

Amendment Number 0001

ONR Sources Sought Notice

"Operations and Maintenance of the High Frequency Active Auroral Research Program (HAARP) Research Station Gakona located at Gakona, AK"

The purpose of this Amendment is to answer a question received in response to the sources sought notice issued 18 August 2006 and to correct the website address to be used to upload contractor information.

Question 1: Assuming this is a re-competition, could you provide the incumbent name and contract number?

Answer 1: This is a sources sought notice for the re-compete of the "Operations and Maintenance of the High Frequency Active Auroral Research Program (HAARP) Research Station Gakona located at Gakona, AK". The incumbent contractor is BAE Systems Advanced Technologies Incorporated, Washington, DC 22203. The contract number is N00014-02-C-0463.

This amendment also corrects the website to which all information must be uploaded electronically to read:
