COVER

The palletized loading system offers optional configurations for transporting many types of equipment and supplies in various environmental conditions. Sometimes, however, unusual circumstances call for innovative solutions. The article beginning on page 24 describes how a logistics unit improvised solutions while providing logistics support to the light cavalry during the training exercise, Desert Saber.

This medium is approved for the official dissemination of material designed to keep individuals within the Army knowledgeable of current and emerging developments within their areas of expertise for the purpose of enhancing their professional development.

By Order of the Secretary of the Army:

DENNIS J. REIMER
General, United States Army
Chief of Staff
