

SHIP'S STORE

OKEANOS EXPLORER

AMERICA'S SHIP FOR OCEAN EXPLORATION

🌿 SUPPORT CREW MORALE 🌿

The NOAA Ship Okeanos Explorer's ship's store is a non-profit organization owned and operated by the ship's crew. We provide snacks, beverages, and other necessities that are otherwise unavailable to us while out at sea to the ship's crew and visitors. We also sell promotional items with the ship's logo on them--T-shirts, hats and patches to name a few. The proceeds from our sales simply allow us to restock the store and provide some services to the crew. These include (but are not limited to) buying movies, games, recreational equipment and hosting parties to celebrate events that occur on the ship--all to boost crew morale!

DISCLAIMER

The *Okeanos Explorer* is a working vessel. We have regularly scheduled port calls where we can make time to ship orders. The supplies vary depending on sales, so not all items will be available all the time. We appreciate your business and will do the best we can to accommodate your order. We will require payment in the form of a check prior to shipping. Shipping charges will be submitted with the confirmation. Please be patient: checks may not be cashed for several weeks in the event that we do not have time during an inport to make it to the bank or do not receive payment before leaving the port. There will be no shipments while the ship is overseas. Thank you for your understanding.

To Confirm item availability, please email your order form to:

OESHIPSTORE@HOTMAIL.COM

If an item is not in stock, you will be notified to discuss alternative purchases or given an estimate of delivery. An order is not final until you receive a confirmation from Colleen.

PRICES

LEFT CHEST

OKEANOS: (Okeanos)

Noun, in Greek mythology: primary Greek water deity, the great river encircling the earth. A Titan son of Uranus and Gaea, the husband of Tethys, and the father of the river-gods and the sea nymphs.

EXPLORER: (ik-'splor-er)

Noun, one that explores; especially a person who travels in search of geographical or scientific information
