COVER

Eliminating redundant stock is an important part of the Army's efforts to "right-size" its forces and efficiently deploy its personnel to operations around the world. Beginning on page 30 is the story of how the 1st Cavalry Division successfully retrograded over \$12 million worth of equipment to Germany from Bosnia after assuming peacekeeping duties there. In the cover photo, a soldier attaches a radio frequency tag to a vehicle slated for shipment.

This medium is approved for the official dissemination of material designed to keep individuals within the Army knowledgeable of current and emerging developments within their areas of expertise for the purpose of enhancing their professional development.

By Order of the Secretary of the Army:

ERIC K. SHINSEKI
General, United States Army
Chief of Staff
