## EXTRA VESSEL TRANSPLANTATION/DESTRUCTION FORM

PLEASE SUBMIT TO: UNOS Research Department / Data Quality

Extra Vessel (Definition) - A vessel taken during procurement of deceased or living donor organ(s) with the intent to be used for vasculature reconstruction or modification of a transplanted organ. Vessels directly attached to the transplantable organ (without surgical modification) are not considered extra vessels. Extra vessels are routinely taken from areas not immediately connected to the transplantable organ (i.e. iliac

\*\* This form is used for reporting extra vessel destruction, or the transplant of an extra vessel that could not be reported

electronically in UNet<sup>SM</sup>. See the Transplant Center Vessel Reporting Guide or the OPO Vessel Reporting Guide for guidance on

<b>OPTN Policy 5.10.2 Vessel storage -</b> The Transplant Center must designate a person to monitor and maintain records, destroy, and notify the OPTN of outcome and/or use of vessels. This designated person must maintain information on all donor vessels including monitoring and maintaining all records relating to the use and management of donor vessels (e.g. subsequent positive serology testing, monitor inventory of stored vascular conduits). This person must monitor the refrigerator, ensure records are up to date and available with the conduits, destroy the vessels when expired, and notify the OPTN of its use or disposal.
