

**When a Soldier leaves the Army, do you ask yourself, “What could we have done better?”**

Some are just going to go, no matter what.

But sometimes, their decision is based on incomplete and inaccurate information. When that happens, we need to do better.

ACAP helps ensure that the decision they’re making is rooted in reality. So, if your troops are questioning reenlistment, send them to ACAP early.

**Why?**

Last year 4115 Soldiers reenlisted after going through ACAP.

**That’s a brigade.**

How many more can we save if we work together from the beginning?

## **What the Soldier Doesn't Know May Cost Him**

When it comes to staying in, many troops simply don't know what they don't know.

The Army offers comprehensive and competitive services and benefits to its Soldiers and their Families, compared to the civilian world. Things Soldiers and their Families take for granted often don't exist on the outside, or come at a high price.

### **That's where ACAP comes in.**

We help your troops understand all of the transition considerations, and that means we help them better understand their option to reenlist.

### **Retention is Our Business, Too!**
