1. INTRODUCTION

This manual was written as a resource for Exchange Visitor Program Sponsor users, that is, Responsible Officers (ROs) and Alternate Responsible Officers (AROs) of the Student and Exchange Visitor Information System (SEVIS). It is presented in two separate volumes in order to delineate the Form DS-2019, and Form DS-3036, DS-3037, and other program updates. This user manual reflects the changes to SEVIS effective with Release 5.10.

See Attachment A, Resources, for additional resource information.

1.2 Purpose of SEVIS

SEVIS facilitates timely reporting and monitoring of international students, EVs, and their dependents in the United States. SEVIS is an Internet-based application for electronically monitoring and reporting on these individuals. SEVIS enables program sponsors and schools to transmit electronic information to the Immigration and Customs Enforcement (ICE) bureau and the Department of State (DoS) throughout a student's or EV's program in the United States.

SEVIS enables the submission of designation applications. Once designated as an Exchange Visitor Program sponsor, users may update program sponsor information, submit updates to DoS that require approval, and create and update J-1 EV and J-2 dependent records (that is, records of an accompanying spouse and dependent children). The DoS Office of Exchange Coordination and Designation has the capability to review and approve updates made to program sponsor and EV records using SEVIS, and ROs and AROs will be notified of the results.

This manual contains instructions for accessing SEVIS with a permanent user identification (ID) and password; creating and processing Forms DS-2019, Certificate of Eligibility for Exchange Visitor (J-1) Status; and viewing alerts on EVs.

Once a program sponsor has been authorized to use SEVIS, all Forms DS-2019 must be created in and issued from SEVIS. Once an EV's data are entered in SEVIS, program sponsor officials must update the EV's record and report on the events as required by the regulations. See 22 CFR 62, Subpart F, of the Exchange Visitor Program regulations for a detailed explanation.

1.3 Privacy Act Considerations

SEVIS is for the use of authorized users only. Individuals using SEVIS without authority, or in excess of their authority, are subject to having all of their activities on this system monitored and recorded by system personnel. In the course of monitoring individuals improperly using this system, or in the course of system maintenance, the activities of authorized users may also be monitored. Anyone using SEVIS expressly consents to such monitoring and is advised that if such monitoring reveals possible evidence of criminal activity, system personnel may provide the evidence of such monitoring to law enforcement officials. Department of Homeland Security (DHS) has designated SEVIS to be a Privacy Act system of records and SEVIS information will be used and disclosed in accordance with 5 U.S.C. §552a, Privacy Act of 1974, as amended.

1.4 Security Reminder

SEVIS was developed to maintain multiple levels of security in both the real-time and batch systems to help protect against unauthorized access. One of the most important actions that you can take is to safeguard your user ID and password. Your SEVIS user ID and password are intended for your use only. Do not share your user ID and password with any other person and do not keep a written record of your user ID and/or password in a location that can be accessed by others. For program sponsor officials, the Exchange Visitor Program regulations (22 CFR 62.71(b) and 62.79(a)(3)) specifically address this issue.

If you suspect that your password has been compromised, you can reset it using the **Request Password Reset** link on the *SEVIS Login* screen or the **Change Password** link on the navigation bar. Alternatively, you can contact the SEVIS Help Desk at 800-892-4829 to have your password reset.

If you believe that an unauthorized person has obtained access to international student or exchange visitor data in one of your internal systems (e.g., local batch system) or if you believe an unauthorized person has gained access to SEVIS, please notify the DHS Help Desk immediately at 888-347-7762. The DHS Help Desk is staffed 24 hours a day and can assist with security concerns only. All other SEVIS concerns or questions should still be directed to the SEVIS Help Desk at 800-892-4829. When calling the DHS Help Desk to report a security concern, it will be helpful to have the name(s) and contact information for the RO, ARO, and program technical and security contacts, as appropriate.

The DHS Help Desk will contact the Student and Exchange Visitor Program (SEVP) office immediately. SEVP will work with you to take appropriate steps to protect and prevent loss of SEVIS information. Such actions to be taken may include issuing new SEVIS user IDs and passwords as well as loading new security certificates for the SEVIS batch upload process, if

applicable. Additionally, school and sponsor officials who believe that their internal systems may have been compromised should follow their local formal security procedures.

System security is a serious matter. SEVP is committed to addressing any system security concerns or issues that may arise. If you need assistance, please contact the program office at 202-305-2346.

1.5 Acronyms and Abbreviations

Appendix A, Acronyms and Abbreviations, includes a list of terms, abbreviations, and acronyms used in this document.

1.6 Disclaimer

All persons, schools, programs, email addresses, and events depicted in this document are fictitious, and no similarity with any real persons or entities, living or deceased, is intended or should be inferred.

2. DESCRIPTION OF SYSTEM FUNCTIONS

The following sections provide step-by-step instructions for using SEVIS. Included are directions for creating, issuing, and modifying Forms DS-2019 for EVs and dependents. Program sponsor updates and reports are discussed in Volume I of this manual.

2.1 Overview of Screen Components

This section explains SEVIS screens, screen components, and how to navigate through the application.

Exhibit 1, Listing of Programs Screen and Screen Components, is an example of a screen that displays when logged into SEVIS. It includes various options that are available on the navigation bar and links that are available from within the list of program sponsors. The screen components are labeled with the terms used in this manual.

Exhibit 1: Listing of Programs Screen and Screen Components

The screenshot shows the SEVIS web application interface. At the top, there is a header with the U.S. Immigration and Customs Enforcement logo and the text "Student & Exchange Visitor Information System" and "SEVIS". Inactive Status Exchange Visitors and Dependents	<p>A list of all EVs and dependents whose status is Inactive. SEVIS assigns the status of Inactive (EV and/or dependents are out of program status) for one of the following reasons:</p> <ul style="list-style-type: none"> • The EV completes his or her program as scheduled—Form DS-2019 expires (the EV’s name will display on the list the day after the program end date). • The RO or ARO ends the program of an EV (for example, the EV completes his or her program early, or withdraws from the program). The status of the EV’s dependents will also be set to Inactive on the effective date of completion entered into SEVIS by the RO or ARO. • The RO or ARO ends the status of the spouse or dependent for reasons such as the accompanying spouse got divorced from the EV, or the spouse and/or dependent died. • The dependent’s status is automatically ended in SEVIS on the day the dependent turns 21 years of age.
Initial Status Exchange Visitors and Dependents	<p>A list of all EVs and dependents whose status is Initial. The EV and/or dependent records have been created and saved to the SEVIS database, but the EV’s participation has not been validated. Validation is the process for updating the EV’s record in SEVIS no later than 30 days after the program begin date identified in SEVIS to show that the EV:</p> <ul style="list-style-type: none"> • Has actually arrived at the site of activity in the United States identified by the program sponsor • Is participating in his or her exchange program
Invalid Status Exchange Visitors and Dependents	<p>A list of all EVs that are in Invalid status. Invalid status indicates that:</p> <ul style="list-style-type: none"> • The EV did not enter the United States through a port of entry (POE) within 30 days of the program

	<p>start date identified in SEVIS</p> <ul style="list-style-type: none"> • An RO or ARO set the EV's record to Invalid status. <p>Note: When an EV's Form becomes Invalid, the system increases the allotment of Forms DS-2019 available to the program by one.</p>
No Show Status Exchange Visitors and Dependents	<p>A list of all EVs and dependents whose SEVIS status is No Show. An EV and dependents, if any, will attain the status of No Show for the following reasons:</p> <ul style="list-style-type: none"> • It is 30 days after the program start date listed on the Form DS-2019 that was issued to an EV to begin a new program and the EV has entered the United States through a POE but has not been validated. • In a transfer situation, the EV has not been validated in SEVIS 30 days after the effective date of transfer identified in SEVIS. • An RO or ARO changed the EV's SEVIS status from Initial to No Show. • When a dependent is in Initial status, an RO or ARO can set the dependent's status to No Show. <p>Note: Dependent records are automatically set to No Show when the EV's record is set to No Show.</p>
Out of Country Exchange Visitors	<p>A list of professor and research scholar EVs who are currently participating in their programs outside the United States, or have an Out of Country record in SEVIS that has a future out of country begin date.</p> <p>Note: This list is only available for program sponsors designated to utilize the Professor and/or Research Scholar categories.</p>

Termination implies a change from Active or "valid program" status prior to program completion. Termination has an <i>adverse</i>, or <i>negative</i>, affect on the EV's record and on the record of each dependent of the EV. Terminated EVs have no benefits; for example, they cannot apply for an extension, reinstatement, or change of category.</p>

List Title	Description/Explanation
Transferred (Out) Status Exchange Visitors and Dependents	A list of all EVs and dependents whose status is Transferred. The EV has transferred to another program.
Transferred Status Exchange Visitors and Dependents	A list of all EVs and dependents whose status is Transferred. The EV will be transferring into your program on the effective date of transfer entered by the releasing program sponsor. The EV's and dependent's SEVIS status will change from Transferred to Active when the EVs participation in your program has been validated, which must take place no later than 30 days after the effective date of transfer. Failure to validate the EVs participation within 30 days will cause the status of the SEVIS record(s) to change to No Show. Note: When an EV is on this list, his or her record may be updated and validated by the program to which the EV is transferring.
Transferred to a Non-SEVIS Sponsor Status Exchange Visitors and Dependents	A list of all EVs that have transferred to a non-SEVIS Exchange Visitor Program. EV names display on this list after the effective date of transfer and will remain on this list indefinitely. Note: The ability to transfer EVs to a non-SEVIS program is no longer available. However, there may be EVs who will always have this status; they transferred prior to the date mandated for enrollment of all Exchange Visitor Programs in SEVIS.

2.5 Create an Exchange Visitor Form DS-2019

The eligibility process enables designated program sponsors to create, maintain, and print records (Form DS-2019) for EVs and dependents. In addition, SEVIS provides the capability to access and update previously created records.

The *Listing of Programs* screen includes the list of programs associated with your user ID. Exhibit 11, Listing of Programs Screen—New Exchange Visitor Link, shows the location of the **New Exchange Visitor** link on the *Listing of Programs* screen.

Exhibit 11: Listing of Programs Screen—New Exchange Visitor Link

ROs and AROs have the option to create a “New Exchange Visitor” (complete Form DS-2019 for an EV and dependents, if any) for any of the programs for which they are assigned a role. Instructions for completing the Form are provided in the subsequent sections.

Note: One RO or ARO may begin and save a Form DS-2019 for an EV. Another RO or ARO may complete and submit the Form. The name of the official who submits the record to the SEVIS database will print on the Form DS-2019.

WARNING: When creating a record for a new EV, the system will delete the unsubmitted Form DS-2019 within 45 days of the last update to the Form.

2.5.1 Complete Page 1 of the Form DS-2019—Personal Information

To create a Form DS-2019 for a new (initial) EV, perform the following:

1. Click the **New Exchange Visitor** link (on the *Listing of Programs* screen) to the right of the name of the program in which the EV will be participating. The system displays the *New Exchange Visitor* screen for the selected program as shown in Exhibit 12, *New Exchange Visitor For Whispering Pines Institute Screen*.

2.5.2.3 Delete Site of Activity (EV in Draft Status)

All EVs must have at least one site of activity. However, if the EV has multiple sites of activity and the EV's record in SEVIS is in Draft status, sites of activity can be deleted.

To delete a site of activity, perform the following:

1. Access the *Exchange Visitor Information* screen for the EV whose record is being updated (perform a search for the record or use the **EV Lists** link).
2. Click the **Edit DS-2019** link on the **Actions** menu. Page 1 of the Form DS-2019 displays.

2.5.3 Complete Page 3 of the Form DS-2019—Dependent Information

Page 3 of the electronic Form DS-2019 is used to collect dependent information for the EV. Data for the spouse and child dependent(s) of an EV entering the United States on J visas must be entered into SEVIS.

Note: If the spouse or child dependent plans to enter the United States on a different type of visa, **do not** enter his or her information in SEVIS.

Note: If both a husband and wife are entering the United States on J-1 visas, add the dependent child's information to only one SEVIS record (Form DS-2019). Do not add the dependent child's information to both parents' records/Forms. Doing so will give the dependent child two SEVIS records.

Exhibit 16, Exchange Visitor Dependents Menu Screen, is an example of Page 3 of the Form. In Exhibit 16, a dependent has already been added for this EV. Because the record is still in Draft status, the EV and dependent have not been assigned their SEVIS IDs.

2.5.5 Submit the Form DS-2019

To submit an EV's record to SEVIS, click the **Submit DS-2019** button on the *Financial Information* screen, the last page of the electronic Form DS-2019. The system will display a message stating that the record has been successfully created. Note: If the submission is not successful, an error message will display stating the reason. Correct the error(s) indicated and then submit the Form again.

When the Form is successfully submitted, print a final copy of the Form DS-2019 for the EV and dependents, if any. See Section 2.5.6, Print a Draft or Final Form DS-2019, for instructions. Click the **Return** button to go to the *Listing of Programs* screen.

Note: The purpose that prints on the Form will be "Begin New Program; accompanied by number (*count*) of immediate family members," where "count" indicates how many dependents an EV has, if any.

2.5.6 Print a Draft or Final Form DS-2019

A draft or final copy of the Form DS-2019 can be printed from various screens within SEVIS. The final Form can also be printed following submission of the Form in SEVIS. A draft copy of the Form DS-2019 is identified by the word "draft" printed on the top of the Form. The SEVIS ID for the EV and/or dependent(s) and bar code **will not** be printed on the draft Form. The draft Form DS-2019 can be printed prior to submission of the Form so that the data can be reviewed

for accuracy. Changes to the Form can be made prior to submission. When the Form DS-2019 for a new EV and/or dependent(s) is submitted in SEVIS, the status of the records for the EV and dependent(s) will change from Draft to Initial status.

A final Form DS-2019 should be printed for a new EV following submission of the Form in SEVIS. The final Form includes the bar code and SEVIS ID, and “draft” is removed from the top of the Form.

Note: The printed final Form will have the EV’s or dependent’s SEVIS ID in the upper-right corner, above the bar code. It begins with the letter “N,” which is followed by 10 digits (for example, “N1234567890”).

Note: See Section 2.6.2.3.3, Reprint Form DS-2019 for a Dependent in Initial Status, for instructions on reprinting the Form for dependents.

Note: If Adobe Reader Version 5.0 or higher is not installed on the computer being used, see Appendix B, Download the Latest Version of Adobe Reader, for instructions.

To print a copy of the Form DS-2019, perform the following:

1. Click the **Print Draft DS-2019** or the **Print Final DS-2019** button. A new browser window opens and the Form DS-2019 displays using Adobe Reader from which a copy of the Form can be sent to a designated printer.

Note: During the launch of Adobe Reader, a *File Download* window may display. To prevent this window from displaying in the future, click the box next to **always ask before opening this type of file** to remove the check mark. Select the **Open** button to view the Form DS-2019.

2. When the Form DS-2019 displays in the *Adobe Reader* window, use the scroll bar on the right side of the window to view additional pages of the Form.
3. Click the **Print** () button on the Adobe Reader toolbar. The *Print* window displays.
4. Ensure that the name of the printer is listed in the **Name** field in the *Print* window. If it does not show the correct printer, click the down arrow to the right of the field and select the correct printer.
5. Click **OK** and the Form will be printed on the designated printer.
6. Click the **Close** () button on the *Adobe Reader* window to close the window.
7. Sign the final SEVIS-generated Form DS-2019 in **blue** ink and forward it to the EV and dependents, if any. See Section 2.5.7, Signature on SEVIS Form DS-2019, for instructions regarding the signature on the Form.

Note: If an EV is subject to the Two-Year Home-Country Physical-Presence Requirement (Section 212(e) of the Immigration and Nationality Act and Public Law (PL) -94-484, as amended), the appropriate boxes will be checked on the printed Form DS-2019.

2.5.7 Signature on SEVIS Form DS-2019

According to regulations, SEVIS-generated Forms DS-2019 should be printed in **black** ink and the original copy of the Form DS-2019 must be signed in **blue** ink. Signing the Form in **blue** ink permits anyone viewing the Form to easily distinguish an original copy from a photocopy.

Note: The Form **must** be signed by the RO or ARO whose name is printed on the copy of the Form that will be provided to the EV and dependents, if any.

Do not send copies of the SEVIS Forms DS-2019 to DoS. There is no longer a need to send a copy of the Form DS-2019 to the Department. SEVIS electronically collects and maintains information submitted to generate Forms DS-2019 issued to potential EVs and their dependents.

2.5.8 Reprint a Form DS-2019

When an EV is in Initial or Active status or a dependent is in Active status, his or her Form DS-2019 may be reprinted for the following reasons:

- Replace a Form DS-2019 (Stolen)
- Other—Text that is entered in the **If Other, Please Comment** text box will print in the **Purpose of the Form** section of the Form DS-2019

- Begin new program; accompanied by number (*count*) of immediate family members (where "count" is the number of dependents for the selected EV).
- Other—Text that is entered in the **If Other, Please Comment** text box will print in the **Purpose of the Form** section of the Form DS-2019.

Note: If Adobe Reader Version 5.0 or higher is not installed on the computer being used, see Appendix B, Download the Latest Version of Adobe Reader, for instructions.

To reprint a Form, perform the following:

1. Access the *Exchange Visitor Information* screen (see Exhibit 19, Exchange Visitor Information Screen—Initial Status, or Exhibit 23, Exchange Visitor Information Screen—Active Status) or the *Exchange Visitor Information—Dependent Information* screen.
2. Click the **Reprint DS-2019** link on the **Actions** menu (left side of screen). The *Reprint DS-2019* screen displays.

3. Select the appropriate reason for reprinting the Form. If **Other** is selected, enter an explanation in the text box provided. For example, if reprinting the Form for a participant in Initial status because the first attempt to print failed, select **Other** as the reason and enter the following comment in the **If Other, Please Comment** text box, “Begin New Program.”
4. Enter optional comments in the **Remarks** text box.
5. Click the **Reprint DS-2019** button. A message displays stating that the update has been successful (the reason for reprinting the Form has been saved to SEVIS).
6. Click the **Print Final DS-2019** button. A new browser window opens and the Form DS-2019 displays using the Adobe Reader from which a copy of the Form can be sent to a designated printer.

Note: During the launch of Adobe Reader, a *File Download* window may display. To prevent this window from displaying in the future, click in the box next to **always ask before opening this type of file** to remove the check mark. Click the **Open** button to view the Form DS-2019.

7. When the Form DS-2019 displays in the *Adobe Reader* window, use the scroll bar on the right side of the window to view additional pages of the Form.
8. Click the **Print** () button on the Adobe Reader toolbar. The *Print* window displays.
9. Ensure the name of the printer in the **Name** field is the printer from which the Form will print. If it does not show the correct printer, click the down arrow to the right of the field and select the correct printer.
10. Click **OK** and the Form DS-2019 will be printed on the designated printer.
11. Click the **Close** () button on the *Adobe Reader* window to close the window.

Note: The Form DS-2019 must be signed in **blue** ink by the RO or ARO whose name is printed on the Form.

Note: If an EV is subject to the Two-Year Home-Country Physical-Presence Requirement (Section 212(e) of the Immigration and Nationality Act and PL-94-484, as amended), the appropriate boxes will be checked on the printed Form DS-2019.

2.6 Exchange Visitor Information Screen—Initial Status

The *Exchange Visitor Information* screen provides a snapshot of the information that has been entered on the Form DS-2019. On the left side of the screen there are links to the actions available for EVs whose records are in Initial status. Exhibit 19, Exchange Visitor Information Screen—Initial Status, is an example of the screen.

Note: Initial status indicates that the EV and/or dependent records have been created and submitted (saved to the SEVIS database) but the EV has not entered the United States or has not reported to the program sponsor and has not been validated in SEVIS. Validation is the process of updating the record to show that the EV has actually arrived at the site of activity in the United States identified by the program sponsor and is participating in his or her program.

The links on the **Actions** menu (left side of screen) provide the capability to amend the EV's program, validate the EV's participation, reprint the EV's Form DS-2019, and perform other processes on the record of an EV. The options on the **Edits** menu provide the capability to edit

the EV's and/or dependent's data. The menu options are discussed in detail in the following sections.

2.6.1 Actions Menu—EV in Initial Status

When an EV is in Initial status, the **Actions** menu contains the following five options:

- Amend Program
- Cancel EV
- No Show
- Reprint DS-2019
- Validate Program Participation

The following sections contain detailed instructions for using each of these options.

2.6.1.1 Amend Program (EV in Initial Status)

The **Amend Program** link is available to update an EV's program start date and/or end date in SEVIS at any time prior to validation of the EV's program participation.

Note: If an EV will be arriving late, his or her program begin date must be amended before validating his or her program participation.

To amend an EV's program, perform the following:

1. Access the *Exchange Visitor Information* screen for the EV whose record is being updated (perform a search for the record or use the **EV Lists** link).
2. Click the **Amend Program** link on the *Exchange Visitor Information Screen—Initial Status* (see Exhibit 19). The system displays the *Amend Program* screen, which contains summary data for the selected EV, including the program begin and end dates.
3. Change the program begin and/or end date(s).
4. Enter an explanation in the **Remarks** text box; this is a required field.
5. Click the **Amend Program** button to save the changes to the SEVIS database.
6. On the message screen, click the **Print Final DS-2019** button to print an updated copy of the Form, sign it in **blue** ink, and provide it to the EV and dependents, if any. See Section 2.5.6, *Print a Draft or Final Form DS-2019*, for printing instructions.
7. Click the **Return to Exchange Visitor** button to return to the *Exchange Visitor Information* screen and view the new data.

2.6.1.2 Cancel Exchange Visitor (EV in Initial Status)

The Cancel EV option is available only when the EV is in Initial status. Examples of when to use this option include:

- The EV has duplicate records that you wish to mark invalid—the record will remain in the SEVIS database with a status of Invalid.

- You have learned that the EV is not coming to your program for reasons such as the inability to obtain a visa, personal issues, etc.
- You have knowledge that the EV used fraudulent documents to enroll in your program.

To cancel an EV record, perform the following:

1. Access the *Exchange Visitor Information* screen for the EV whose record is being canceled (perform a search for the record or use the **EV Lists** link).
2. Click the **Cancel EV** link on the **Actions** menu (left side of screen) to access the *Cancel EV* screen.
3. Enter an explanation for the cancelation in the **Remarks** text box; this is a required field.
4. Click the **Cancel EV** button to complete the process. The system displays a message stating that the EV's record has been canceled; the status of the EV and any dependents is Invalid.

Note: When an EV's record is canceled, the system increases the allotment of Forms DS-2019 available to the program by one.

2.6.1.3 Set EV's Status to No Show (EV in Initial Status)

The No Show status is used to indicate that the EV's program participation has not been validated by the RO or ARO in SEVIS. When an EV's status is No Show, the EV *has violated* the Exchange Visitor Program regulations. This has an *adverse*, or *negative*, affect on the EV's record, and on the record of each dependent of the EV. EVs with a SEVIS status of No Show have no benefits (for example, extension, change of category, or reinstatement).

If a program sponsor receives information that a potential EV participant has entered the United States and has not reported for participation, an RO or ARO may:

- Set the EV's status to No Show.
- or*
- Allow SEVIS to automatically change the EV's status to No Show 30 days after the program begin date listed in SEVIS.

The No Show option is only available for an EV when he or she is in Initial status.

WARNING: DO NOT use the No Show option to cancel a duplicate record or a record that has been issued in error. Use the Cancel EV option; otherwise, duplicate records will be canceled automatically by the system.

To set the EV's SEVIS status to No Show, perform the following:

1. Access the *Exchange Visitor Information* screen for the EV whose record is being updated (perform a search for the record or use the **EV Lists** link).
2. Click the **No Show** link on the **Actions** menu. The system displays the *No Show* screen.
3. Review the data to ensure this is the potential EV participant whose status is being changed to No Show.

4. If this is not the correct record, click the **Cancel** button. Otherwise, click the **No Show** button. The system displays a message stating that the record has been successfully updated.
5. Click the **Return to Exchange Visitor** button to view the EV's record. The EV and dependents, if any, now have a status of No Show.

2.6.1.4 Reprint Form DS-2019 (EV in Initial Status)

See Section 2.5.8, Reprint a Form DS-2019, for printing instructions.

2.6.1.5 Validate Program Participation (EV in Initial Status)

When an EV arrives in the United States to begin his or her program, the SEVIS record (Form DS-2019) must be validated.

WARNING—PROGRAMS LESS THAN 30 DAYS IN DURATION: If the EV's program is *less than 30 days* in length, failure to validate the EV's SEVIS record to indicate his or her participation before the program end date listed in SEVIS will result in cancelation of the EV's record in SEVIS. The EV's SEVIS status will automatically change to:

- No Show if SEVIS has received information that the EV entered the country through a POE
- Invalid if SEVIS has not received information that the EV entered the United States through a POE

WARNING—PROGRAMS GREATER THAN 30 DAYS IN DURATION: If the EV's program is greater than 30 days in length, failure to validate the EV's SEVIS record to indicate his or her participation within 30 days of the program start date listed in SEVIS will result in cancelation of the EV's record in SEVIS, as stipulated in the Exchange Visitor Program regulations. (See 22 CFR 62.70(d), Validation of Program Participation.) The EV's SEVIS status will automatically change to:

- No Show if SEVIS has received information that the EV entered the country through a POE
- Invalid if SEVIS has not received information that the EV entered the United States through a POE

Note: If an EV arrives at a time that is different from the program start date listed in SEVIS, his or her program begin date must be amended before validating the EV's program participation (see Section 2.6.1.1, Amend Program (EV in Initial Status), for instructions).

Note: Once validated, the EV's program begin date cannot be changed. If necessary, change the EV's begin date by amending his or her program (see Section 2.6.1.1, Amend Program (EV in Initial Status), for instructions). Then, validate the EV's program participation.

To validate an EV's program participation, perform the following:

1. Access the *Exchange Visitor Information* screen for the EV whose program participation is being validated (perform a search for the record or use the **EV Lists** link).

- Click the **Validate Program Participation** link on the **Actions** menu (left side of screen) to access the *Validate Program* screen. Exhibit 20, Validate Program Screen, is an example of this screen.

2.6.2 Edits Menu—EV in Initial Status

Prior to receipt of visa information for an EV, the **Edits** menu will contain the following options:

- Biographical Information
- Category and Subject/Field
- Dependents
- Financial Information
- Site of Activity

The following sections provide detailed instructions for using these options.

2.6.2.1 Edit Category and Subject/Field (EV in Initial Status)

The Category and Subject/Field option is only available when the EV is in Initial status. This option is used to modify the EV's category and/or subject/field of study prior to the EV obtaining a visa.

Note: Under Regulation 8 CFR 214.5, an EV from a country on the restricted country list may not engage in or seek to obtain training in aviation maintenance, flight operations, or nuclear-related studies or training. Therefore, you may not create or update an EV's personal or program information as follows:

- If an EV's COB or COC is on the restricted country list, you may not select or update his or her field of study to training in aviation maintenance, flight operations, or nuclear-related studies or training.
- If an EV's field of study is in aviation maintenance, flight operations, or nuclear-related studies or training, you may not select or update his or her COB or COC to a country that is on the restricted country list.

To modify these data, perform the following:

6. Enter an explanation in the **Subject/Field Remarks** text box; this is a required field. Do not use hard returns (that is, do not press the **Enter** key) when entering text; doing so may make the text wrap and print in Section 5 of the Form DS-2019. Exhibit 13 is an example of how the text may print when hard returns are used.

Note: The text may be shortened on the printed Form DS-2019 if it is longer than the available space. However, the entire text can be viewed in SEVIS.
7. Click the **Submit** button. A message displays stating that the EV's record has been successfully updated.
8. On the message screen, click the **Print Final DS-2019** button to print a new Form, sign it in **blue** ink, and provide it to the EV and dependents, if any. (See Section 2.5.6, Print a Draft or Final Form DS-2019, for printing instructions.)

Note: The following will print in the "Purpose of the Form" section of the Form, "Begin New Program — Category/Subject/Field Modified."

2.6.2.2 Edit Biographical Information and U.S. Address (EV in Initial Status)

The Biographical Information option provides access to the *Edit Biographical Information* screen for the selected EV, which is used to modify biographical data and/or U.S. address. In accordance with the regulations (22 CFR 62.70(b), SEVIS Reporting Requirements), an RO or

ARO must update the actual and current U.S. address information within 21 days of being notified by a participant of a change in his or her address.

Note: The Biographical Information option is not available after a visa has been issued to the EV. To edit the biographical data after the EV has obtained a visa and is still in Initial status, you must wait until the EV arrives in the United States and has his or her program participation validated in SEVIS.

To edit the EV's biographical information, perform the following:

1. Access the *Exchange Visitor Information* screen for the EV whose information is being changed (perform a search for the record or use the **EV Lists** link).
2. Click the **Biographical Information** link on the **Edits** menu. The *Biographical Information* screen displays.
3. Make the necessary updates to the EV's biographical information. For detailed instructions on how to complete this screen, see Section 2.5.1, Complete Page 1 of the Form DS-2019—Personal Information.

Note: Under Regulation 8 CFR 214.5, an EV from a country on the restricted country list may not engage in or seek to obtain training in aviation maintenance, flight operations, or nuclear-related studies or training. Therefore, you may not create or update an EV's personal or program information as follows:

- If an EV's COB or COC is on the restricted country list, you may not select or update his or her field of study to training in aviation maintenance, flight operations, or nuclear-related studies or training.
 - If an EV's field of study is in aviation maintenance, flight operations, or nuclear-related studies or training, you may not select or update his or her COB or COC to a country that is on the restricted country list.
4. Click the **Update Information** button to save the changes. The system displays a message stating that the record has been successfully updated.
 5. Click the **Print Final DS-2019** button to print a new Form, sign it in **blue** ink, and provide it to the EV and dependents, if any. See Section 2.5.6, Print a Draft or Final Form DS-2019, for printing instructions.

Note: If the EV's SEVIS record is in Initial status and the EV has not obtained a visa, when biographical data are updated, the purpose that will print on the Form will be, "Begin New Program—Biographical Information Modified."

2.6.2.3 Add/Edit Dependent Data

The **Dependents** link on the *Exchange Visitor Information* screen for an EV in Initial or Active status provides the capability to make the following additions, corrections, and/or updates to dependent records:

- Add dependents
- Edit dependent data

- Reprint the dependent’s Form DS-2019
- Indicate that the dependent is a “no show”

The following sections contain detailed instructions for completing each of these processes.

2.6.2.3.1 ADD DEPENDENT (EV IN INITIAL OR ACTIVE STATUS)

Dependents can be added to an EV’s record when the EV’s SEVIS status is Initial. However, the Add Dependent option is not available after a visa has been issued to the EV. To add a dependent after the EV has obtained a visa and is still in Initial status, you must wait until the EV arrives in the United States and has his or her program participation validated in SEVIS. The dependent will have to travel to the United States later to join the EV.

Note: If both a husband and wife are entering the United States on J-1 visas, add the dependent child’s information to only one SEVIS record (Form DS-2019). Do not add the dependent child’s information to both parents’ records/Forms. Doing so will give the dependent child two SEVIS records.

To add a dependent to the record of an EV who is currently in Initial status, perform the following:

1. Access the *Exchange Visitor Information* screen for the EV whose information is being updated (perform a search for the record or use the **EV Lists** link).
2. Click the **Dependents** link on the **Edits** menu. The system displays the *Exchange Visitor Dependents Menu* screen.
3. Click the **Add Dependent** link near the bottom of the screen. The system displays the *Exchange Visitor Information—Add Dependent* screen.
4. To complete this screen, enter the following data (an asterisk (*) precedes the fields that must be completed):

Field	Description/Explanation
1. * Family Name	Enter the surname or last name of the dependent. If the dependent has only one name, enter it in this field. Note: The DoS Bureau of Consular Affairs has advised that names should be entered in SEVIS <i>exactly</i> as they appear on the passport. In the event the nonimmigrant does not have a passport, enter the name as it displays on the National ID card.
2. First Name	Enter the first name of the dependent. Leave this field blank if the dependent has only one name. Note: Even though this is not a required field in SEVIS, the DoS Bureau of Consular Affairs has advised that names should be entered in SEVIS <i>exactly</i> as they appear on the passport. In the event the nonimmigrant does not have a passport, enter the name as it displays on the National ID card.

Field	Description/Explanation
3. Middle Name	Enter the middle name of the dependent. Leave this field blank if the dependent has no middle name, or the middle name is unknown. Note: Even though this is not a required field in SEVIS, the DoS Bureau of Consular Affairs has advised that names should be entered in SEVIS <i>exactly</i> as they appear on the passport. In the event the nonimmigrant does not have a passport, enter the name as it displays on the National ID card.
4. Suffix	Select a title, such as Junior, that may display at the end of a person's name.
5. * Date of Birth	Enter the dependent's date of birth in MM/DD/YYYY format.
6. * Gender	Select the dependent's gender, male or female .
7. * Relationship	Select Spouse or Child . A dependent child must be younger than 21 years of age.
8. * City of Birth	Enter the unabbreviated name of the city where the dependent was born.
9. * Country of Birth	Select the country in which the dependent was born. Note: United States may be selected as the COB if the dependent was born to a foreign diplomat or is an expatriate. If the person was born in the United States or a U.S. territory, perform the following: 1. Complete the Country of Birth field. 2. Select an option from the <i>If the United States or U.S. Territory is chosen...</i> drop-down list.
10. * Country of Citizenship	Select the country in which the dependent maintains citizenship.
11. * Country of Legal Permanent Residence	Select the country in which the dependent is an LPR. For most dependent applicants, the country of legal permanent residence will be the same as the COC. Some applicants, however, will be permanent residents of other countries. Note the difference between permanent and temporary residence. For example, a French citizen who is teaching in Italy on a 1-year contract, and making application for a J visa from Italy, would not be considered an LPR of Italy.
12. Email Address	Enter an email address for the dependent. Completion of this field is optional.
13. Social Security Number	Enter the dependent's Social Security number. Completion of this field is optional.
14. Driver's License Number	Enter the dependent's driver's license number assigned

Field	Description/Explanation
	by the state that issued the license. Completion of this field is optional.
15. Driver’s License Issue State	Select the state that issued the driver’s license to the dependent, if applicable. Completion of this field is optional.
16. Individual Taxpayer ID Number	Enter the taxpayer ID for a dependent who is employed or has such an ID. Completion of this field is optional.

Reset Values	Click this button to return all unsaved entries to the previous values.
Cancel	Click this button to return to the <i>Exchange Visitor Dependents Menu</i> screen without adding a dependent.

2.6.2.3.2 EDIT DEPENDENT DATA (DEPENDENT IN INITIAL OR ACTIVE STATUS)

Dependent biographical information can be updated while the EV’s SEVIS status is Initial or Active. However, when the EV is in Initial status, the Edit Dependent option is not available after a visa has been issued to the EV. To edit a dependent’s data after the EV has obtained a visa and is still in Initial status, you must wait until the EV arrives in the United States and has his or her program participation validated in SEVIS.

To edit the dependent’s biographical data, perform the following:

1. Access the *Exchange Visitor Information* screen for the EV whose dependent’s information is being changed (perform a search for the record or use the **EV Lists** link).
2. Click the **Dependents** link on the **Edits** menu. The system displays the *Exchange Visitor Dependents Menu* screen.
3. Click the dependent’s SEVIS ID link (for example, **N1234567890**) to access the *Exchange Visitor Information—Dependent Information* screen.
4. Click the **Edit** link on the **Actions** menu to display the *Exchange Visitor Information—Edit Dependent* screen.
5. Scroll to the **Edit Dependent** section of the screen and make the necessary changes to the screen. See Section 2.5.3, Complete Page 3 of the Form DS-2019—Dependent Information, for detailed instructions on completing the fields on this screen.

Reset Values	Click this button to return all unsaved entries to the previous values.
Cancel	Click this button to return to the <i>Exchange Visitor Dependents Menu</i> screen without updating the dependent’s data.

2.6.2.3.3 REPRINT FORM DS-2019 FOR A DEPENDENT IN INITIAL STATUS

When a dependent is in Initial status, his or her Form DS-2019 can be reprinted for the following reasons:

- Permit EV’s (*count*) dependents to enter United States separately (where “count” is the number of dependents for the selected EV).
- Begin new program; accompanied by number (*count*) of immediate family members (where “count” is the number of dependents for the selected EV).
- Other—Text that is entered in the **If Other, Please Comment** text box prints in the “Purpose of the Form” section of the Form DS-2019.

Note: If Adobe Reader Version 5.0 or higher is not installed on the computer being used, see Appendix B, Download the Latest Version of Adobe Reader, for instructions.

To reprint the Form for a dependent, perform the following:

1. Access the *Exchange Visitor Information* screen for the EV whose dependent’s Form is being reprinted (perform a search for the record or use the **EV Lists** link).
2. Click the **Dependents** link on the **Edits** menu. The system displays the *Exchange Visitor Dependents Menu* screen.
3. Click the dependent’s SEVIS ID link (for example, **N1234567890**) to access the *Exchange Visitor Information—Dependent Information* screen.
4. Click the **Reprint DS-2019** link on the **Actions** menu to display the *Reprint DS-2019* screen.
5. Select a reprint reason from the drop-down list. If **Other** is selected, provide an explanation in the text box provided.

7. Click the **Print Final DS-2019** button on the message screen to print a new Form. See Section 2.5.6, Print a Draft or Final Form DS-2019, for detailed printing instructions.

2.6.2.3.4 SET DEPENDENT'S STATUS TO NO SHOW (EV IN INITIAL STATUS)

The status of the dependent can be set to No Show separately from the EV. When a dependent's status is No Show, the dependent **has violated** the Exchange Visitor Program regulations. This has an *adverse*, or *negative*, affect on the dependent's record.

Note: Setting a dependent's status to No Show has no affect on the EV's record.

To change a dependent's status to No Show, perform the following:

1. Access the *Exchange Visitor Information* screen for the EV whose dependent is being marked as "no show" (perform a search for the record or use the **EV Lists** link).
2. Click the **Dependents** link on the **Edits** menu. The system displays the *Exchange Visitor Dependents Menu* screen.
3. Click the dependent's SEVIS ID link (for example, **N1234567890**) to access the *Exchange Visitor Information—Dependent Information* screen.
4. Click the **No Show** link on the **Actions** menu to display the *No Show* screen.
5. Review the data to ensure that this is the dependent whose status is being changed to No Show.
6. Click the **No Show** button. The system displays the *Exchange Visitor Dependents Menu* screen and the dependent's status is No Show.

2.6.2.4 Edit Financial Information (EV in Initial Status)

An EV's financial information can be edited when the EV is in Initial status. However, the Financial Information option is not available after a visa has been issued to the EV. To edit financial data after the EV has obtained a visa and is still in Initial status, you must wait until the EV arrives in the United States and has his or her program participation validated in SEVIS.

To edit an EV's financial data while the EV is in Initial status, perform the following:

1. Access the *Exchange Visitor Information* screen for the EV whose data are being updated (perform a search for the record or use the **EV Lists** link).
2. Click the **Financial Information** link on the **Edits** menu. The system displays the *Edit Financial Information* screen.
3. Make the necessary updates. See Section 2.5.4, Complete Page 4 of the Form DS-2019—Financial Information, for a detailed description of each field and/or section on the screen.

Note: Financial data should reflect the amount of financial support provided to the EV for the duration of his or her program shown on all Forms DS-2019.

4. Click the **Update Information** button. A message displays stating that the data have been successfully updated.

2.6.2.5 Edit Site of Activity (EV in Initial Status)

An EV's site of activity information can be edited when the EV is in Initial status. However, the Site of Activity option is not available after a visa has been issued to the EV. To edit a site of activity after the EV has obtained a visa and is still in Initial status, you must wait until the EV arrives in the United States and has his or her program participation validated in SEVIS.

To edit the site of activity information for an EV in Initial status, perform the following:

1. Access the *Exchange Visitor Information* screen for the EV whose data are being updated (perform a search for the record or use the **EV Lists** link).
2. Click the **Site of Activity** link on the **Edits** menu. The system displays the *Site of Activity Menu* screen.

4. Make the necessary changes to the name and address for the site of activity.
5. Click the **Update Site of Activity** button. A message displays stating that the data have been successfully updated in SEVIS.
6. If the updated site of activity is the primary site of activity, print a copy of the Form DS-2019, sign it in **blue** ink, and provide it to the EV and dependents, if any. See Section 2.5.6, Print a Draft or Final Form DS-2019, for printing instructions.

2.6.2.6 Add Site of Activity (EV in Initial Status)

When an EV is in Initial status, sites of activity can be added to his or her Form DS-2019. However, the Site of Activity option is not available after a visa has been issued to the EV. To add a site of activity after the EV has obtained a visa and is still in Initial status, you must wait until the EV arrives in the United States and has his or her program participation validated in SEVIS.

All EVs must have at least one site of activity. However, multiple sites of activity may be added for an EV. To add a site of activity, perform the following:

1. Access the *Exchange Visitor Information* screen for the EV for whom a site of activity is being added (perform a search for the record or use the **EV Lists** link).
2. Click the **Site of Activity** link on the **Edits** menu. The system displays the *Site of Activity Menu* screen.
3. Click the **Add Site of Activity** link near the bottom of the screen. The *Add Site of Activity* screen displays.

4. Below is a brief description or explanation of the fields on this screen. An asterisk (*) precedes the fields that must be updated. To complete this screen, enter/modify the following data:

Field	Description/Explanation
1. * Site of Activity	Enter the name of the place where an EV will participate in his or her program. Note: For an au pair, enter the host family's name. For secondary students (high school students), enter the name of the high school.
2. * Site of Activity Address	Enter the physical location of the site. Do not include a post office box number in this address. For an au pair, enter the host family's address. For secondary students (high school students), enter the address of the high school. Note: The address that prints in the U.S. Address section of the Form DS-2019 is the EV's primary site of activity address. Therefore, if the EV has multiple sites of activity, the site selected by the RO or ARO as the primary site of activity (the Primary Site of Activity radio button is selected) will be the one that prints on the Form DS-2019.
3. Remarks	Enter optional comments.

5. Click one of the following buttons:

Add Site of Activity	Click this button to save the data entered for this EV. A message displays stating that the data have been successfully saved to SEVIS. On the message screen, if data for the primary site of activity have been updated, click the Print Final DS-2019 button to print the Form and provide it to the EV and dependents, if any. See Section 2.5.6, Print a Draft or Final Form DS-2019, for printing instructions. Otherwise, click the Return to Exchange Visitor button to view the <i>Exchange Visitor Information</i> screen; some of the information for the site that has been added will be included below the EV's information. Note: Multiple sites of activity can be added for an EV; follow the procedures above to add other sites of activity.
Reset Values	Click this button to clear all entries on the screen.
Cancel	Click this button to return to the previous page without adding a site of activity.

2.6.2.7 Change Primary Site of Activity (EV in Initial Status)

The U.S. address that prints on the EV's Form DS-2019 is the primary site of activity address. When an EV has more than one site of activity, the primary site of activity can be changed.

To change the EV's primary site of activity, perform the following:

1. Access the *Exchange Visitor Information* screen for the EV whose record is being updated (perform a search for the record or use the **EV Lists** link).
2. Click the **Site of Activity** link on the **Edits** menu. The *Site of Activity Menu* screen displays.
3. Click the radio button to the left of the primary site of activity.
4. Click the **Change Primary Site of Activity** button. A message displays stating that the primary site of activity has been changed.
5. Click the **Print Final DS-2019** button on the message screen to print an updated copy of the Form, sign it in **blue** ink, and provide it to the EV and dependents, if any. (See Section 2.5.6, Print a Draft of Final Form DS-2019, for printing instructions.) Otherwise, click the **Return to Exchange Visitor** button to return to the *Exchange Visitor Information* screen.

Note: The address for the EV's primary site of activity will print in the **U.S. Address** section of the Form DS-2019.

2.6.2.8 Delete Site of Activity (EV in Initial Status)

All EVs must have at least one site of activity. However, if an EV has multiple sites of activity, the EV's SEVIS status is Initial, and the EV has not obtained a visa, sites of activity can be deleted.

To delete a site of activity, perform the following:

1. Access the *Exchange Visitor Information* screen for the EV whose record is being updated (perform a search for the record or use the **EV Lists** link).
2. Click the **Site of Activity** link on the **Edits** menu. The *Site of Activity Menu* screen displays.
3. Click the **Delete** link in the **Commands** column for the site of activity that is being deleted. The *Delete Site of Activity* screen displays.

Note: The primary site of activity cannot be deleted. If necessary, change the primary site of activity, and then continue with the deletion process.

4. Review the data to ensure that this is the correct site of activity.
5. Click the **Delete Site of Activity** button to complete the process. A message displays stating that the deletion has been successful.
6. If necessary, click the **Print Final DS-2019** button to print the Form, sign it in blue ink, and provide a copy to the EV and dependents, if any.

Note: The address that prints in the **U.S. Address** section of the Form DS-2019 is the EV's primary site of activity address. If the EV has multiple sites of activity, the address for the selected site (the radio button is selected) will print on the Form DS-2019.

2.7 Exchange Visitor Information Screen—Active Status

The *Exchange Visitor Information* screen provides a snapshot of the information that has been entered on the Form DS-2019. On the left side of the screen are links to the actions, edits, and transfer possibilities appropriate to the EV's current status. Exhibit 23, Exchange Visitor Information Screen—Active Status, is an example of the screen.

2.7.1.1 Change of Category Request (EV in Active Status)

A change of category request for an EV may be submitted to DoS. Any change must be clearly consistent with and closely related to the participant's original exchange objective and necessary

due to unusual or exceptional circumstances. (See Appendix E, Exchange Visitor Categories, for a list and explanation of all categories.) DoS must review and approve this request.

Note: The change of category request, a copy of the Pay.gov confirmation page showing payment of the required non-refundable fee (22 CFR 62.17, Fees and Charges), and all supporting documentation must be submitted to DoS prior to the EV's program end date so that the EV does not fall out of status.

To request a change of category for an EV, perform the following:

1. Access the *Exchange Visitor Information* screen for the EV whose request is being processed (perform a search for the record or use the **EV Lists** link).
2. Click the **Change of Category Request** link on the **Actions** menu. The *Change of Category Request* screen displays. It contains summary information for the selected EV, and the lower half of the screen is used to make the change of category request. 2.7.1.3 Correct Minor or Technical Infraction (EV in Active Status)

The Correct Minor or Technical Infraction option is used to correct the minor or technical infraction of the regulations for an EV within the first 120 days of the infraction. This option should only be used when the EV is currently in the United States and actively participating in his or her program. Minor or technical infractions are the following:

- Failure to receive RO or ARO approval and/or an amended Form DS-2019 before accepting an honorarium or other type of payment for engaging in a normally appropriate activity
- Other

To correct a minor or technical infraction, perform the following:

1. Access the *Exchange Visitor Information* screen for the EV whose record is being updated (perform a search for the record or use the **EV Lists** link).
2. Click the **Correct Minor or Technical Infraction** link on the **Actions** menu. Exhibit 26, Correct Minor or Technical Infraction Screen, is an example of the screen that displays.

2.7.1.4 End Program for Exchange Visitor (EV in Active Status)

An EV's program participation can be concluded (non-adverse termination) for the following reasons:

- Completed
- Death of EV

- Inability to continue program
- Program completed 30 days or more before program end date
- Withdrawal from the program

Note: Concluding an EV's program participation affects each dependent whose record is in Active status, changing their SEVIS status to the status of the EV. If a dependent is currently Inactive (for example, has turned 21 years of age) or Terminated (for example, has committed a crime), then there is no change in that dependent's status.

To end an EV's program, perform the following:

1. Access the *Exchange Visitor Information* screen for the EV whose record is being updated (perform a search for the record or use the **EV Lists** link).
2. Click the **End Program for EV** link on the **Actions** menu. Exhibit 27, End Program for EV Screen, is an example of the screen that displays. It contains summary information for the selected EV.

2.7.1.5 Extension Beyond the Maximum Duration of Participation Request (EV in Active Status)

A request to extend an EV's program beyond the maximum duration of program participation must be submitted to DoS for review and approval. (See Attachment B, DoS Maximum and Minimum Duration of Participation Rules, for the maximum and minimum duration rules for the various categories.) The EV must have a status of Active, and the request must be submitted to DoS early enough so that it can be reviewed and approved by DoS prior to the EV's program end date. Also, the request will not be processed until DoS receives a copy of the Pay.gov confirmation page showing payment of the required non-refundable fee (22 CFR 62.17, Fees and Charges), and all supporting documentation.

Note: Do not use this option for EVs in the Student category. There is no limit on the duration of participation for a college/university student.

Note: If necessary, an RO or ARO may cancel the request; DoS cannot cancel this request.

To submit an extension beyond the maximum duration of participation request, perform the following:

1. Access the *Exchange Visitor Information* screen for the EV whose record is being updated (perform a search for the record or use the **EV Lists** link).
2. Click the **Extension Beyond the Maximum Duration of Participation** link on the **Actions** menu. Exhibit 28, Extension Beyond the Maximum Duration of Participation Request Screen, is an example of the screen that displays. It includes summary information for the selected EV.

Note: When requesting an extension for a professor or research scholar EV participating in a program sponsored by the Federally Funded National Research and Development Center or a U.S. Federal Laboratory, a *Confirmation* screen displays. Review the screen and click the **I Agree** button to continue to the *Extension Beyond the Maximum Duration of Participation Request* screen.

Note: This text box may be used to adequately address the reasons that justify this request, or forward the justification to DoS when submitting the required fee.

5. Click the **Submit Extension** button to submit the request to DoS. A message displays stating that the request has been submitted to SEVIS, and the non-refundable fee must be submitted using the Pay.gov website. Also, the request will not be processed until DoS receives a copy of the Pay.gov confirmation page and all supporting documentation.
6. Access the Pay.gov web site (<https://www.pay.gov>) and submit your electronic payment following the instructions provided by DoS. See Section 2.14, Electronic Submission of Payment, for additional information regarding electronic payment of fees.

7. Submit a copy of the Pay.gov confirmation page showing payment of the required non-refundable fee to DoS. This request will not be processed until a copy of the Pay.gov confirmation page, EV's full name and SEVIS ID, and supporting documentation have been received by DoS. (See Section 1.1, Resources, or Attachment A, Resources, for the appropriate address.)

Note: The copy of the Pay.gov confirmation page showing payment of the non-refundable fee must be submitted within 30 calendar days of the email notification of submission of the request. If DoS has not noted in SEVIS the receipt of the copy of the Pay.gov confirmation page within 30 calendar days of this notification, the extension request will automatically be canceled by SEVIS.

DoS must review this request; the following outcomes are possible:

- **Request is Approved**—The submitter of the request will receive email notification of the approval.

Note: Following approval of the extension request, an RO or ARO must print the Form DS-2019, sign it in **blue** ink, and provide it to the EV and dependents, if any. Access the *Exchange Visitor Information* screen for the EV and click the **Reprint DS-2019** link. On the *Reprint DS-2019* screen, select the reprint reason “Extend an On-going Program.” (See Section 2.5.8, Reprint a Form DS-2019, for printing instructions.)

- **Additional Information Required**—The submitter of this request will receive email notification of the request for additional information. A letter from the DoS Office of Exchange Coordination and Designation identifying the areas that require additional information and/or documentation will be sent to the submitter of the request (by fax or the U.S. Postal Service) in order for the review to continue.

Note: The response containing the additional documentation and/or information must be submitted within 30 calendar days of the email notification. If DoS has not noted in SEVIS the receipt of the response within 30 calendar days of the notification, the extension request will automatically be canceled by SEVIS.

Submit the supporting documentation (along with the EV's full name and SEVIS ID) to the appropriate address (see Section 1.1, Resources, or Attachment A, Resources, for the appropriate address).

- **Request Denied**—The submitter of this request will receive notification via fax or the U.S. Postal Service regarding the denial decision.

2.7.1.6 Cancel Extension Beyond the Maximum Duration of Participation Request (EV in Active Status)

An EV's request for an extension beyond the maximum duration of participation can be canceled before the request is processed by DoS.

To cancel the request, perform the following:

1. Access the *Exchange Visitor Information* screen for the EV whose extension request is being canceled (perform a search for the record or use the **EV Lists** link).
2. Click the **Cancel Extension Beyond the Maximum Duration of Participation Request** link on the **Actions** menu. The *Cancel Extension Beyond the Maximum Duration of Participation Request* screen displays.

4. Click the **Cancel Extension Request** button to confirm the cancelation. The system displays a message stating that the request has been canceled.
5. Click the **Return to Exchange Visitor** button to view the *Exchange Visitor Information* screen. Notice that the **Cancel Extension Beyond the Maximum Duration of Participation Request** link is no longer available.

2.7.1.7 Extension Within the Maximum Duration of Participation Request

An EV's participation in the program may be extended up to the limit of the permissible period of participation authorized for his or her specific program category or as specified in the Letter of Designation or Redesignation from DoS. (See Attachment B, DoS Maximum and Minimum Duration of Participation Rules, for the maximum and minimum duration rules for the various categories.)

To extend an EV's participation within the maximum duration of participation, perform the following:

1. Access the *Exchange Visitor Information* screen for the EV whose extension request is being submitted (perform a search for the record or use the **EV Lists** link).
2. Click the **Extension Within the Maximum Duration of Participation** link on the **Actions** menu. 2.7.1.8 Matriculation (EV in Active Status)

When a college/university student EV matriculates from one level of education to another (for example, progresses from an Associate to a Bachelor's degree program), this change can be made in SEVIS. Matriculation applies to an EV who is continuing as a full-time student by moving to a higher level of education. The EV can matriculate to any level higher than his or her current level, for example:

- Associate to Bachelor's degree
- Associate to Master's degree
- Associate to Doctoral degree
- Bachelor's to Master's degree
- Bachelor's to Doctoral degree
- Master's to Doctoral degree

Note: Matriculation is available only for EVs in the Student (college/university) category. However, the Matriculation option is not available to students in non-degree programs.

To complete the matriculation process, perform the following:

1. Access the *Exchange Visitor Information* screen for the EV whose matriculation request is being submitted (perform a search for the record or use the **EV Lists** link).
2. Click the **Matriculation** link on the **Actions** menu. Exhibit 30, Matriculation Screen, is an example of the screen that displays. The fields in Exhibit 30 have already been completed.

Below the input fields are three buttons: "Matriculate", "Reset Values", and "Cancel". A callout box with a black border and white background points to the "Program End Date" field, containing the text: "The Program End Date must be changed."

At the bottom of the screen, the date "02/25/2008 (Monday)" is displayed.

3. Select the degree level from the drop-down list.
4. Enter the new program end date for the EV.
5. Click the **Matriculate** button to complete the process. A message displays stating that the EV's record has been successfully updated.
6. On the message screen, click the **Print Final DS-2019** button to print an updated copy of the Form, sign it in **blue** ink, and provide it to the EV and dependents, if any. (See Section 2.5.6, Print a Draft or Final Form DS-2019, for printing instructions.)

2.7.1.9 Reprint Form DS-2019 (EV in Active Status)

See Section 2.5.8, Reprint a Form DS-2019, for printing instructions.

2.7.1.10 Shorten Program for Exchange Visitor (EV in Active Status)

The Shorten Program for EV option is available when an EV is in Active status. The option is used to reduce the length of the EV's program by changing the program end date. For example, an EV's duration of program participation was originally scheduled to last 36 months. However,

the funding for that program has been cut and the program will last only 24 months. Use the Shorten Program for EV option to change the EV's program end date.

Note: If a professor or research scholar EV is currently participating in his or her program outside the United States and the new program end date will be prior to the current out of country end date, you must update the out of country end date before you can shorten the program. You will receive an error message if you attempt to enter a date in SEVIS that is prior to the out of country end date.

To shorten an EV's program, perform the following:

1. Access the *Exchange Visitor Information* screen for the EV whose record is being updated (perform a search for the record or use the **EV Lists** link).
2. Click the **Shorten Program for EV** link to access the *Shorten Program for EV* screen, which displays summary data for the selected EV.
3. On the *Shorten Program for EV* screen, change the program end date.
4. Enter an explanation for the date change in the **Remarks** text box; this is a required field.
5. Click the **Shorten Program for EV** button to save the information to SEVIS. A message displays stating that the information has been saved.
6. On the message screen, click the **Print Final DS-2019** button to print an updated copy of the Form, sign it in **blue** ink, and provide it to the EV and dependents, if any. (See Section 2.5.6, *Print a Draft or Final Form DS-2019*, for printing instructions.)

Note: The following will print in the **Purpose of this Form** section of the new Form DS-2019, "Amend a previous form: Shorten Program."

2.7.1.11 Terminate Exchange Visitor (EV in Active or Inactive Status)

This option is available for EVs whose SEVIS status is either Active or Inactive. Termination has an *adverse*, or *negative*, affect on the EV's record (and on the record of each dependent of the EV). Terminated EVs have no benefits and cannot apply for an extension, reinstatement, or change of category. EVs who are terminated, and all dependents, must leave the United States immediately.

Termination reasons are the following:

- Conviction of a crime
- Disciplinary action
- Engaging in unauthorized employment
- Failure to pursue EV program activities
- Failure to submit change of current address within 10 days
- Failure to maintain a full-time course of study (22 CFR 62.45(d)(6), Reinstatement to Valid Program Status)

- Failure to maintain health insurance
- Involuntary suspension (22 CFR 62.45(b)(3), Reinstatement to Valid Program Status)
- Other
- Violation of Exchange Visitor Program regulation
- Violation of sponsor rules governing the program

To terminate an EV, perform the following:

1. Access the *Exchange Visitor Information* screen for the EV whose SEVIS status is being terminated (perform a search for the record or use the **EV Lists** link).
2. Click the **Terminate EV** link on the **Actions** menu. Exhibit 31, Terminate EV Screen, is an example of the screen that displays.

Note: When terminated, the EV's program end date will not change; it will always reflect the original intention of the program.

2.7.1.12 Create Out of Country Record (Professor and Research Scholar EVs in Active Status)

Note: This function should only be used to identify a professor or research scholar EV who is continuing to participate in the program activity for which he or she has been sponsored and who is currently in the United States (not outside the country).

When a professor or research scholar EV has a SEVIS status of Active, an Out of Country record can be created for the EV. When this option is used, on the out of country begin date, the EV's SEVIS record will show that the EV is actively participating in his or her current program activity outside the United States.

An Out of Country record **cannot** be created when:

- An Out of Country record, either current or future, already exists for the EV
- The EV's record contains transfer information; the EV is transferring to another program sponsor
- One of the following requests has been submitted to DoS for processing:
 - Change of Category
 - Extension Beyond the Maximum Duration of Participation (EVs in G-7 programs)
 - Reinstatement - Update SEVIS Status

To create an Out of Country record for an EV, perform the following:

1. Access the *Exchange Visitor Information* screen for the EV whose record is being updated (perform a search for the record or use the **EV Lists** link).
2. Click the **Create Out of Country** link on the **Actions** menu (left side of the screen). The *Create Out of Country Record* screen displays. Exhibit 32, Create Out of Country Record Screen, is an example of the screen.

* Out of Country Location Address	Enter the address for the location where the EV will be participating in his or her program activity outside the United States.
* Remarks	Enter comments regarding the EV's program participation outside the United States; this is a required field.

- Click the **Submit Out of Country** button to save the out of country data. When the EV begins his or her participation outside the United States, the **Status Information** section of the *Exchange Visitor Information* screen will show that the EV is in Active status, and will have a **Reason** field that shows "Out of Country."

Note: After submitting an Out of Country record for an EV, some of the links on the **Actions** menu will not be available. For example, if the EV wishes to transfer to another program, the Out of Country record must be canceled or ended before the transfer request can be submitted in SEVIS. **It is anticipated that the EV will be in the United States in order to transfer to another program sponsor.**

2.7.1.13 Cancel Out of Country Record (EV in Active Status)

The Cancel Out of Country Record option is only available if a professor or research scholar EV has an Out of Country record in SEVIS that shows an out of country begin date in the future. For example, the EV is participating in his or her program activity in the United States, and will continue participating in the program activity outside the United States next month. The option will not be available when the out of country begin date listed in SEVIS is today's date or a date in the past.

To cancel an Out of Country record, perform the following:

- Access the *Exchange Visitor Information* screen for the EV whose record is being updated (perform a search for the record or use the **EV Lists** link, which includes a link titled **Out of Country Exchange Visitors**).
- Click the **Cancel Out of Country** link on the **Actions** menu. The *Cancel Out of Country Record* screen displays.
- Click the **Cancel Out of Country** button to remove this information from the EV's SEVIS record. This out of country listing will be deleted from the EV's record as though it never existed. The EV's SEVIS record will remain in Active status.

Note: The out of country information will only display on the *Out of Country History* screen when the out of country begin date is today's date or a date in the past. The data will not be part of the EV's out of country history if the Out of Country record has been canceled. However, the canceled out of country information will show on the *Event History* screen.

2.7.2 Edits Menu—EV in Active Status

The links on the **Edits** menu provide access to the following options when an EV is in Active Status:

- Biographical Information
- Dependents
- Financial Information
- Site of Activity
- Subject/Field
- Update Out of Country—Only available if a current Out of Country record exists for a professor or research scholar EV.

The following sections provide detailed instructions for these options.

2.7.2.1 Edit Biographical Information and U.S. Address (EV in Active Status)

1. Access the *Exchange Visitor Information* screen for the EV whose personal data are being updated (perform a search for the record or use the **EV Lists** link).
2. Click the **Biographical Information** link on the **Edits** menu. Exhibit 33, Biographical Information Screen, is an example of the screen that displays.

2.7.2.2 Add/Edit Dependent Data

For life changes such as an EV's spouse and/or children wish to join him or her in the United States or the EV has had a baby, the dependent's information must be added to the EV's SEVIS record. The following options are available for adding and/or updating dependent records:

- Add Dependent—See Section 2.5.3, Complete Page 3 of the Form DS-2019—Dependent Information, for instructions on adding a dependent to an EV record.
- Edit—See Section 2.6.2.3.2, Edit Dependent Data (Dependent in Initial or Active Status), for instructions on editing dependent data.
- Terminate—See Section 2.7.2.2.1, Terminate Dependent in Active, Inactive, or Transferred Status, for instructions on how to terminate a dependent.
- End Status—See Section 2.7.2.2.2, End Status of Dependent in Active or Transferred Status, for instructions on how to end the status of a dependent.
- Reprint DS-2019—See Section 2.5.8, Reprint a Form DS-2019, for printing instructions.
- No Show—See Section 2.7.2.2.3, Set Dependent's Status to No Show (Dependent in Active Status), for instructions on how to change the dependent's status to No Show to indicate that the dependent is not with the EV and will not be joining the EV.

2.7.2.2.1 TERMINATE DEPENDENT IN ACTIVE, INACTIVE, OR TRANSFERRED STATUS

In SEVIS, termination implies a change from Active or valid program status prior to the EV's program completion. Termination has an *adverse*, or *negative*, affect on the dependent's record. A dependent can be terminated separately from an EV, which will have no affect on the EV's SEVIS record.

The status of a dependent may be terminated prior to the end of the EV's program for the following reasons:

- Child over 21—***Do not*** select this option; it will be removed in a later release of SEVIS.
- Conviction of a crime
- Other
- Unauthorized employment

To terminate a dependent, perform the following:

1. Access the *Dependent Information* screen for the dependent who is being terminated (perform a search for the record or use the **EV Lists** link).
2. Click the **Terminate** link on the **Actions** menu. Exhibit 34, Terminate Dependent Screen, is an example of the screen that displays. It contains summary data for the EV and the dependent.

2.7.2.2.3 SET DEPENDENT'S STATUS TO NO SHOW (DEPENDENT IN ACTIVE STATUS)

The status of a dependent can be set to No Show separately from the EV, and will have no affect on the EV's record. When a dependent's status is No Show, the dependent *has violated* the Exchange Visitor Program regulations. This has an *adverse*, or *negative*, affect on the dependent's record.

Note: Setting a dependent's status to No Show has no affect on the EV's record.

To change a dependent's status to No Show, perform the following:

1. Access the *Dependent Information* screen for the EV whose dependent is being marked as "no show" (perform a search for the record or use the **EV Lists** link).
2. Click the **No Show** link on the **Actions** menu to display the *No Show* screen.
3. Review the data to ensure that this is the dependent whose status is being changed to No Show.
4. Click the **No Show** button. The system displays the *Exchange Visitor Dependents Menu* screen and the dependent's status is No Show.

2.7.2.3 Edit Financial Information (EV in Active Status)

Existing financial information for the selected EV displays on the *Edit Financial Information* screen, where it may be updated. The date entered on this screen will print on the EV's Form DS-2019.

Note: Financial data should reflect the amount of financial support provided to the EV for the duration of his or her program shown on all Forms DS-2019.

To edit the financial information, perform the following:

1. Access the record for the EV whose financial information is being updated (perform a search for the record or use the **EV Lists** link).
2. Click the **Financial Information** link on the **Edits** menu to display the *Edit Financial Information* screen.
3. Make the necessary changes to the data. See Section 2.5.4, Complete Page 4 of the Form DS-2019—Financial Information, for details regarding the fields and sections on the *Edit Financial Information* screen.

Note: All dollar amounts must be entered in SEVIS without commas and periods, and should be rounded to the nearest whole dollar (for example, \$15,678.49 should be entered as 15678).

4. Click the **Update Information** button to complete the process. A message displays stating that the data have been successfully updated in SEVIS.
5. On the message screen, click the **Print Final DS-2019** button to print the Form, sign it in **blue** ink, and provide it to the EV and dependents, if any. See Section 2.5.7, Signature on SEVIS Form DS-2019, for information about signing the EV's Form.

2.7.2.4 Site of Activity for EV

The *Exchange Visitor Information* screen displays summary data for the selected EV and a list of the site(s) of activity for the EV. Using this screen, sites of activity can be added and/or edited, and the primary site of activity for an EV can be changed. These functions are described in the following sections.

2.7.2.4.1 EDIT SITE OF ACTIVITY (EV IN ACTIVE OR TRANSFERRED STATUS)

To edit the data for an existing site of activity, perform the following:

1. Access the *Exchange Visitor Information* screen for the EV whose site of activity information is being updated (perform a search for the record or use the **EV Lists** link).
2. Click the **Site of Activity** link on the **Edits** menu. The *Site of Activity Menu* screen displays. It contains summary data for the EV and the existing site(s) of activity.
3. Near the bottom of the screen, click the **Edit** link to the right of the address for the site of activity to update. Exhibit 36, Exchange Visitor Information—Edit Site of Activity Screen, is an example of the screen that displays.

Exhibit 36: Exchange Visitor Information—Edit Site of Activity Screen

The screenshot shows the SEVIS interface for editing site of activity information. At the top, there are logos for U.S. Immigration and Customs Enforcement (ICE) and the Student & Exchange Visitor Information System (SEVIS). Navigation links include Main, Help, Tutorial, Logout, Message Board, and Change Password. The main content area is titled "Whispering Pines Institute" with Program Number P-1-00468. Therefore, you may not create or update an EV's personal or program information as follows:

- If an EV's COB or COC is on the restricted country list, you may not select or update his or her field of study to training in aviation maintenance, flight operations, or nuclear-related studies or training.
- If an EV's field of study is in aviation maintenance, flight operations, or nuclear-related studies or training, you may not select or update his or her COB or COC to a country that is on the restricted country list.

To update these data, perform the following:

1. Access the *Exchange Visitor Information* screen for the EV whose subject/field of study is being updated (perform a search for the record or use the **EV Lists** link).
2. Click the **Subject/Field** link on the **Edits** menu. Exhibit 37, Subject/Field Screen, is an example of the screen that displays. It contains summary data for the selected EV, including the current Subject/Field description.

If a college/university student EV’s academic training data have been entered into SEVIS, they can be viewed in SEVIS. You can only view the EV’s data that are specific to your program. For example, if the EV participated in academic training before transferring to your program, you will not see that information.

To view the student academic training information, perform the following:

1. Access the *Exchange Visitor Information* screen for the EV whose record is being updated (perform a search for the record or use the **EV Lists** link).
2. Click the **Student Academic Training History** link on the **Academic Training** menu (left side of the screen). The *Student Academic Training History* screen displays.
3. Click one of the following:

2.8 Exchange Visitor Information Screen—Inactive Status

The **Actions** menu may contain the following options when an EV’s SEVIS record is in Inactive status:

- Correct Minor or Technical Infraction
- Reinstatement Request
- G-7 Reinstatement
- Cancel Reinstatement Request
- Terminate EV

The following sections contain detailed instructions for each of these options.

2.8.1 Correct Minor or Technical Infraction (EV in Inactive Status)

The Correct Minor or Technical Infraction option provides the capability to correct a minor or technical infraction of the regulations for a J-1 within the first 120 days of the infraction. When the EV is in Inactive status, the only technical infraction option available is, “Failure to extend a Form DS-2019 in a timely manner.”

If the EV does not obtain a program extension within the maximum duration before his or her status changes to Inactive, you have the authority to extend the EV's program within the maximum duration of participation using the Correct Minor or Technical Infraction option. The extension may occur if it is less than 121 days after the EV's status changed to Inactive. However, when the current date is between 121 days and 270 days after the EV's status changed to Inactive, you may submit a request for reinstatement to DoS for review and approval. See Section 2.8.2, Reinstatement Request (EV in Inactive Status), for details.

Note: The Correct Minor or Technical Infraction option is not available for participants in professor and research scholar programs with a program serial of G-7 if the EV has already reached the maximum duration of participation for his or her program.

To correct a minor or technical infraction, perform the following:

1. Access the *Exchange Visitor Information* screen for the EV whose record is being updated (perform a search for the record or use the **EV Lists** link).
2. Click the **Correct Minor or Technical Infraction** link on the **Actions** menu. The *Correct Minor or Technical Infraction* screen displays (see Exhibit 26).
3. Select the reason for the infraction from the drop-down list; this is a required field.
4. Enter the new program end date, which should be later than today's date and must follow the DoS Maximum and Minimum Duration of Participation rule. This is a required field.
5. Enter an explanation in the **Remarks** text box; this is a required field.
6. Click the **Correct Minor or Technical Infraction** button. A message displays stating that the EV's record has been successfully updated.

Note: This process sets the EV's status back to Active.

7. On the message screen, click the **Reprint DS-2019** link to reprint the Form. Sign the Form in blue ink, and provide it to the EV and dependents, if any. See Section 2.5.6, Print a Draft or Final Form DS-2019, for printing instructions.

2.8.2 Reinstatement Request (EV in Inactive Status)

Use the Correct Minor or Technical Infraction process to change an EV's SEVIS status from Inactive to Active as long as regulatory requirements are met and the process is used prior to 121 days after the EV's status changed to Inactive.

When the current date is between 121 days and 270 days after the EV's status changed to Inactive, you may submit a request for reinstatement to DoS for review and approval (22 CFR 62.45, Reinstatement to Valid Program Status). Reinstatement cannot be requested when the current date is greater than 270 days after the status changed to Inactive. In that case, the EV is in Inactive status and the EV's information cannot be updated.

Note: A non-refundable fee is required when submitting a Reinstatement request for an EV (22 CFR 62.17, Fees and Charges). DoS will not begin to process the request until the

supporting documentation and copy of the Pay.gov confirmation page showing payment of the non-refundable fee have been received.

To request reinstatement for an EV whose status has been Inactive for at least 121 days and not more than 270 days, perform the following:

1. Access the *Exchange Visitor Information* screen for the EV whose reinstatement request is being submitted (perform a search for the record or use the **EV Lists** link).
2. Click the **Reinstatement Request** link on the **Actions** menu. The *Reinstatement Request* screen displays.
3. Enter the new program end date, which must follow the DoS Maximum and Minimum Duration of Participation rules (see Attachment B, DoS Maximum and Minimum Duration of Participation Rules).
4. Enter an explanation for the request in the **Remarks** text box; this is a required field.
5. Click the **Submit Reinstatement** button. A message displays stating that the request is not complete. Read the message carefully; it lists the materials that must be submitted to DoS before the request will be processed.

Note: DoS will not begin to process this request until a copy of the Pay.gov confirmation page showing payment of the non-refundable fee and the supporting documentation have been received. The request must be submitted via SEVIS, and a copy of the Pay.gov confirmation page and supporting documentation must be submitted to DoS. The supporting documentation can include, but is not limited to, the following:

- Copies of all of the EV's Forms DS-2019 issued to date
 - Evidence that the SEVIS I-901 Fee has been paid (required by PL 104-208)
 - A written statement, and documentary information supporting the statement, declaring that the EV is pursuing or has at all times intended to pursue the original Exchange Visitor Program activity for which he or she was admitted to the United States
 - A written statement declaring that the EV failed to maintain valid program status due to circumstances beyond the control of the EV, or from administrative delay or oversight, unintentional, or excusable neglect on your part or the EV's part
- or**
- A written statement declaring that it would be an unusual hardship to the EV if DoS does not grant the reinstatement request and return the EV to valid program status
6. Access the Pay.gov web site (<https://www.pay.gov/>) and submit your electronic payment following the instructions provided by DoS. See Section 2.14, Electronic Submission of Payment, for additional information regarding electronic payment of fees.
 7. Submit a copy of the Pay.gov confirmation page showing payment of the non-refundable fee, EV's full name and SEVIS ID, and supporting documentation to DoS at the appropriate address. This request will not be processed until a copy of the Pay.gov confirmation page

and supporting documentation have been received by DoS. (See Section 1.1, Resources, or Attachment A, Resources, for the appropriate address.)

Note: Sixty days after this request is submitted, the system will automatically cancel the reinstatement request if DoS has not noted in SEVIS receipt of the fee and/or supporting documentation. The submitter of the request will receive email notification of this cancellation.

DoS must review this request; the following outcomes are possible:

- **Request Approved**—The submitter of the request will receive email notification of the approval.

Note: Following approval of the reinstatement request, an RO or ARO must print the Form DS-2019, sign it in **blue** ink, and provide it to the EV and dependents, if any. Access the *Exchange Visitor Information* screen for the EV and click the **Reprint DS-2019** link. On the *Reprint DS-2019* screen, select the reprint reason “Reinstate an On-going program.” (See Section 2.5.8, Reprint a Form DS-2019, for printing instructions.)

Note: If an error occurs when printing the Form DS-2019, the Reinstatement reprint reason will be removed from the list of reprint reasons. Select the **Other** option and enter the following text in the **Remarks** field, “Reinstate an On-going Program.”

- **Additional Information Required**—The submitter of the request will receive email notification of the request for information. A letter from the DoS Office of Exchange Coordination and Designation identifying the areas that require additional information and/or documentation will be sent to the submitter of the request (by fax or the U.S. Postal Service) in order for the review to continue.

Note: The response must be submitted within 30 calendar days of the email notification. If DoS has not noted in SEVIS the receipt of a response within 30 calendar days of the notification, the reinstatement request will be automatically canceled in SEVIS. Submit the supporting documentation (along with the EV's full name and SEVIS ID) to the appropriate address. (See Section 1.1, Resources, or Attachment A, Resources, for the appropriate address.)

- **Request Denied**—A letter from the DoS Office of Exchange Coordination and Designation regarding the denial decision will be sent (by fax or the U.S. Postal Service) to the program sponsor.

2.8.3 Reinstatement Request for G-7 Participants (EV in Inactive Status)

When the current date is less than 271 days after the EV's SEVIS status changed to Inactive and the professor or research scholar's program is greater than 5 years in length, a G-7 reinstatement request can be submitted to DoS for review and approval (22 CFR 62.45, Reinstatement to Valid Program Status). Reinstatement cannot be requested when the current date is greater than 270 days after the status changed to Inactive. When an EV is in Inactive status, his or her information cannot be updated.

Note: A non-refundable fee is required when submitting a reinstatement request for an EV (22 CFR 62.17, Fees and Charges). DoS will not begin to process the request until supporting documentation and a copy of the Pay.gov confirmation page showing payment of the required fee have been received.

To request reinstatement of an EV participating in a G-7 program, perform the following:

1. Access the *Exchange Visitor Information* screen for the EV whose reinstatement request is being submitted (perform a search for the record or use the **EV Lists** link).
2. Click the **G-7 Reinstatement** link on the **Actions** menu to display the *Visitor Eligibility* screen. This screen contains a reminder that the person must be eligible to participate in this type of program.
3. Review the information on the *Visitor Eligibility* screen and click the **Continue** button to display the *Reinstatement Request* screen.
4. Enter the program end date, which may be up to 5 years after the current program end date.
5. Enter an explanation for the request in the **Remarks** text box; this is a required field.
6. Click the **Submit Reinstatement** button. A message displays stating that the request is not complete. Read the message carefully; it provides additional information about the reinstatement request.

Note: DoS will not begin to process this request until supporting documentation and a copy of the Pay.gov confirmation page showing payment of the non-refundable fee have been received. The request must be submitted via SEVIS, and a copy of the Pay.gov confirmation page and supporting documentation must be submitted to DoS. The supporting documentation can include, but is not limited to, the following:

- Copies of all of the EV's Forms DS-2019 issued to date
 - Evidence that the SEVIS I-901 Fee has been paid (required by PL 104-208)
 - A written statement, and documentary information supporting the statement, declaring that the EV is pursuing or has at all times intended to pursue the original Exchange Visitor Program activity for which he or she was admitted to the United States
 - A written statement declaring that the EV failed to maintain valid program status due to circumstances beyond the control of the EV, or from administrative delay or oversight, unintentional, or excusable neglect on your part or the EV's part
or
A written statement declaring that it would be an unusual hardship to the EV if DoS does not grant the reinstatement request and return the EV to valid program status
7. Access the Pay.gov web site (<https://www.pay.gov/>) and submit your electronic payment following the instructions provided by DoS. See Section 2.14, Electronic Submission of Payment, for additional information regarding electronic payment of fees.
 8. Submit a copy of the Pay.gov confirmation page showing payment of the non-refundable fee, EV's full name and SEVIS ID, and supporting documentation have been received by DoS.

This request will not be processed until a copy of the Pay.gov confirmation page and supporting documentation have been received by DoS. (See Section 1.1, Resources, or Attachment A, Resources, for the appropriate address.)

Note: Sixty days after this request is submitted, the system will automatically cancel the reinstatement request if DoS has not noted in SEVIS the receipt of the fee and/or supporting documentation. The submitter of the request will receive email notification of this cancellation.

Once DoS reviews the reinstatement request, the following outcomes are possible:

- **Request Approved**—The submitter of the request will receive email notification of the approval. An RO or ARO must print an updated copy of the Form DS–2019, sign it in **blue ink**, and provide it to the EV and dependents, if any. (See Section 2.5.8, Reprint a Form DS-2019, for printing instructions.)

Note: If an error occurs when printing the Form DS–2019, the Reinstatement reprint reason will be removed from the list of reprint reasons. Select the **Other** option and enter the following text in the **Remarks** field, “Reinstate an On-going Program.”

- **Additional Information Required**—The submitter of the request will receive email notification of the request for additional information. A letter from the DoS Office of Exchange Coordination and Designation identifying the areas that require additional information and/or documentation will be sent to the submitter of the request (by fax or the U.S. Postal Service) in order for the review to continue.

Note: The response must be submitted within 30 calendar days of the email notification. If DoS has not noted in SEVIS the receipt of a response within 30 calendar days of the notification, the reinstatement request will automatically be canceled in SEVIS. Include the EV’s full name and SEVIS ID when submitting the supporting documentation to DoS.

- **Request Denied**— A letter from the DoS Office of Exchange Coordination and Designation regarding the denial decision will be sent (by fax or the U.S. Postal Service) to the program sponsor.

2.8.4 Cancel Reinstatement Request (EV in Inactive Status)

After a reinstatement request has been submitted to DoS for review, the request may be canceled before it is processed by DoS. This option can be used for both regular reinstatement requests and reinstatement requests for G-7 participants.

Note: This option is only available following the submission of a reinstatement request to DoS.

To cancel a reinstatement request, perform the following:

1. Access the *Exchange Visitor Information* screen for the EV whose request is being canceled (perform a search for the record or use the **EV Lists** link).

2. Click the **Cancel Reinstatement** link on the **Actions** menu to display the *Cancel Reinstatement Request* screen.
3. Enter optional comments in the **Remarks** text box.
4. Click the **Cancel Reinstatement Request** button. A message displays stating that the request has been canceled; the EV's record will remain in Inactive status.

2.8.5 Terminate Exchange Visitor (EV in Inactive Status)

See Section 2.7.1.11, Terminate Exchange Visitor (EV in Active or Inactive Status), for instructions on terminating an EV or Section 2.7.2.2.1, Terminate Dependent in Active, Inactive, or Transferred Status, for instructions on terminating a dependent separately from an EV.

2.9 Transfer Procedures for Receiving Program

When an EV transfers to another program, his or her record in SEVIS must be updated and validated no later than 30 days after the effective date of transfer listed in SEVIS. Validation of program participation requires the receiving sponsor to acknowledge that the EV has reported as required and to collect the EV's current U.S. address (actual physical location where the EV will reside while in the United States). Updating the EV's record and validation of program participation can take place at any time after the effective date of transfer. Failure to validate the transfer EV's program participation 30 days past the effective date of transfer will result in SEVIS changing the EV's status to No Show.

Note: In accordance with 22 CFR 62.12(c)(8), Issuance of Form DS-2019, the EV's site of activity should also be reviewed and updated at the time of validation. In the event that more than one site of activity has been listed for the EV in SEVIS, the primary site of activity must be specified.

Note: When a program is expecting to receive a transfer EV from another SEVIS program, that EV's name will display on the *All Exchange Visitors and Dependents* list and the *Transferred Status Exchange Visitors and Dependents* list after the effective date of transfer identified in SEVIS. This EV's status will change to Transferred once the effective date of transfer arrives.

The following sections provide detailed instructions for the receiving sponsor on how to complete the transfer process for an EV:

- 2.9.1 Transfer—Exchange Visitor Personal Information and U.S. Address
- 2.9.2 Transfer—Add Site of Activity
- 2.9.3 Transfer—Add Dependent/Edit Dependent Data
- 2.9.4 Transfer—Financial Information
- 2.9.5 Validate the EV's Program Participation (EV in Transferred Status)

2.9.1 Transfer—Exchange Visitor Personal Information and U.S. Address

When an EV transfers, the receiving sponsor must update his or her Form DS-2019 in SEVIS before validating the EV's program participation. To update the Form, perform the following:

1. Access the *Exchange Visitor Information* screen for the EV whose personal information is being updated (perform a search for the record or use the **EV Lists** link).
2. Click the **Edit DS-2019** link on the **Actions** menu to begin updating the EV's Form. Exhibit 41, New Exchange Visitor Screen for Transfer EV, is an example of the screen that displays.

If any fields and sections have not been completed or contain incorrect information, the system will display an error message indicating the error(s). Make the necessary corrections and click the Next button again to display the <i>Site of Activity Menu</i> screen. Note: When the EV is a professor or research scholar, the <i>Visitor Eligibility</i> screen will display. This screen contains a reminder that

2.9.2 Transfer—Add Site of Activity

Page 2 of the electronic Form DS-2019, *Site of Activity Menu* screen (Exhibit 14), is used to collect program information for the EV. It provides a summary of the information entered for the EV, and an option for adding sites of activity. All EVs must have at least one site of activity.

To enter information about the EV’s site of activity, perform the following:

1. Click the **Add Site of Activity** link in the lower-left part of the *Site of Activity Menu* screen. The system displays the *Exchange Visitor Information—Add Site of Activity* screen.
2. In the **Site of Activity** field, enter the name of the place where the EV will participate in his or her program. For an au pair enter the host family’s name. For a secondary student (high school student), enter the name of the high school.
3. In the **Site of Activity Address** fields, enter the physical location of the site. For an au pair, enter the host family’s address. For secondary students (high school students), enter the address of the high school.

Note: Do not enter post office box numbers in this address.

4. Enter optional comments in the **Remarks** text box.
Note: See Section 2.7.2.4.1, Edit Site of Activity (EV in Active or Transferred Status), for detailed instructions on how to edit an EV’s site of activity.
5. Click the **Add Site of Activity** button to save the data entered for this EV. The system displays the *Site of Activity Menu* screen. Summary information for the site that has been added displays below the EV’s personal information.

Note: Multiple sites of activity may be added for an EV; follow the procedures above to add more sites of activity. If the EV has multiple sites of activity, the site selected as the primary site of activity (the **Primary Site of Activity** radio button is selected) will be the one that prints on the Form DS-2019.

6. If multiple sites of activity have been added to the EV’s record, perform the following to change the primary site of activity:
 - a. Click the radio button to the left of the primary site of activity for the EV.

- b. Click the **Change Site of Activity** button, and a message will display stating that the primary site of activity has been changed.
- c. Click **OK** and the *Site of Activity Menu* screen will display.

7. Click one of the following buttons:

Note: It is recommended that you print a draft copy of the transfer Form DS-2019 and review it for accuracy. Necessary corrections can be made to the data before submitting the Form to SEVIS.

2.9.3 Transfer—Add Dependent/Edit Dependent Data

Page 3 of the electronic Form DS-2019, *Exchange Visitor Dependents Menu* screen, contains summary information for the EV and dependents, if any. It also contains a link to add dependents or edit the data for an existing dependent. Procedures for both options are described in the next two sections.

Note: Only the data for the spouse and children of an EV coming to the United States on J-2 visas are entered into SEVIS. If the spouse and child dependents plan to enter the United States on other types of visas, **do not** enter their information in SEVIS.

2.9.3.1 Transfer—Add Dependent

Dependents can be added to the EV’s SEVIS record. However, if both a husband and wife are entering the United States on J-1 visas, add the dependent child’s information to only one SEVIS record (Form DS-2019). Do not add the dependent child’s information to both parents’ records/Forms. Doing so will give the dependent child two SEVIS records.

To add a dependent for an EV transferring into your program, perform the following:

1. Click the **Add Dependent** link on the *Exchange Visitor Dependents Menu* screen. The *Exchange Visitor Information—Add Dependent* screen displays.
2. Below is a list with explanations of the fields and sections on the *Exchange Visitor Information—Add Dependent* screen (Exhibit 17). An asterisk (*) precedes the fields and sections that must be completed. To complete this screen, enter the following data:

Field/Section	Description/Explanation
* 1. Family Name	Enter the surname or last name of the dependent. If the dependent has only one name, enter it in this field. Note: The DoS Bureau of Consular Affairs has advised that

2. First Name	Enter the first name of the dependent. Leave this field blank if the dependent has only one name. Note: Even though this is not a required field in SEVIS, the DoS Bureau of Consular Affairs has advised that names should be entered in SEVIS exactly as they appear on the passport. In the event the nonimmigrant does not have a passport, enter the name as it displays on the National ID card.
3. Middle Name	Enter the middle name of the dependent. Leave this field blank if the dependent has no middle name, or the middle name is unknown. Note: Even though this is not a required field in SEVIS, the DoS Bureau of Consular Affairs has advised that names should be entered in SEVIS exactly as they appear on the passport. In the event the nonimmigrant does not have a passport, enter the name as it displays on the National ID card.

Some applicants, however, will be permanent resident residents of other countries. Note the difference between permanent and temporary residence. For example, a French citizen who is teaching in Italy on a 1-year contract, and applying for a J visa from Italy, would not be considered an LPR of Italy.
12. Email Address	Enter an email address for the dependent. Completion of this field is optional.
13. Social Security Number	Enter the dependent's Social Security number. Completion of this field is optional.
14. Driver's License Number	Enter the dependent's driver's license number assigned by the state that issued the license. Completion of this field is optional.
15. Driver's License Issue State	Select the state that issued the driver's license to the dependent, if applicable. Completion of this field is optional.

2.9.3.2 Transfer—Update Dependent Data

To update dependent data, perform the following:

1. On the *Exchange Visitor Dependents Menu* screen, click the **Edit** link to the right of the name of the dependent whose data are being updated. The *Exchange Visitor Information—Edit Dependent* screen displays.
2. Make the necessary updates to the dependent's data. See Section 2.9.3.1, Transfer—Add Dependent, for detailed instructions for completing the fields.
3. Click the **Submit Edit** button. The *Exchange Visitor Dependents Menu* displays.
4. Click the **Next** button to advance to the *Financial Information* screen.

2.9.3.3 Transfer—Terminate Dependent

If a dependent must be terminated, complete this process before updating the EV's record and prior to validating the EV's participation. The **Terminate Dependent** link will not be available after the EV's record is updated.

See Section 2.7.2.2.1, Terminate Dependent in Active, Inactive, or Transferred Status, for instructions on how to terminate a dependent.

Note: In SEVIS, termination implies a change from Active or valid program status prior to the EV's program completion. Termination has an *adverse*, or *negative*, affect on the dependent's record. A dependent can be terminated separately from an EV, which has no affect on the EV's SEVIS record.

2.9.3.4 Transfer—End Status of Dependent

If a dependent's status must be ended, complete this process before updating the EV's record and prior to validating the EV's participation. The **End Status** link will not be available after the EV's record is updated.

See Section 2.7.2.2.2, End Status of Dependent in Active or Transferred Status, for instructions on how to end the status of a dependent.

2.9.4 Transfer—Financial Information

Page 4 of the electronic Form DS-2019, *Financial Information* screen, is used to collect financial information for the EV. This screen represents the final step in creation of a transfer record for an EV.

Note: Financial data should reflect the amount of financial support provided to the EV for the duration of his or her program shown on all Forms DS-2019.

To complete the *Financial Information* screen, perform the following:

1. Below is a list with explanations of the fields and sections on this screen. An asterisk (*) precedes the fields and sections that must be completed. To complete this screen, enter the following data:

2.9.5 Validate the EV's Program Participation (EV in Transferred Status)

When an EV transfers to another program, his or her record in SEVIS must be validated. Validation of program participation requires you to acknowledge that the EV has reported as required, and collect the EV's current U.S. address (actual physical location where the EV will reside while in the United States) no later than 30 days after the effective date of transfer.

WARNING: PROGRAMS LESS THAN 30 DAYS IN DURATION—If the EV's program is less than 30 days in length, failure to validate the EV's SEVIS record to indicate his or her participation before the program end date listed in SEVIS will result in cancelation of the EV's record in SEVIS. The SEVIS status of the EV and dependents, if any, will automatically change to No Show.

WARNING: PROGRAMS GREATER THAN 30 DAYS IN DURATION—Failure to validate the transfer EV's participation 30 days after the effective date of transfer listed in SEVIS will result in SEVIS changing the status of the EV and dependents, if any, to No Show. (See 22 CFR 62.76(b)(v), Transfer Procedures.)

Validation of program participation may take place at any time after the effective date of transfer, but no later than 30 days after the effective date of transfer. However, if the EV's program participation has not been validated, a reminder will display on the *Alerts* list 15 days following the effective date of transfer. A final reminder will display 25 days following the effective date of transfer if the EV's participation has not been validated.

Note: When a sponsor is expecting to receive a transfer EV from another SEVIS program sponsor, the EV's name will display on the *All Exchange Visitors and Dependents* list with the status of Transferred once the effective date of transfer arrives. The EV's name will also display on the *Transferred Status Exchange Visitors and Dependents* list.

Validating a transfer EV's participation is a two-step process. The EV's SEVIS record must first be updated, and then validated. To update the record and validate the participation of an EV transferring into your program, perform the following:

1. Access the *Exchange Visitor Information* screen for the EV whose program participation is being validated (perform a search for the record or use the **EV Lists** link).
2. Click the **Edit DS-2019** link on the **Edits** menu and update the EV's data (see Section 2.9.1 through Section 2.9.4 for detailed instructions).
3. Click the **Submit DS-2019** button to submit the data to SEVIS. A message displays stating that the data have been successfully submitted to SEVIS.

Note: The EV is *not* in Active status. The EV's program participation must be validated; continue with the following steps to validate the EV's participation.

4. On the message screen, click **Print Final DS-2019** button to print a final copy of the Form, sign it in **blue** ink, and provide it to the EV and dependents, if any. (See Section 2.5.6, *Print a Draft or Final Form DS-2019*, for printing instructions.)

Note: The current U.S. address (where the EV will reside) is collected in SEVIS but does not print on the Form DS-2019. When the Form is printed, the address of the primary site of activity for the EV will print in the **U.S. Address** section of the Form. If the EV has multiple sites of activity, the selected site of activity (radio button is selected) will print on the Form.

5. After printing the Form, the EV's participation must be validated. Access the *Exchange Visitor Information* screen for the EV whose program participation is being validated (if necessary, perform a search for the record or use the **EV Lists** link).
6. On the *Exchange Visitor Information* screen, click the **Validate Program Participation** link to display the *Validate Program* screen.
7. Ensure the accuracy of the current U.S. address (residence) for this EV and make corrections as necessary.

Note: When entering data for secondary students (high school students), enter the name of the host family in the **Address 1** field and enter the street address for this residence in the **Address 2** field. For an au pair, enter the host family's name and address.

Note: Passport, visa, and POE information may be received from other systems. However, if the fields are not filled in, the following data may be entered, if available:

- Passport Number
- Passport Issuing Country
- Passport Expiration Date
- Visa Number
- Post/Country of Visa Issuance
- Visa Expiration Date
- Visa Issue Date
- Admission Number

- Port of Entry
- Date of Entry

8. Click the **Validate Program** button. The *Listing of Programs* screen displays, and the status of the EV and dependents (if any) is Active.

2.10 SEVIS Correction Procedures

Two different types of corrections may be requested for EV and dependent SEVIS records:

- **30-Day Correction**—When this option is used, EV and/or dependent SEVIS records are corrected immediately.
- **Reinstatement – Update SEVIS Status**—When this option is used, DoS must review and process the request.

These options are discussed in detail in the following sections.

2.10.1 30-Day Correction Period for SEVIS Status

Note: DoS anticipates that this functionality will be used on rare occasions since sponsors are required to validate an EV's program participation no later than 30 days after the program begin date. For programs with durations less than 30 days, the EV's program participation must be validated before the program end date. DoS reviews SEVIS reports that provide information about programs that utilize this functionality.

If the EV's SEVIS status has changed to Active, Invalid, or No Show within the past 30 days, the Correct SEVIS Status option may be used to change the EV's status from:

- Active to Initial
- Invalid to Initial
- Invalid to Active
- No Show to Active

The EV's SEVIS status will change immediately when using this function. Also, if the EV's and dependent's status changed to Active, Invalid, or No Show on the same date, when the EV's status is corrected using this option, the dependent's status will change to the same SEVIS status as the EV. For example, the SEVIS status of the EV and dependent changed to Invalid on the same date. When the Correct SEVIS Status option is used to change the EV's status to Active, the dependent's status will change to Active at the same time.

Note: If a dependent's status changed separately from the EV's SEVIS status, and the Correct SEVIS Status option is used, the EV's status will **not** change. See Section 2.10.2, 30-Day Correction Period for SEVIS Status for Dependent, for additional information.

Exhibit 42, Correct SEVIS Status Screen, is an example of the screen used to change an EV's status.

2.10.2 30-Day Correction Period for SEVIS Status for Dependent

The Correct SEVIS Status option may be used to change the dependent's status to the same status as the EV if the dependent's status meets all of the following criteria:

1. Is currently Invalid, No Show, or Terminated
2. Changed to Invalid, No Show, or Terminated within the past 30 days
3. Does not match the status of the EV

For example, if the RO/ARO terminated the dependent by mistake, the dependent's status will be Terminated and the EV's status will be Active. When the Correct SEVIS Status option is used, the dependent's SEVIS status will immediately change to match the status of the EV.

Note: If the status of both the EV and dependent changed to Invalid, No Show, or Terminated on the same date, the Correct SEVIS Status option will not be available for the dependent.

To change the dependent's status, perform the following:

1. Access the *Dependent Information* screen for the dependent whose status is being updated (perform a search for the record or use the **EV Lists** link).
2. Click the **Correct SEVIS Status** link on the **Actions** menu. A confirmation screen displays.

2.10.3 Reinstatement – Update SEVIS Status Request

If it is more than 30 days and less than 271 days since the SEVIS status of the EV changed to Active, Invalid, or No Show, a Reinstatement – Update SEVIS Status request may be submitted to DoS to change the status from:

- Active to Initial
- Invalid to Initial
- Invalid to Active
- No Show to Active

The Reinstatement – Update SEVIS Status option will also be available on the *Exchange Visitor Information* screen to submit a request to DoS to change an EV's SEVIS status from Terminated to Active. This option will immediately become available when the EV's SEVIS status is changed to Terminated. The option will remain available for up to 270 days following the date the EV's status changed to Terminated. A change in the status of a SEVIS record from Terminated to Active will always require the approval of DoS and therefore, must be processed as a Reinstatement – Update SEVIS Status request.

Note: If an EV has dependents with the same status, and the status of the EV and dependents changed at the same time, the **Reinstatement – Update SEVIS Status** link will be available on the *Exchange Visitor Information* screen only.

If the dependent's status changed separately from the EV's status, approval of this request will not affect the dependent's status. For example, if the dependent's status changed to No Show and, the next day, the EV's status changed to No Show, approval of the Reinstatement – Update SEVIS Status request will only affect the EV's status. The dependent's SEVIS status will remain No Show.

Requests may be submitted to DoS to change the SEVIS status of a dependent whose status changed to Invalid, No Show, or Terminated separately from the EV's status. See Section 2.10.3.2, Reinstatement – Update SEVIS Status Request for Dependent, for instructions on submitting a Reinstatement – Update SEVIS Status request for a dependent.

Note: A non-refundable fee is required when submitting a Reinstatement – Update SEVIS Status request for an EV. DoS will not begin to process the request until the supporting documentation and a copy of the Pay.gov confirmation page showing payment of the required fee have been received.

The following sections provide instructions for submitting a Reinstatement – Update SEVIS Status request for an EV and a dependent.

2.10.3.1 *Reinstatement – Update SEVIS Status Request for EV*

- A written statement, and documentary information supporting the statement, declaring that the EV is pursuing or has at all times intended to pursue the original Exchange Visitor Program activity for which he or she was admitted to the United States
- A written statement declaring that the EV failed to maintain valid program status due to circumstances beyond the control of the EV, or from administrative delay or oversight, unintentional, or excusable neglect on your part or the EV's part

or

A written statement declaring that it would be an unusual hardship to the EV if DoS does not grant the reinstatement request and return the EV to valid program status

Note: If requesting to change the EV's status from Active to Initial, the SEVIS record will be locked while the request is being processed by DoS. Some of the options on the **Actions** and **Edits** menus will not be available until the request has been processed by DoS or canceled. Also, if DoS has not noted in SEVIS receipt of the supporting documentation and a copy of the Pay.gov confirmation page showing payment of the non-refundable fee within 30 calendar days of submission of the request, the status of the EV and dependents, if any, will change to Invalid.

Note: Click the **Reset Values** button to return the unsaved data to the previous values, or click the **Cancel** button to return to the *Exchange Visitor Information* screen without requesting a change to the EV's status.

5. Access the Pay.gov web site (<https://www.pay.gov/>) and submit your electronic payment following the instructions provided by DoS. See Section 2.14, Electronic Submission of Payment, for additional information regarding electronic payment of fees.
6. Submit a copy of the Pay.gov confirmation page showing payment of the non-refundable fee to DoS. Include the EV's name and SEVIS ID, and supporting documentation for this request to be processed. Mail the materials to the appropriate address. (See Section 1.1, Resources, or Attachment A, Resources, for the appropriate address.)

Note: DoS will not begin to process this request until the supporting documentation and a copy of the Pay.gov confirmation page showing payment of the non-refundable fee have been received. If DoS has not noted in SEVIS receipt of a copy of the Pay.gov confirmation

page and supporting documentation within 30 calendar days of submission of the request in SEVIS, the Reinstatement - Update SEVIS status request will be automatically canceled in SEVIS.

Once DoS reviews the Reinstatement – Update SEVIS Status request, the following outcomes are possible:

- **Request Approved**—The submitter of the request will receive email notification of the approval, and must print an updated copy of the Form DS-2019, sign it in **blue** ink, and provide it to the EV and dependents, if any. Use the **Reprint DS-2019** link on the **Actions** menu to print the Form. (See Section 2.5.8, Reprint a Form DS-2019, for printing instructions.)

Note: This correction to the EV’s SEVIS status will automatically update the dependent’s SEVIS status when, at the time the request was submitted, the:

- EV and dependent had the same status
- Status of the EV and dependent changed to Active, Invalid, No Show, or Terminated at the same time

Note: When the SEVIS status of an EV changes from Invalid to Initial or Invalid to Active, the allotment of Forms DS-2019 will be decreased by one.

- **Additional Information Required**—The submitter of the request will receive email notification of the request for additional information. The email will identify the areas that require additional information and/or documentation in order for the review to continue.

Note: The response must be submitted within 30 calendar days of the email notification. If DoS has not noted receipt of the response in SEVIS within 30 calendar days of the notification, the reinstatement request will be automatically canceled in SEVIS.

Note: When requesting to change the EV’s status from Active to Initial, if DoS has not noted in SEVIS receipt of the additional information within 30 calendar days of the request for information notification, the status of the EV and dependents, if any, will change to Invalid.

Submit the supporting documentation, including the EV’s full name and SEVIS ID, to DoS. See Section 1.1, Resources, or Attachment A, Resources, for the appropriate address.

- **Request Denied**—If denied, the submitter of the request will receive email notification of the denial decision.

Note: If the request to change the EV’s status from Active to Initial is denied by DoS, the status of the EV and dependents, if any, will change to Invalid.

2.10.3.2 Reinstatement – Update SEVIS Status Request for Dependent

A request may be submitted to DoS to change the SEVIS status of a dependent whose status changed to Invalid, No Show, or Terminated separately from the EV’s status. For example, the EV’s SEVIS status is Active and the dependent’s status is No Show.

2.11 Alerts

Alerts are notices to users identifying tasks that need to be completed in SEVIS. In most cases, these alerts are indicators that, according to the information currently in the system, a deadline is approaching for some type of process. For example, the EV’s status will change (in many cases, from Active to Terminated or Completed) if some type of action or update is not taken by the RO or an ARO within a certain number of days. If no action is taken by the RO or ARO, the system will automatically take action.

Note: When an alert exists, the ***Alerts** link will display on the *Listing of Programs* screen. SEVIS does not send email notification for alerts. You must access SEVIS to view and process alerts.

Exhibit 44, Listing of Programs Screen—Alerts Link, shows the location of the ***Alerts** link on the screen. If there are no alerts for a program, the ***Alerts** link will not display on the *Listing of Programs* screen.

Exhibit 44: Listing of Programs Screen—Alerts Link

Exhibit 45, Alerts for American Au Pair Agency, Inc. Screen, is an example of an alerts screen. In Exhibit 45, the first alert is a reminder that the program has 6 months before its designation expires. The remaining alerts are for EVs. To view the EVs on the list, click the ***Alerts** link. See Section 2.11.1, Viewing Alerts, for further details.

Exhibit 45: Alerts for American Au Pair Agency, Inc. Screen

2.11.1 Viewing Alerts

To view alerts available for a specific program, perform the following:

1. On the *Listing of Programs* screen, click the ***Alerts** link for a specific program. The list of alerts for that program displays. Each row in the list represents a SEVIS situation that requires the attention of the RO or ARO. For example, *25 Days Beyond Effective Date of Transfer* indicates that there are EV records in Transfer status and the current date is 25 days or more past the their effective date of transfer. These records must be validated if the EV has arrived and is participating in his or her program. Otherwise, the system will automatically set the status of the EV and dependents, if any, to No Show 30 days after the effective date of transfer listed in SEVIS.
2. Click an alert to see the specific list of records that require processing.
3. Click the EV's or dependent's SEVIS ID or name link to access his or her record.
4. Process the record. For example, for the *25 Days Beyond Effective Date of Transfer* alert, click the EV's name and select the **Edit DS-2019** link on the *Exchange Visitor Information* screen. Review and complete the *Exchange Visitor Information* screens, and then validate the EV's participation in your program.

2.14 Electronic Submission of Payment

The U.S. Department of State has entered into an agreement with the U.S. Department of Treasury's Financial Management Service (FMS) to participate in an electronic payment system known as "Pay.gov." All Exchange Visitor Program fee payments must be submitted via the Pay.gov web site. Currently, the following requests require payment of a non-refundable fee:

- Change of Category
- Extension Beyond the Maximum Duration of Participation
- Reinstatement
- Reinstatement – Update SEVIS Status
- Redesignation

Pay.gov is a secure, Government-wide financial management transaction portal managed by FMS, and developed in cooperation with Cleveland Federal Reserve Bank and Bank of America. The Department accepts payments from checking and savings accounts via Automated Clearing House (ACH) at Cleveland Federal Reserve Bank and credit card collections with settlement provided by Bank of America. The ACH is a funds transfer network that provides for interbank clearing of electronic entries by participating financial institutions.

Your organization must identify at least two Pay.gov users to DoS to register to use the "Exchange Visitor Program (EVP) Fee Payment" form via Pay.gov. This form is private and exclusively for the use of J-1 designated sponsors to submit requests for services (i.e., redesignation, extensions, reinstatements, reinstatement – update SEVIS status, and change of category). Please contact DoS at 202-203-5096 to obtain registration information and instructions for submitting payments electronically via Pay.gov.

Note: “ECFMG Sponsorship” and “Permission to Issue” requests are not CURRENTLY processed using SEVIS. However, fee payments for “ECFMG Sponsorship” and “Permission to Issue” must also be made via the Pay.gov web site.

The **Logout** link on the navigation bar is used to log off SEVIS at any time. To close the browser window, click the **Close** (✕) button in the upper-right corner of the browser window.

Note: If SEVIS locks up, click the **Close** (✕) button in the upper-right corner of the browser window and initiate operation again. You must wait 20 minutes before accessing SEVIS again.

Should there be an unscheduled termination of your SEVIS session due to external causes such as a timeout, power failure, or a computer malfunction, repeat the login procedures described in Section 3.1, Initiate Operation.

SEVIS user IDs and passwords are suspended after three unsuccessful login attempts. Call the SEVIS Help Desk at 800-892-4829 to have access to SEVIS reinstated.

4. ERROR HANDLING

SEVIS includes automatic validation of the data entered into many fields. For example, if the date is entered in an incorrect format, the system will prompt you to correct the error by providing the proper format. These messages are self-explanatory and are not addressed in this manual.

The system also includes a SEVIS Connection Error. The message reads, “Your connection to SEVIS was unsuccessful. Please try your request again. If the error persists and you need assistance, please contact the SEVIS Help Desk at 800-892-4829.”

You will be redirected to the *SEVIS Login* screen. When returned to the *SEVIS Login* screen, log into the system and continue working. If the message displays again, contact the SEVIS Help Desk.

5. HELP FACILITIES

To report SEVIS-related issues or problems, contact the SEVIS Help Desk at 800-892-4829 during the hours of 8 a.m. to 8 p.m. Eastern Time, Monday through Friday. Calls received outside these hours will be recorded for response on the next business day.

**APPENDIX D—STATUS VALUES FOR EXCHANGE VISITORS AND
DEPENDENTS**

Status Values for Exchange Visitors and Dependents

Below is an explanation of each status that EVs and their dependents may have in SEVIS.

- **Saved/Draft**—EV and/or dependent records that have been saved, but not submitted to the SEVIS database. These records are considered Draft records. An RO or ARO may review, edit, and submit a saved/draft record to SEVIS.
- **Initial**—EV and/or dependent records that have been created and submitted to SEVIS (saved to the SEVIS database), but the EV's program has not been validated by the program sponsor.
 - Has actually arrived at the site of activity in the United States identified by the program sponsor
 - Is participating in his or her exchange program

Note: Failure to validate an EV's participation within 30 days of the program start date listed in SEVIS will result in cancellation of the EV's record in SEVIS, as stipulated in the Exchange Visitor Program regulations (22 CFR 62).

- **Active**—The sponsor has validated an EV's participation in his or her program (by entering the current U.S. address for the EV). The current U.S. address is the location where the EV will live while participating in his or her program. The current U.S. address is collected in SEVIS but does not print on the Form DS-2019. When the Form DS-2019 is printed from SEVIS, the address of the primary site of activity entered in SEVIS for the EV will print in the **U.S. Address** section of the Form.

Following the validation of the EV in SEVIS, the EV is considered to be in Active or valid program status.

Note: An RO or ARO may use the Correct Minor or Technical Infraction process to change an EV from Inactive status to Active status if today's date is not greater than 120 days since the EV's status changed to Inactive. When today's date is greater than 120 days and less than 270 days after the EV's status changed to Inactive, the RO or ARO must submit a reinstatement request to DoS for review and approval (22 CFR 62.45). Reinstatement to Valid Program Status cannot occur when the current date is greater than 270 days after the EV's status changed to Inactive.

- **Terminated**—In SEVIS, the program sponsor has terminated the EV's participation; termination implies a change from Active or valid program status prior to program completion. Termination has an *adverse*, or *negative*, affect on the EV's record and on the record of each dependent of the EV. Terminated EVs have no benefits and cannot apply for an extension, reinstatement, or change of category.

Note: Dependent records are automatically terminated when the EV's participation is terminated. Also, an RO or ARO may terminate the status of a dependent prior to the end of the EV's program for reasons such as the conviction of a crime or violation of the Exchange Visitor Program regulations.

- **Transferred (SEVIS to SEVIS)**—The EV has transferred between two program sponsors authorized access to SEVIS.

Note: If a program is expecting to receive a transfer EV from another SEVIS program, this EV's name will display on the *All Exchange Visitors and Dependents* list with the status of Transferred once the effective date of the transfer is reached. The EV's name will also display on the *Transferred Status Exchange Visitors and Dependents* list. To view this list, click the **EV Lists** link to the right of the appropriate program on the *Listing of Programs* screen, the first screen that displays when logged into SEVIS. Then select the appropriate link on the *Exchange Visitors and Dependents Menu* screen.

- **Transferred to a Non-SEVIS Sponsor**—The ability to transfer EVs to a non-SEVIS program is no longer available. However, there may be EVs who will always have this status; they transferred prior to the date mandated for enrollment of all Exchange Visitor Programs in SEVIS.
- **Inactive**—An EV and/or dependent can become Inactive (out of valid program status) for the following reasons:
 - The EV completes his or her program as scheduled—Form DS-2019 expires. (The EV's name will display on the *Inactive Status Exchange Visitors and Dependents* list the day after the program end date.)
 - The RO or ARO ends the program of an EV (for example, the EV completes his or her program early, or withdraws from the program). The status of the EV's dependents will also be set to Inactive on the effective date of completion entered by the RO or ARO.
 - The RO or ARO ends the status of the spouse or dependent because the accompanying spouse got divorced from the EV, or the spouse and/or dependent died.
 - The dependent's status is automatically ended in SEVIS on the day the dependent turns 21 years of age.

Note: When dependents have the same SEVIS status as the EV, their status will automatically be set to Inactive when the EV's SEVIS status is set to Inactive.

- **Invalid**—An EV's status is Invalid when:
 - He or she does not enter the United States through a port of entry within 30 days of the program start date identified in SEVIS.
 - An RO or ARO sets the EV's record to Invalid status.

Note: Dependent records are automatically set to Invalid when the EV's SEVIS status is set to Invalid.

- **No Show**—The EV's program participation has not been validated in SEVIS.
 - It is 30 days after the program start date listed on the Form DS-2019 that was issued to an EV to begin a new program and the EV has entered the United States through a port of entry but has not been validated in SEVIS.
 - In a transfer situation, the EV has not been validated in SEVIS 30 days after the effective date of transfer identified in SEVIS.

- The RO or ARO changed the EV's status from Initial to No Show.
- When a dependent is in Initial status, an RO or ARO may set the dependent's status to No Show.

Note: Dependent records are automatically set to No Show when the EV's record is set to No Show.

APPENDIX E—EXCHANGE VISITOR CATEGORIES

Exchange Visitor Categories

Below is a brief explanation for each of the fifteen exchange visitor categories.

- **Alien Physician**—The Educational Commission for Foreign Medical Graduates (ECFMG) is the only sponsor authorized to use this category.

This category (22 CFR 62.27) is for foreign physicians pursuing American medical board certification through graduate education or training at accredited U.S. schools of medicine, or other U.S. institutions, through a Clinical Exchange Program.

All foreign physicians in this category must successfully complete ECFMG-administered examinations that measure their command of the medical sciences. All foreign physicians are subject to the Two-Year Home Country Physical Presence Requirement as stipulated in Section 212(e) of the Immigration and Nationality Act and Public Law 94-484.

Note: The J visa does not provide for programs with hands-on or direct-patient contact, such as veterinarian, dental, or nursing training.

The maximum duration of participation for the Alien Physician category shall not exceed 7 years.

- **Au Pair**—The Au Pair Program (22 CFR 62.31) is designed to give foreign nationals the opportunity to live with an American host family and participate directly in the home life of that family while providing limited child-care services. The au pair participant is also required to enroll in an accredited U.S. post-secondary educational institution for not less than 6 hours of academic credit or its equivalent.

The EduCare Program component of this category limits work hours to 30 hours per week, and requires 12 hours of academic credit or its equivalent.

The maximum duration of participation for this program shall not exceed 1 year.

- **Camp Counselor**—The Camp Counselor Program (22 CFR 62.30) facilitates the entry of foreign nationals to serve as counselors in U.S. summer camps.

Under no circumstances shall program sponsors facilitate the entry into the United States of a participant for whom a camp placement has not been pre-arranged.

The maximum duration of participation for this program shall not exceed 4 months. No extensions will be permitted.

- **Government Visitor**—This category (22 CFR 62.29) is reserved for use by Federal, State, or local Government agencies.

Participation in this category is for participants who are recognized as influential or distinguished persons, and who are selected by a Federal, State, or local Government agency to participate in observation tours, discussions, consultations, professional meetings, conferences, workshops, and travel.

The maximum duration of participation for this category shall not exceed 18 months.

- **Intern**—A separate application (Form DS-3036) must be completed for this category.

An intern (22 CFR 62.22) is a foreign national who either:

- Is currently enrolled in and pursuing studies at a degree- or certificate-granting post-secondary academic institution outside the United States

or

- Graduated from such an institution no more than 12 months prior to his or her exchange visitor program begin date

and who enters the United States to participate in a structured and guided work-based internship program in his or her specific academic field.

The maximum duration of participation for this category shall not exceed 12 months.

Note: For program exclusions, see 22 CFR 62.22(j).

- **International Visitor**—This category (22 CFR 62.28) is reserved for use by the U.S. Department of State. International visitors are potential or recognized leaders in their own countries.

The maximum duration of participation for this category shall not exceed 1 year.

- **Professor**—This category (22 CFR 62.20) is for individuals who are involved primarily in teaching, lecturing, observing, or consulting at accredited post-secondary educational institutions, museums, libraries, or similar institutions. A professor may also conduct research, unless disallowed by the program sponsor.

The maximum duration of participation for this category shall not exceed 60 months.

- **Research Scholar**—Research scholars (22 CFR 62.20) primarily conduct research, observe, or consult in connection with a research project at research institutions, corporate research facilities, museums, libraries, accredited post-secondary educational institutions, or similar types of institutions. The research scholar may also teach and lecture (unless disallowed by the program sponsor) provided that these activities are incidental and do not extend the period of participation beyond the maximum duration.

The maximum duration of participation for this category shall not exceed 60 months.

- **Short-Term Scholar**—A short-term scholar (22 CFR 62.21) is a professor, research scholar, or person with similar education or accomplishments coming to the United States on a short-term visit to lecture, observe, consult, train, or demonstrate special skills at

research institutions, museums, libraries, accredited post-secondary educational institutions, or similar organizations.

The maximum duration of participation for this category shall not exceed 6 months. No extensions will be permitted.

- **Specialist**—This category (22 CFR 62.26) is for experts who will exhibit specialized knowledge or skills while in the United States. Such exchanges are primarily non-academic and provide opportunities to increase the exchange of knowledge and ideas between American and foreign specialists.

The maximum duration of participation for this program shall not exceed 1 year.

- **Student (College/University)**—Participants in this category must be pursuing a full course of study at accredited post-secondary educational institutions in the United States (22 CFR 62.23). Academic training is permitted, if approved by the program sponsor, but study must be the primary purpose of the EV's program in the United States. Students are eligible for participation when they are not substantially supported by personal funds and when they meet the funding requirements outlined in 22 CFR 62.23(c)(4).

The duration of participation for college and university students is unlimited, as long as they are enrolled full time in programs that lead to a degree. If enrolled in a non-degree program, the duration of participation shall not exceed 24 months, including academic training.

- **Student, Secondary (High School)**—This subcategory affords students an opportunity to study in an accredited U.S. secondary school while living with an American host family (22 CFR 62.25). Participants in this category must meet the following three requirements:
 1. Secondary students who have not completed more than 11 years of primary and secondary schooling, excluding kindergarten, in their home country
 2. At least 15 but not more than 18 1/2 years of age on the date the student will begin his or her program
 3. Without previous participation as an EV for high school studies in the United States
Factors such as English language proficiency, maturity, character, and scholastic aptitude are critical.

The maximum duration of participation for secondary school students (high school students) is a minimum of 1 academic semester and a maximum of 1 academic year.

- **Summer Work/Travel**—This program (22 CFR 62.32) is designed to provide foreign post-secondary students the opportunity to work and travel in the United States for a 4-month period during summer vacations.

The maximum duration of participation for this program shall not exceed 4 months. No extensions will be permitted.

- **Teacher**—This category (22 CFR 62.24) is for individuals teaching full-time in an accredited primary or secondary educational institution. A participant in this category must satisfy **all** of the following:
 1. Meet the qualifications for teaching in primary or secondary schools in his or her home country
 2. Satisfy the standards of the U.S. state in which he or she will teach
 3. Have a minimum of 3 years of teaching or related professional experience

Copies of the approval letters obtained from the State Department of Education for each state in which foreign teachers will be placed must be submitted to DoS with this application.

The maximum duration of participation for this category shall not exceed 3 years.

- **Trainee**—A trainee (22 CFR 62.22) is a foreign national who has either:
 - A degree or professional certificate from a post-secondary academic institution outside the United States and at least 1 year of prior related work experience in his or her occupational field in his or her home country
 - or*
 - Five years of work experience in his or her occupational fieldand who enters the United States to participate in a structured and guided work-based training program in his or her specific occupational field.

Although training often occurs in a workplace setting, the training must be bona fide, and not merely employment. A generic training plan for each requested training occupational category and duration of training being offered must be submitted with the application for designation. Designated program sponsors are required to ensure that individualized Trainee/Internship Placement Plans (Form DS-7002) are prepared for selected trainees and forwarded to them prior to entry into the United States.

Sponsors must also ensure continuous supervision and periodic evaluations are completed.

Program Exclusions: Refer to 22 CFR 62.22(j) for program exclusions.

Maximum Duration of Participation: Refer to 22 CFR 62.22(k) for the maximum duration or participation permitted for the Trainee category.

(b) **Minimum duration of program.** Sponsors, other than the Federal Government agencies (identified by the program serial, G-1, G-2 and G-3), shall provide each exchange visitor, except short-term scholars, with a minimum period of participation in the United States of 3 weeks.

² **Extension beyond maximum duration of participation for professors and research scholars** is only allowed if the sponsor's program serial is G-7.

³ **The maximum duration of participation for a trainee** is 18 months for all occupational categories except in the occupational fields of "Agriculture, Forestry, and Fishing" and "Hospitality and Tourism." Training in the fields of Hospitality and Tourism are limited to a maximum of 12 months. An extension of a program beyond the 18 months would be considered an extension beyond the maximum duration of participation and require DoS approval.
