

Amendment 0002

BAA 10-020 titled “Dynamic Tactical Communications Networks”

The purpose of Amendment 0002 is to revise Section IV. Application and Submission Information as follows:

1. Paragraph 2, subheading “Full Proposal Content”, on page 14, is revised to read as follows:

1. Technical Approach and Justification: The major portion of the proposal should consist of a clear description of the technical approach being proposed. This discussion should provide the technical foundation / justification for pursuing this particular approach / direction and why one could expect it to enable the objectives of the proposal to be met.

2. Paragraph 2, subheading “VOLUME 2: Cost Proposal”, on pages 18 and 19, is revised to read as follows:

- **Contractor Acquired Equipment or Facilities** – Equipment and/or facilities are normally furnished by the Contractor. If acquisition of equipment and/or facilities is proposed, a justification for the purchase of the items must be provided including: 1) a very specific description of any equipment/hardware that it needs to acquire to perform the work, 2) whether or not each particular piece of equipment/hardware will be included as part of a deliverable item under the resulting award, and 3) the basis for the estimate (e.g., quotes, prior purchases, catalog price lists). The description should identify the component, nomenclature, and configuration of the equipment/hardware that it proposes to purchase for this effort. The purchase on a direct reimbursement basis of equipment that is not included in a deliverable item will be evaluated for allowability on a case-by-case basis. Maximum use of Government integration, test, and experiment facilities is encouraged in each of the Offeror’s proposals.

3. Paragraph 3 “Significant Dates and Times”, on page 19, is revised to read as follows:

Event	Date	Time
Industry Day	6/25/2010	
Questions Due Date	7/13/2010
