

Retirement Annuity Estimates

The Office of Human Capital Management provides retirement preparation support for DOE employees. Our specialists will prepare an annuity estimate upon request and assist with completion of retirement application paperwork.

Please keep in mind that our staff resources are limited. The top priority for our retirement specialists is to ensure that employees' retirement paperwork is completed, processed, and submitted in a timely manner to facilitate punctual payments. Estimates are prepared on a first-come-first-served basis. Please use the [Annuity Estimate Request Form](#) to submit a request -- and please understand that we cannot honor multiple requests.
