

Basic Occupational Health Center Services (BOHCS)

The following services are available to all Federal employees of agencies participating in Basic Occupational Health Center Services. Participating employees can receive services from any FOH BOHCS Health Center nationwide.

What are the benefits?

- **Minimizes time spent offsite** to obtain basic health services such as injections, etc.
- **Offers employees** personalized health counseling based on individual risk factors
- **Provides education** about and access to ongoing health screenings for major illnesses

“I have been impressed with everyone I have dealt with at FOH. Without exception, I have received timely and helpful information at every stage in the process. The organization is top notch.”

Federal Employee
