

EPS Global International Cancer Conferenece

Sept. 10-12th, 2010

Suzhou, China

Welcome Message

Dear Colleagues and Friends,

It is my pleasure to announce that EPS Global International Cancer Conference will be held on September 10-12th in Suzhou, China.

The goal of this meeting is to present both clinical and scientific search in cancer, updates of translational research in Cancer, advances in Prevention, Screening, and Detection of Cancers. Stakeholders, including laboratory scientists, pathologists, clinicians, statisticians, industry representatives, healthcare providers, will discuss the practical use of cancer biomarkers and other hot Oncology topics.

The meeting will provide you a great opportunity to:

- Investigate the current use of molecular markers for the screening, detection, diagnosis, and treatment of cancer
- Recognize the appropriate use of chemotherapy and biologic agents dependent on molecular marker status
- Assess the clinical development challenges of molecular markers and the utility of laboratory assays and techniques
- Identify successful methods of molecular marker clinical trial development
- Share the experience of cancer detection, treatment, and prevention.

Based in Montreal of Canada, EPS Global Medical Development Inc. is a world leading medical and biotech consultancy which offers a unique blend of scientific and medical relations, collaborations and partnerships across the cultures of the East and the West.

The venue is Suzhou of China, a very kind and long historical city with great scenery which will make your trip unforgettable.

Welcome to Suzhou, China.

Sincerely,

Dr. Yao Lu

Executive Chair of EPS Global International Cancer Conference

President, EPS Global Medical Development Inc.

Overview of Scientific Program

Wide ranges of topics will be covered in the field of new technology, research and clinical application, including

◆ Section I : Cancer Molecular Markers

1. the Forecast for Epigenetics and microRNA
2. Diagnostics and therapeutics development based on microRNA and epigenetic signatures
3. Gene Signatures in Cancer Diagnostics

◆ Section II: Tumour Markers and the Detection, Screening and Recurrence of Cancer

1. Prognostic and predictive value to Radiotherapy, and Chemotherapy
2. Application in Cancer System Treatment

◆ Section IV: New Technology in Lab test

New test technology for DNA Marker, Protein Marker and others

◆ Section V Others

1. Advances in Prevention, Screening, and Detection of Cancers
2. Current Development in Cancer Research
3. Regional and Targeting Cancer Therapy
4. Radiation image and treatment
5. Patient Care and Quality of Life
6. Others

Tentative schedule

Sep.10,,2010 Friday		Sep. 11, 2010 Saturday	Sep. 12, 2010 Sunday
Registration	8:30-10:00	Opening Ceremony Cancer Molecular Markers	Regional and Targeting Cancer Therapy
	10:00-10:10	Coffee break	Coffee break
	10:10-12:00	Cancer Molecular Markers Radiation Oncology	Prevention, Screening, and Detection of Cancers Others
	12:00-13:00	Lunch	Closing ceremony Lunch
	13:00-15:30	Detection, Screening and Recurrence of Cancer	
	15:30-15:40	Coffee break	
	15:40-17:00	New technology in Lab Test	
	18:00-20:00	Dinner	

Registration Fee

Meeting registration fees: **\$800 USD**

The 3 nights hotel accommodation (Sept.10-12, 2010) will be covered for speakers.

Payment Method:

By Bank Cheques - made in favour of:

Account Name: EPS Global Medical Development Inc.

Account No: 021-313040-001

Bank name & address: BANQUE HSBC CANADA

88 boul.Revé-Lévesque Ouest, Montreal, Quebec H2Z 1A2

Swift Code: HKBCCATT

Or By Money Order or Bank Draft:

Please include our company name "EPS GLOBAL MEDICAL DEVELOPMENT INC." in the Money Order or Bank Draft, and mail it to our company's address:

EPS GLOBAL MEDICAL DEVELOPMENT INC.

1625 De Maisonneuve Ouest, Suite 305, Montreal, Quebec, H3H 2N4 Canada

Cancellation & Refund Policy

We must be notified in writing of all cancellations. Refunds will be processed after the conference.

Cancellation on or before August 10, 2010: 50% refund

Cancellation after August 10, 2010: No refund

No refund for delays or no attending caused by unforeseen circumstances.

Visa

Visas are required for some nationalities to travel to China for this conference. Please contact your travel agent and/or the Chinese Consulate/Embassy in your country for exact details and visa application procedures as soon as possible. Visa processing times can vary.

Participants are highly recommended to apply for Tourist Visa; the organizing committee will not issue any official letters of invitation for your visa application.

About Suzhou , China

Suzhou is located in the south of Jiangsu Province. Suzhou is a well-known historic and cultural city as well as a tourist city of national importance. Praised as "garden city" since ancient time,

Suzhou enjoys a high reputation worldwide due to its possession of favorable location and excellent talents. With a long history of two thousand old years, Suzhou has a humid subtropical climate with hot, humid summers, and cool to cold, cloudy, damp winters with occasional flurries. The spring and autumn are much more pleasant. Spring and fall are the best times to visit Suzhou, with moderate rains and temperatures making for pleasant outdoor weather. September is nice and October is Brilliant, with little rain and highs ranging from the about 15-24 °C.

Since 42% area of the city is covered by water, including a vast number of ponds and streams,

Suzhou is praised as the 'Oriental Venice'. Taihu Lake, four fifths of which is in the territory of Suzhou, is one of the four largest fresh lakes in China, with East Hill, West Hill and other scenic spots in its vicinity. The city is cut by the Beijing-Hangzhou Grand Canal from north to south. Together with its mild climate, making it an available destination all year round, fertile landscape and abundance of produce, it is no wonder that Suzhou is called

'paradise on earth'.

Built in 514 BC, Suzhou is an ancient city with a 2500 years' history. The unique characteristics of the past are still retained in present-day Suzhou. The double-chessboard

layout of Suzhou, with 'the streets and rivers go side by side while the water and land routes run in parallel', are preserved basically intact. Strolling the streets, you can feel the unique lingering charm of this landscape left by its long history.

EPS Global Medical Development Inc. (hereby referred to as EPS) provides academic exchange services in medicine, biotechnology and management in China, North America, Europe and countries in East Asia. Based in Canada, EPS is the largest medical exchange

services provider for China. With twelve years of experience in academic exchange, EPS has established wide and deep relationships with hundreds of hospitals, health centers, universities, research institutions, biotech giants and pharmaceutical companies all over the world, including Canadian universities, Fox Chase Cancer Center of USA, Germany Siemens Co., and America GE Inc. EPS has connections with the Chinese medical society, including governmental health organizations, medical institutions and hospitals. Each year, EPS organizes visits to China for three hundred Chinese medical professionals to visit and study abroad, and over sixty outstanding professors worldwide, including Nobel Prize Laureates to visit China.

EPS has been collaborating with Chinese partners to organize medical conferences and advanced medical technology training programs, and surgical demonstrations. EPS also sponsors and organizes annual national hospital management conferences in China, and cooperates with pharmaceutical manufacturers in drug development and biotech transfers between China and other countries.

After the successful completion of the Olympics, EPS is highlighting medical exchanges worldwide and welcoming all medical professionals to visit China's hospitals and medical institutions, as well as discover the ancient, mysterious landscapes, and its modernity and prosperity.
