Our Team

Emory University and Georgia Tech

PI: Prof. Eugene Agichtein (Emory)

Director, **Intelligent Information Access Laboratory**
Mathematics and Computer Science
Also: Linguistics, Web Science @ Georgia Tech

### Co-PI: Prof. Hongyuan Zha (Georgia Tech)

Computational Science and Engineering
College of Computing
Also: Web Science @ Georgia Tech

Areas of Expertise

- **(Web) Search**: ranking, search behavior, intent, personalization

- **Social media mining**: Collaborative question answering (CQA)

- **Scalable text mining and information extraction**: semi-supervised machine learning

- **Information aggregation**: summarization, fusion, trend spotting

Qualifications and Capabilities

- More than a decade each of academic and industry experience in search, text mining and machine learning

- Developed state-of-the-art systems for search behavior modeling, information extraction, question answering

- Significant publications in information extraction, clustering, summarization, learning to rank, and multi-task learning

Collaboration Interests

- Interested in joining a team with data integration/software integration focus that targets Advanced Analytic Algorithms area

- Our team would concentrate on algorithms and component development.

Contact Information

- **Eugene Agichtein** and **Hongyuan Zha**

- Title: Professor

- Organizations: **Emory University** and **Georgia Tech**

- Email addresses:

  ➢Agichtein: eugene@mathcs.emory.edu

  – Zha: zha@cc.gatech.edu

- Phone number: (404) 727-7962

- URL:

  ➢ Agichtein: http://www.mathcs.emory.edu/~eugene/

  – Zha: http://www.cc.gatech.edu/directory/hongyuan-zha
