# Lexington Biomedical Research Institute (LBRI)

The Lexington Biomedical Research

**Services Provided by LBRI**

Institute (LBRI) was incorporated in the state of Kentucky as a nonprofit charitable corporation in 1992 and is a federally tax exempt nonprofit 501 (c) (3) corporation.

Clinical Studies Administration

NIH grant support Administration

Animal Studies Administration

Assist with the Cooperative Research & Development Agreements (CRADA) for VA studies

LBRI officially became active in January 2012 to provide the much needed flexibility and management of research and education at the Lexington VA Medical Center.

The office is located in Room C-307, Research & Development Service at the Lexington VA Medical Center.

***Research is Good Medicine***

VA Researchers play a major role in providing high quality care for the veterans and advancing medical science.

Contact us today and let's discuss how LBRI can facilitate your research.
