

Assured Information Security, Inc.

- Assured Information Security, Inc.
- Lead Investigator:
  - Dan Austin, AIS
- Key Personnel:
  - Dr. Joseph Sharkey, AIS
  - Rian Quinn, AIS

Assured Information Security, Inc.

- Automated Data Flow Analysis
  - Numerical Methods
  - Object & Type Theoretic Approaches
  - Scalability
- Virtualization Based Confinement
  - Static and Dynamic Trusted Virtualization
  - Introspection Techniques and Application
  - Virtualization Assisted Isolation Techniques

Assured Information Security, Inc.

- AIS, Inc. is a leading pioneer and contributor in:
  - Computer Network Operations
  - Software and Hardware Reverse Engineering
  - Steganography and Covert Communications
  - Electronic Warfare
  - Human Effectiveness
- AIS, Inc. is a small R & D organization that routinely collaborates with universities on large research projects

Assured Information Security, Inc.

- AIS Inc. is interested in joining a collaborative team consisting of both industry and academia
- AIS Inc. is specifically interested in:
  - Large Scale Program Analysis
  - Directed Testing & Model Checking
  - Source Code Level Analysis

Assured Information Security, Inc.
