

- Omnis, Inc.
- Lead Investigator: Christina Ray
- Current Team Members
 - Charles Duelfer
 - Robert Mikelskas
 - Randolph Tauss

- Transformation of open-source market data and ancillary information to intelligence
- Methods for the fusion of orthogonal sources of intelligence that maximize utility to intelligence analysts

- Fusion of senior intelligence and financial community expertise.
- Professional areas of expertise including financial engineering, high-frequency trading, risk management, and legal and regulatory compliance
- Creators of MARKINT: a new intelligence discipline that involves the systematic collection and analysis of information from capital and commodities markets for the purpose of deriving actionable intelligence on the knowledge and intentions of market participants
- 10 years of experience in this field, including the MARKINT Project: a post-9/11 effort comprising more than 170 participants

Omnis can provide:

- Deep domain expertise in global trading and risk management
- Proprietary signals of anomalous market activity, along with fusion methodologies for reduction of false positives
- Assistance with the fusion of market data with information from other sources: useful both as orthogonal content with temporal information, and as a test of generalized fusion methodologies combining information from diverse domains

The logo for 'omniscontact' features the word 'omnis' in a blue, lowercase sans-serif font, followed by 'contact' in a white, lowercase sans-serif font. A red orbital line with a small orange and red sphere at its end loops around the 'o' in 'omnis'.
