DOCUMENTATION
Beamline Manuals R Review location of manuals and beamline documentation (must be readily available)
Reminders R Identify location of Experimental Reminders list posted at the beamline
EXPERIMENTAL HAZARDS
Radiation Hazards R Identify radiation locations; inform user to move away from area and call control room if chipmunks sound off
Radiation UV Ring R Move away from UV ring, mezzanine, platform, transfer lines, and front end during injection
Cryogens A Cryogen use at beamline or lab: Review filling, demonstrate use, wear PPE (eye and skin protection)
Hazard Analysis     R Identify location of beamline hazard analysis form
CLOSE OUT
Disabling Beam B Secure the beamline and contact the OPCO to disable the shutter/beam before you leave
understand the instructions given to me on beamline operations and safety awareness. Designated BLOSA trainers for this beamline:
