Amendment Number 0002

Broad Agency Announcement 10-006

"Navigation and Timekeeping Technology"

The purpose of Amendment Number 0002 is to provide answers to questions received under BAA 10-006 entitled "Navigation and Timekeeping Technology" as follows:

Q#1: Was there a Proposer's Day or Industry Day for this BAA?

A#1: No, the Program Office did not hold an Industry Day or Proposer's Day under BAA 10-006.

_____

Q#2: Is there a page limitation on the white paper that is due on December 28, 2009.

A#2: Please refer to BAA 10-006, Section IV entitled, "Application and Submission Information" paragraph number 2 entitled, "Content and Format of White Papers/Full Proposals" which states "Maximum number of pages permitted: 10 pages (excluding cover page, resumes, bibliographies and table of contents)".

_____

Q#3: There seems to be a lot of research topics from ONR. Does an offeror like ourselves pick one of those topics and respond to it?

A#3: Please refer to BAA 10-006, Section I entitled, "General Information" paragraph number 6 entitled, "Research Opportunity Description" for the areas of concentration.

_____

Q#4: Given ONR's vast area of interest in navigation and timing technology, how will the decisions be made on such a plethora topics of interest? Is there a precedent in your research area and your decision on award?

A#4: Please refer to BAA 10-006 Section V entitled, "Evaluation Information".

_____

Q#5: How many winners are you anticipating to be selected for this BAA next year?

A#5: Please refer to BAA 10-006 Section II entitled, "Award Information".

_____

Q#6. What technology readiness level (TRL) are you seeking to cultivate into maturity?

A#6: Please refer to BAA 10-006 Section II entitled, "Award Information" which states, "ONR plans to fund up to $500,000 per year per award using Exploratory Development Funds (Budget Category 6.2) and Advanced Technology Funds (Budget Category 6.3):

_____
