COVER

An increase in the Army's responsiveness will require a corresponding increase in the reliability of weapons and equipment. This issue contains several articles that address various aspects of the readiness-reliability connection. The photos on the cover demonstrate the wide spectrum of Army systems and activities that will benefit from increased reliability.

This medium is approved for the official dissemination of material designed to keep individuals within the Army knowledgeable of current and emerging developments within their areas of expertise for the purpose of enhancing their professional development.

By Order of the Secretary of the Army:

ERIC K. SHINSEKI
General, United States Army
Chief of Staff
