

## **Scout Troop Visitation and Tour Policy**

### Fourth Grade and Above

Scout groups may visit the bison and the Interpretative Trail without advance notice. They may also visit the Lederman Science Center during regular business hours, 8:30 AM–4:30 PM, Monday through Friday; and 9:00 AM–3:00 PM on Saturdays. Group leaders must contact Maureen Hix at 630-840-5588 or [edreg@fnal.gov](mailto:edreg@fnal.gov) to schedule a visit to the Center. Fermilab will not provide docents, but any group larger than ten individuals must be added to the Center's calendar. One adult chaperone for every five children is required.

### General Information

We encourage visits on school holidays, after school and Saturdays. Each badge session is conducted by a Fermilab docent and lasts two hours. The charge is \$60.00/up to 20 scouts. Fermilab patches are available at the Lederman Science Center store.

For questions about the activities associated with the badges or to schedule a badge session, please contact Sue Sheehan at 630-840-5058 or [sheehan@fnal.gov](mailto:sheehan@fnal.gov).
