman@ed.gov."
