

A-570-958

Investigation: 1/01/2009–6/30/2009

IA / NME / Office 8: DNK

Public Document

October 14, 2009

TO ALL INTERESTED PARTIES:

On October 13, 2009, the Department of Commerce (“Department”) initiated an antidumping duty investigation to determine whether certain coated paper suitable for high-quality print graphics using sheet-fed presses (“certain coated paper”) from the People’s Republic of China (“PRC”) is being sold in the United States at less than fair value.

In advance of the issuance of the antidumping questionnaire, the Department asks that you respond to the questions in Attachment I to this letter, requesting information on the quantity and U.S. dollar sales value of all your sales to the United States during the period 1/01/2009 through 6/30/2009, covered by the scope of this investigation, produced in the PRC. A definition of the scope of the investigation is included in Attachment II to this letter, and general instructions for responding to this letter are contained in Attachment III to this letter. **Please be advised that receipt of this letter does not indicate that you will be chosen as a mandatory respondent or guaranteed separate rate status. Your response to this letter may be subject to on-site verification by Department officials.**

Your response is due to the Department no later than **November 3, 2009**. Please note that, due to time constraints in this investigation, the Department will be limited in its ability to extend the deadline for the response to the attached Quantity and Value Questionnaire.

Please note that all submissions to the Department must be served on all interested parties. The service instructions are included in Attachment IV. The list of interested parties may be found at <http://web.ita.doc.gov/ia/webapotrack.nsf>.

If you fail to respond or fail to provide the requested quantity and value information, please be aware that the Department may find that you failed to cooperate by not acting to the best of your ability to comply with the request for information, and may use an inference that is adverse to your interests in selecting from the facts otherwise available, in accordance with section 776(b) of the Tariff Act of 1930, as amended.

We appreciate your attention to these matters. Please contact the undersigned at 202-482-1442 or at Erin.Begnal@Trade.gov, if you have any questions or comments.

Sincerely,

Erin Begnal
Program Manager

CASE: **Certain Coated Paper from the PRC**

PERIOD OF INVESTIGATION: **1/01/2009 – 6/30/2009**

DATE OF INITIATION: **October 13, 2009**

DUE DATE FOR Q&V RESPONSE: **November 3, 2009**

OFFICIALS IN CHARGE: **Frances Veith and Demitri
 Kalogeropoulos**

FILING ADDRESS:

U.S. Department of Commerce
International Trade Administration
Import Administration
APO/Dockets Unit, Room 1870
1401 Constitution Avenue, N.W.
Washington, DC 20230
Attn: Demitri Kalogeropoulos

On October 13, 2009, the Department of Commerce (“Department”) initiated the antidumping duty investigation to determine whether coated paper from the People’s Republic of China (“PRC”) is being sold in the United States at less than fair value during the period of investigation of 1/01/2009 through 6/01/2009.¹

Section 777A(c)(1) of the Tariff Act of 1930, as amended (“Act”), directs the Department to calculate individual dumping margins for each known exporter and producer of the subject merchandise. Where it is not practicable to examine all known producers/exporters of subject merchandise, as is the case in investigation, section 777A(c)(2) of the Act permits the Department to examine either (1) a sample of exporters, producers or types of products that is statistically valid based on the information available at the time of selection; or (2) exporters and producers accounting for the largest volume of the subject merchandise from the exporting country that can be reasonably examined.

In advance of the issuance of the full antidumping questionnaire, we ask that you respond to Attachments I of this Quantity and Value Questionnaire requesting information on production and the quantity and U.S. dollar sales value of all your sales to the United States during the period 1/01/2009 through 6/30/2009, covered by the scope of this investigation (*see* Attachment II), produced in the PRC. A full and accurate response to the Quantity and Value Questionnaire from all participating respondents is necessary to ensure that the Department has the requisite information to appropriately select mandatory respondents.

The Department is also requiring all firms that wish to qualify for separate-rate status in this investigation to complete a separate-rate status application as described in the *Notice of Initiation*. In other words, the Department will not give consideration to any separate-rate status application made by parties that fail to timely respond to the Quantity and Value Questionnaire or fail to timely submit the requisite separate-rate status application.

To allow for the possibility of sampling and to complete this segment within the statutory time frame, the Department will be limited in its ability to extend the deadline for the response to the Quantity and Value Questionnaire.

A definition of the scope of the merchandise subject to this review is included in Attachment II, and general instructions for responding to this Quantity and Value Questionnaire are contained in Attachment III. **Your response to this questionnaire may be subject to on-site verification by Department officials.**

¹ See <http://ia.ita.doc.gov/ia-highlights-and-news.html>

ATTACHMENT I
FORMAT FOR REPORTING QUANTITY AND VALUE OF SALES

In providing the information in the chart below, please provide the total quantity in KG and total value (in U.S. dollars) of all your sales to the United States during the period 1/01/2009 through 6/30/2009, covered by the scope of this investigation (*see* Attachment II), produced in the PRC.²

- Please include only sales exported by your company directly to the United States.
- Please do not include any sales of subject merchandise manufactured in Hong Kong in your figures.

Additionally, if you believe that you should be treated as a single entity along with other named exporters, please complete the chart, below, both in the aggregate for all named parties in your group and, in separate charts, individually for each named entity. Please label each chart accordingly.

Market: United States	Total Quantity (KG)	Terms of Sale ³	Total Value ⁴ (\$U.S.)
1. Export Price ⁵			
2. Constructed Export Price ⁶			
3. Further Manufactured ⁷			
Total			

² Please use the invoice date when determining which sales to include within the period noted above. Generally, the Department uses invoice date as the date of sale, as that is when the essential terms of sale are set. If you believe that another date besides the invoice date would provide a more accurate representation of your company's sales during the designated period, please report sales based on that date and provide a full explanation.

³ To the extent possible, sales values should be reported based on the same terms (*e.g.*, FOB).

⁴ Values should be expressed in U.S. dollars. Indicate any exchange rates used and their respective dates and sources.

⁵ Generally, a U.S. sale is classified as an export price sale when the first sale to an unaffiliated person occurs before the goods are imported into the United States.

⁶ Generally, a U.S. sale is classified as a constructed export price sale when the first sale to an unaffiliated person occurs after importation. However, if the first sale to the unaffiliated person is made by a person in the United States affiliated with the foreign exporter, constructed export price applies even if the sale occurs prior to importation. Do not report the sale to the affiliated party in the United States, rather report the sale made by the affiliated party to the unaffiliated customer in the United States. If you have further manufactured sales, please report them under Item 3, rather than under Item 2.

⁷ "Further manufactured" refers to merchandise that undergoes further manufacture or assembly in the United States before sale to the first unaffiliated customer.

ATTACHMENT II DESCRIPTION OF PRODUCTS UNDER INVESTIGATION

The merchandise covered by each of these investigations includes certain coated paper and paperboard⁸ in sheets suitable for high quality print graphics using sheet-fed presses; coated on one or both sides with kaolin (China or other clay), calcium carbonate, titanium dioxide, and/or other inorganic substances; with or without a binder; having a GE brightness level of 80 or higher⁹; weighing not more than 340 grams per square meter; whether gloss grade, satin grade, matte grade, dull grade, or any other grade of finish; whether or not surface-colored, surface-decorated, printed (except as described below), embossed, or perforated; and irrespective of dimensions (“Certain Coated Paper”).

Certain Coated Paper includes (a) coated free sheet paper and paperboard that meets this scope definition; (b) coated groundwood paper and paperboard produced from bleached chemi-thermo-mechanical pulp (“BCTMP”) that meets this scope definition; and (c) any other coated paper that meets this scope definition.

Certain Coated Paper is typically (but not exclusively) used for printing multi-colored graphics for catalogues, books, magazines, envelopes, labels and wraps, greeting cards, and other commercial printing applications requiring high quality print graphics. Specifically excluded from the scope are imports of paper and paperboard printed with final content printed text or graphics.

As of 2009, imports of the subject merchandise are provided for under the following categories of the Harmonized Tariff Schedule of the United States (“HTSUS”): 4810.14.11, 4810.14.1900, 4810.14.2010, 4810.14.2090, 4810.14.5000, 4810.14.6000, 4810.14.70, 4810.19.1100, 4810.19.1900, 4810.19.2010, 4810.19.2090, 4810.22.1000, 4810.22.50, 4810.22.6000, 4810.22.70, 4810.29.1000, 4810.29.5000, 4810.29.6000, 4810.29.70. While HTSUS subheadings are provided for convenience and customs purposes, the written description of the scope of the investigations is dispositive.

⁸ “ ‘Paperboard’ refers to Certain Coated Paper that is heavier, thicker and more rigid than coated paper which otherwise meets the product description. In the context of Certain Coated Paper, paperboard typically is referred to as ‘cover,’ to distinguish it from ‘text.’ ”

⁹ One of the key measurements of any grade of paper is brightness. Generally speaking, the brighter the paper the better the contrast between the paper and the ink. Brightness is measured using a GE Reflectance Scale, which measures the reflection of light off of a grade of paper. One is the lowest reflection, or what would be given to a totally black grade, and 100 is the brightest measured grade.

ATTACHMENT III GENERAL INSTRUCTIONS

Instructions for Filing the Response

The following instructions apply to all documents you submit to the Department during the course of this proceeding.

1. File your response in Washington, D.C. at:

U.S. Department of Commerce
International Trade Administration
Import Administration
APO/Dockets Unit, Room 1870
1401 Constitution Avenue, N.W.
Washington, DC 20230
Attn: Demitri Kalogeropoulos

2. A person must file one copy of the business proprietary version of any document with the Department within the applicable time limit. By the close of business one business day after the date the business proprietary version is filed under section 351.303(c)(2)(i) of the Department's regulations, a person must file six copies of the final business proprietary version of the document with the Department. The final business proprietary version must be identical to the previous day's submission except for any bracketing corrections. Although a person must file six copies of the complete final business proprietary version with the Department, the persons may serve other persons with only those pages containing bracketing corrections.

Simultaneously with the filing of the final business proprietary version under section 351.303(c)(2)(ii) of the Department's regulations, a person must file three copies of the public version of such document (*see* section 351.304(c) of the Department's regulations) with the Department.

3. File the original and six copies of the proprietary version. However, if you file an electronic copy of the proprietary version in Microsoft Word, you need file only the original version and four copies. In case of any difference between the narrative response and the content of the electronic media, the narrative response is the controlling version. For either alternative, only one copy of sample printouts and electronic media containing sales files and cost files need be submitted.

File the original and four copies of the public version of your narrative response and attachments, including sample printouts.

4. Submit the required **certification of accuracy**. Providers of information and the person(s) submitting it, if different (*e.g.*, a legal representative), must certify that they have read the submission and that the information submitted is accurate and complete. The Department cannot accept responses to the letter that do not contain the certification statements. A form for such certification is included in this Appendix. You may photocopy this form and submit a completed copy with each of your submissions.

5. Provide the required **certificate of service** with each proprietary version and public version submitted to the Department.
6. Request **proprietary treatment** for information submitted that you do not wish to be made publicly available. As a general rule, the Department places all correspondence and submissions received in the course of an antidumping proceeding in a public reading file. However, information deemed to be **proprietary information** will not be made available to the public.¹ If you wish to make a request for proprietary treatment for particular information, refer to sections 351.304 and 351.304(a)(2) of the Department's regulations. Submit the request for proprietary treatment no later than one business day following the submission of the proprietary version of your response to the letter accompanied by:
 - (1) a non-proprietary (public) version of your response that is in sufficient detail to permit a reasonable understanding of the information submitted in confidence,² and/or
 - (2) an itemization of particular information that you believe you are unable to summarize. State the reasons why you cannot summarize each piece of information.

Responses, or portions thereof, that are not adequately summarized may be returned to you and not used.

7. Submit the statements required regarding limited release of proprietary information under the provisions of an **administrative protective order** ("APO"). U.S. law permits limited disclosure to representatives of parties (*e.g.*, legal counsel) of certain business proprietary information, including electronic business proprietary information, under an APO. (Note that data received under an APO cannot be shared with others who are not covered by the APO.) Under the provisions governing APO disclosure, you must submit either:
 - (1) a statement agreeing to permit the release under APO of information submitted by you in confidence during the course of the proceeding, or
 - (2) a statement itemizing those portions of the information which you believe should not be released under APO, together with arguments supporting your objections to that release.

¹ Pursuant to the Department's Policy Bulletin 05.1: Separate-Rates Practice and Application of Combination Rates in Antidumping Investigations Involving Non-Market Economy Countries (April 5, 2005), exporters are required to provide the Department with the names and contact information of all the producers whose merchandise they exported to the United States during the period of investigation, and are required to make public the names of their suppliers in order for the Department to assign combination rates in an investigation. Additionally, supplier names will not be considered proprietary information in situations where the Department has excluded the exporter from the investigation. Exclusions of non-producing exporters will be granted only to exporter/supplier combinations.

² Generally, numerical data are adequately summarized if grouped or presented in terms of indices or figures ranged within ten percent of the actual figure. If a particular portion of the data is voluminous, use ranged figures for at least one percent of the voluminous portion.

We are required by our regulations to reject, at the time of filing, submissions of business proprietary information that do not contain one of these statements. You must state in the upper right-hand corner of the cover letter accompanying your response whether you agree or object to release of the submitted information under APO. (*See* section 351.303 of the Department’s regulations for specific instructions.)³

8. Place brackets (“[...]”) around information for which you request business proprietary treatment. Place double brackets (“[[...]]”) around information for which you request proprietary treatment and which you do not agree to release under APO.
9. Provide to all parties whose representatives have been granted an APO (as listed in the cover letter or as listed in a subsequent letter from the Department) a complete copy of the submission, proprietary and public versions, except for that information which you do not agree to release under APO. If you exclude information because you do not agree to release it under APO, submit with your response to the Department a certificate of service and a copy of the APO version of the document containing the information that you agree may be released under APO. For parties that do not have access to information under APO, please provide a public version only.

Prepare your response in typed form and in English. Repeat the question to which you are responding in your narrative submission and place your answer directly below it.

³ If you do not agree to release under APO all or part of the proprietary information, but we determine that the information should be released, you will have the opportunity to withdraw the information (*see* section 351.304(d) of the Department’s regulations). However, any information which you withdraw will be taken out of the official record and will not be used in our determination.
