

Specialties Offered at GLWACH

Below you will find a current list of specialty clinics and phone numbers. If you are referred by a network provider to another network provider whose specialty is on the list below, don't be surprised if your referral is redirected back the Military treatment facility (MTF).

This is called Right of First Refusal. As a Tricare Prime member, you have agreed that any specialty services that the MTF can provide will be provided at the MTF if we have the capability to do so. We have multiple providers across these specialties so second opinions within the MTF are also available.

If the MTF is not the option you wish to utilize, you can switch to Tricare Standard or utilize Tricare point of service option. Utilizing the MTF will be far less expensive and there are no co-pays.

If your network provider would like to refer you the GLWACH, they should utilize the same forms Triwest offers for network specialty care and request Fort Leonard Wood / GLWACH as the servicing provider.

Specialty	Contact #	Beneficiary Type	Limitation
Audiology	596-0048	All Tricare Prime (Network & MTF)	
Behavioral Health	596-0522	Prime Enrolled to MTF
