

DECISION COMMAND
Willard Zangwill, Ph.D.,
University of Chicago
associated for reference.

Current Team Members
Paul Kantor, Ph.D., Rutgers

Patented
software
algorithm that
statistically
determines
bias, errors
and missed
issues.

Seek to align with established
group that is expert in Smart
Gaming. *We are not
necessarily proposing to be
the lead on our team.*

Research Interest:
Seek to enhance
accuracy of
intelligence
estimates and
related decisions
by using intelligent
templates, and
using statistical
inconsistencies to
isolate bias and
error.

Willard Zangwill, Ph.D.
