APPROVED JURISDICTIONAL DETERMINATION FORM

U.S. Army Corps of Engineers

This form should be completed by following the instructions provided in Section IV of the JD Form Instructional Guidebook.

SEC A.	CTION I: BACKGROUND INFORMATION REPORT COMPLETION DATE FOR APPROVED JURISDICTIONAL DETERMINATION (JD): 24 October 2012
B.	DISTRICT OFFICE, FILE NAME, AND NUMBER: Omaha District; Central Power Elec./Mouse River; NWO-2012-2159-BIS.
C.	PROJECT LOCATION AND BACKGROUND INFORMATION: State: North Dakota. County/parish/borough: Bottineau County. City: Bottineau. Center coordinates of site (lat/long in degree decimal format): Lat. 48.803955 Long100.904969 Universal Transverse Mercator: Name of nearest waterbody: Mouse/Souris River. Name of nearest Traditional Navigable Water (TNW) into which the aquatic resource flows: Mouse/Souris River. Name of watershed or Hydrologic Unit Code (HUC): Lower Souris - 09010003. Check if map/diagram of review area and/or potential jurisdictional areas is/are available upon request. Check if other sites (e.g., offsite mitigation sites, disposal sites, etc) are associated with this action and are recorded on a different JD form.
D.	REVIEW PERFORMED FOR SITE EVALUATION (CHECK ALL THAT APPLY): Office (Desk) Determination. Date: October 24, 2012. Field Determination. Date(s):
SEC A.	CTION II: SUMMARY OF FINDINGS RHA SECTION 10 DETERMINATION OF JURISDICTION.
	re are no "navigable waters of the U.S." within Rivers and Harbors Act (RHA) jurisdiction (as defined by 33 CFR part 329) in the review. [Required] Waters subject to the ebb and flow of the tide. Waters are presently used, or have been used in the past, or may be susceptible for use to transport interstate or foreign commerce. Explain:
В. (CWA SECTION 404 DETERMINATION OF JURISDICTION.
The	re are "waters of the U.S." within Clean Water Act (CWA) jurisdiction (as defined by 33 CFR part 328) in the review area. [Required]
	1. Waters of the U.S. a. Indicate presence of waters of U.S. in review area (check all that apply): TNWs, including territorial seas Wetlands adjacent to TNWs Relatively permanent waters² (RPWs) that flow directly or indirectly into TNWs Non-RPWs that flow directly or indirectly into TNWs Wetlands directly abutting RPWs that flow directly or indirectly into TNWs Wetlands adjacent to but not directly abutting RPWs that flow directly or indirectly into TNWs Wetlands adjacent to non-RPWs that flow directly or indirectly into TNWs Impoundments of jurisdictional waters Isolated (interstate or intrastate) waters, including isolated wetlands
	 b. Identify (estimate) size of waters of the U.S. in the review area: Non-wetland waters: linear feet: approximately 300-linear feet. width (ft) and/oracres Wetlands: approximately 5-acres c. Limits (boundaries) of jurisdiction based on: Pick List
	Elevation of established OHWM (if known): 2. Non-regulated waters/wetlands (check if applicable): Potentially jurisdictional waters and/or wetlands were assessed within the review area and determined to be not jurisdictional. Explain:

¹ Boxes checked below shall be supported by completing the appropriate sections in Section III below.

² For purposes of this form, an RPW is defined as a tributary that is not a TNW and that typically flows year-round or has continuous flow at least "seasonally" (e.g., typically 3 months).

Supporting documentation is presented in Section III.F.

SECTION III: CWA ANALYSIS

A. TNWs AND WETLANDS ADJACENT TO TNWs

The agencies will assert jurisdiction over TNWs and wetlands adjacent to TNWs. If the aquatic resource is a TNW, complete Section III.A.1 and Section III.D.1. only; if the aquatic resource is a wetland adjacent to a TNW, complete Sections III.A.1 and 2 and Section III.D.1.; otherwise, see Section III.B below.

1.	TN	

Identify TNW: Souris/Mouse River.

Summarize rationale supporting determination:

The river is accessible to the public and is navigable. There is recreational navigation via commercial outfitters or multiple public access points. The Souris/Mouse River is accessible to the public via multiple locations on public lands through the wildlife refuge(s), the Upper Souris National Wildlife Refuge and the J. Clark Salyer National Wildlife Refuge. The river is publicized by the North Dakota Game and Fish as a public fishing water in North Dakota with public boat ramp(s).

Wetland adjacent to TNW

Summarize rationale supporting conclusion that wetland is "adjacent":

D.	DETERMINATIONS OF JURISDICTIONAL FINDINGS. THE SUBJECT WATERS/WETLANDS ARE (CHECK ALI
	THAT APPLY):

1.	TNWs and Adjacent Wetlands. Check all that apply and provide size estimates in review area: ☐ TNWs: Souris/Mouse River. linear feet approximately 300 linear feet. width (ft), Or, ☐ Wetlands adjacent to TNWs: approximatley 5-acres.		
2.	RPWs that flow directly or indirectly into TNWs.		
	Tributaries of TNWs where tributaries typically flow year-round are jurisdictional. Provide data and rationale indicating that		
	tributary is perennial:		
	Tributaries of TNW where tributaries have continuous flow "seasonally" (e.g., typically three months each year) are		
	jurisdictional. Data supporting this conclusion is provided at Section III.B. Provide rationale indicating that tributary flow		
	seasonally: .		
	•		
	Provide estimates for jurisdictional waters in the review area (check all that apply):		
	Tributary waters: linear feet width (ft).		
	Other non-wetland waters; acres.		
	Identify type(s) of waters: .		
TION IV: DATA SOURCES.			

SEC.
