

# **CSA: Proposed Changes to Improve on a Solid Foundation**

## **Webinar Training**

The National Training Center (NTC) is pleased to announce this webinar, which will provide motor carriers with updates regarding FMCSA's CSA program since its December 2010 launch and the safety benefits gained with the program. Participants will also learn about several proposed changes to CSA's Safety Measurement System, why the changes are recommended, and how carriers can preview and comment on the changes before they are implemented. The webinar will answer frequently asked questions, address industry concerns, and provide facts about CSA's efficiencies and safety benefits.

**Target Audience:** Motor Carrier Industry and other Industry Safety Stakeholders

---

**To register, please copy and paste the link below into your browser.**

Please note: We have recently changed systems for our Adobe Connect software. This means that everyone must create a new username (your email address) and password. After registration, you will be sent an email which will contain the participation information for the webinar which you have registered for. Please retain your password, as you will need it in order to participate in the session.

Please feel free to submit questions regarding CSA along with your registration. The webinar presentation will address the most common themes brought up through questions received. After the webinars, a Frequently Asked Questions document will be developed to address additional questions.

**Tuesday, June 26, 2012, 1:00–2:30 p.m. Eastern Time**
