Last and Best Bids

By selecting "Last and Best Bids," you have indicated that you would like to enter last and best bidding mode. Bidders that wish to stop bidding actively in the auction have the opportunity before they stop to make last and best bids on packages and licenses for which they remain eligible. Such bids may be of any amount (in thousand dollar increments) between the bidder's previous high bid and the amount of the highest acceptable bid (the amount corresponding with the ninth increment) for that license or package in the current round.

Once a bidder submits any last and best bid(s) and the round closes, the bidder will not be permitted to place new bids or renew previous bids in any subsequent round. (The bidder has the option of canceling last and best bid(s) prior to the close of the round.)

Bidders may submit up to two sets of last and best bids. These bids must be submitted in a single round, but will be treated as mutually exclusive, as are bids placed in two separate rounds.

Each bidder is always responsible for the bids it placed in the last two rounds in which it placed bids, as well as for any provisionally winning bids. Therefore, if a bidder chooses to submit two sets of last and best bids, for the remainder of the auction the "solver" (computer software) will consider these two sets of bids. If a bidder chooses to submit one set of last and best bids, then, for the remainder of the auction, the solver will consider this set of bids and the set of bids from the last round in which the bidder placed bids. The only other bids that would be considered in a round for a bidder that places last and best bids are provisionally winning bids from the previous round.

✘ PLACING LAST AND BEST BIDS MAKES THIS YOUR FINAL ROUND

If you continue and place a last and best bid, this will be the last round in which you are permitted to place or renew any bids. However, you can cancel your last and best bids until the round has ended. Click on the "Continue" button to enter last and best bidding mode, or click on the "Cancel" button to return to the bidding home page without placing last and best bids.
