

July 30, 2007

To: ALL INTERESTED PARTIES

Re: Quantity and Value Questionnaire for Certain New Pneumatic Off-The-Road Tires from the People's Republic of China

Dear Sir or Madam:

On July 30, 2007, the Department of Commerce (“the Department”) initiated an antidumping duty investigation to determine whether certain new pneumatic off-the-road (“OTR”) tires from the People’s Republic of China (“PRC”) are being sold in the United States at less than fair value. *See Initiation of Antidumping Duty Investigation: Certain New Pneumatic Off-the-Road Tires from the People’s Republic of China.* The period of investigation (“POI”) is October 1, 2006, through March 31, 2007.

In advance of the issuance of the antidumping questionnaire, we ask that you respond to the questions in Attachment I requesting information on the quantity and U.S. dollar sales value of all exports to the United States of OTR tires during the POI. A definition of the merchandise covered by the scope of this investigation is included in Attachment II. General instructions for responding to this letter are contained in Attachment III. **Please be advised that receipt of this letter does not indicate that the recipient manufacturer or exporter will be chosen as a mandatory respondent or guaranteed separate rates status. A response to this letter may be subject to on-site verification by Department officials.**

The response to the Department’s quantity and value (“Q&V”) questionnaire in Attachment I is due no later than **August 20, 2007**.

Please note that all submissions to the Department must be served on all interested parties. The service instructions are included in Attachment III. The list of interested parties may be found at <http://www.ia.ita.doc.gov/apo/apo-svc-lists.html>.

The Department requires non-market economy exporters of OTR tires to submit a separate-rate application no later than September 28, 2007, in addition to submitting a response to this Q&V questionnaire to receive consideration for a separate rate. The separate-rate application is available on the Department’s website at <http://ia.ita.doc.gov/ia-highlights-and-news.html>. In other words, the Department will not give consideration to any separate rate-status application made by parties that failed to respond to this questionnaire within the established deadline.

-2-

We appreciate your attention to these matters. Please contact Laurel LaCivita or me at 202-482-4243, or 202-482-0650, respectively, if you have any questions or comments.

Sincerely,

Charles Riggle
Program Manager
AD/CVD Operations, Office 8

Enclosure

APPENDIX I

Where it is not practicable to examine all known producers/exporters of subject merchandise, section 777A(c)(2) of the Tariff Act of 1930 (as amended) permits us to investigate (1) a sample of exporters, producers, or types of products that is statistically valid based on the information available at the time of selection, or (2) exporters and producers accounting for the largest volume and value of the subject merchandise that can reasonably be examined.

In the chart below, please provide the total quantity and total value of all your sales of merchandise covered by the scope of this investigation (*see* Appendix II of this document), produced in the PRC, and exported/shipped to the United States during the period October 1, 2006, through March 31, 2007.

Market	Total Quantity	Terms of Sale	Total Value
United States			
1. Export Price Sales			
2. a. Exporter name b. Address c. Contact d. Phone No. e. Fax No.			
3. Constructed Export Price Sales			
4. Further Manufactured Sales			
Total Sales			

Total Quantity:

- Please report quantity on a metric ton basis. If any conversions were used, please provide the conversion formula and source.

Terms of Sales:

- Please report all sales on the same terms, such as “free on board” at port of export.

Total Value:

- All sales values should be reported in U.S. dollars. Please provide any exchange rates used and their respective dates and sources.

Export Price Sales:

- Generally, a U.S. sale is classified as an export price sale when the first sale to an unaffiliated customer occurs before importation into the United States.
- Please include any sales exported by your company directly to the United States.
- Please include any sales exported by your company to a third-country market economy reseller where you had knowledge that the merchandise was destined to be resold to the United States.
- If you are a producer of subject merchandise, please include any sales manufactured by your company that were subsequently exported by an affiliated exporter to the United States.
- Please **do not** include any sales of merchandise manufactured in Hong Kong in your figures.

Constructed Export Price Sales:

- Generally, a U.S. sale is classified as a constructed export price sale when the first sale to an unaffiliated customer occurs after importation. However, if the first sale to the unaffiliated customer is made by a person in the United States affiliated with the foreign exporter, constructed export price applies even if the sale occurs prior to importation.
- Please include any sales exported by your company directly to the United States.
- Please include any sales exported by your company to a third-country market economy reseller where you had knowledge that the merchandise was destined to be resold to the United States.
- If you are a producer of subject merchandise, please include any sales manufactured by your company that were subsequently exported by an affiliated exporter to the United States.
- Please **do not** include any sales of merchandise manufactured in Hong Kong in your figures.

Further Manufactured Sales:

- Further manufacture or assembly (including re-packing) sales (“further manufactured sales”) refers to merchandise that undergoes further manufacture or assembly in the United States before being sold to the first unaffiliated customer.
- Further manufacture or assembly costs include amounts incurred for direct materials, labor and overhead, plus amounts for general and administrative expense, interest expense, and additional packing expense incurred in the country of further manufacture, as well as all costs involved in moving the product from the U.S. port of entry to the further manufacturer.

APPENDIX II

Scope of Investigation

The products covered by the scope are new pneumatic tires designed for off-the-road (OTR) and off-highway use, subject to exceptions identified below. Certain OTR tires are generally designed, manufactured and offered for sale for use on off-road or off-highway surfaces, including but not limited to, agricultural fields, forests, construction sites, factory and warehouse interiors, airport tarmacs, ports and harbors, mines, quarries, gravel yards, and steel mills. The vehicles and equipment for which certain OTR tires are designed for use include, but are not limited to: (1) agricultural and forestry vehicles and equipment, including agricultural tractors,¹ combine harvesters,² agricultural high clearance sprayers,³ industrial tractors,⁴ log-skidders,⁵ agricultural implements, highway-towed implements, agricultural logging, and agricultural, industrial, skid-steers/mini-loaders;⁶ (2) construction vehicles and equipment, including earthmover articulated dump products, rigid frame haul trucks,⁷ front end loaders,⁸ dozers,⁹ lift trucks, straddle carriers,¹⁰ graders,¹¹ mobile cranes, compactors; and (3) industrial vehicles and equipment, including smooth floor, industrial, mining, counterbalanced lift trucks, industrial and

¹ Agricultural tractors are four-wheeled vehicles usually with large rear tires and small front tires that are used to tow farming equipment.

² Combine harvesters are used to harvest crops such as corn or wheat.

³ Agricultural sprayers are used to irrigate agricultural fields

⁴ Industrial tractors are four-wheeled vehicles usually with large rear tires and small front tires that are used to tow industrial equipment.

⁵ A log skidder has a grappling lift arm that is used to grasp, lift and move trees that have been cut down to a truck or trailer for transport to a mill or other destination.

⁶ Skid-steer loaders are four-wheel drive vehicles with the left-side drive wheels independent of the right-side drive wheels and lift arms that lie alongside the driver with the major pivot points behind the driver's shoulders. Skid-steer loaders are used in agricultural, construction and industrial settings.

⁷ Haul trucks, which may be either rigid frame or articulated (*i.e.*, able to bend in the middle) are typically used in mines, quarries and construction sites to haul soil, aggregate, mined ore, or debris.

⁸ Front loaders have lift arms in front of the vehicle. It can scrape material from one location to another, carry material in its bucket or load material into a truck or trailer.

⁹ A dozer is a large four-wheeled vehicle with a dozer blade that is used to push large quantities of soil, sand, rubble, etc., typically around construction sites. They can also be used to perform "rough grading" in road construction.

¹⁰ A straddle carrier is a rigid frame, engine-powered machine that is used to load and offload containers from container vessels and load them onto (or off of) tractor trailers.

¹¹ A grader is a vehicle with a large blade used to create a flat surface. Graders are typically used to perform "finish grading." Graders are commonly used in maintenance of unpaved roads and road construction to prepare the base course onto which asphalt or other paving material will be laid.

mining vehicles other than smooth floor, skid-steers/mini-loaders, and smooth floor off-the-road counterbalanced lift trucks.¹² The foregoing list of vehicles and equipment generally have in common that they are used for hauling, towing, lifting, and/or loading a wide variety of equipment and materials in agricultural, construction and industrial settings. The foregoing descriptions are illustrative of the types of vehicles and equipment that use certain OTR tires, but are not necessarily all-inclusive. While the physical characteristics of certain OTR tires will vary depending on the specific applications and conditions for which the tires are designed (*e.g.*, tread pattern and depth), all of the tires within the scope have in common that they are designed for off-road and off-highway use. Except as discussed below, OTR tires included in the scope of the petitions range in size (rim diameter) generally but not exclusively from 8 inches to 54 inches. The tires may be either tube-type or tubeless, radial or non-radial, and intended for sale either to original equipment manufacturers or the replacement market. The subject merchandise is currently classifiable under Harmonized Tariff Schedule of the United States (“HTSUS”) subheadings: 4011.20.10.25, 4011.20.10.35, 4011.20.50.30, 4011.20.50.50, 4011.61.00.00, 4011.62.00.00, 4011.63.00.00, 4011.69.00.00, 4011.92.00.00, 4011.93.40.00, 4011.93.80.00, 4011.94.40.00, and 4011.94.80.00. While HTSUS subheadings are provided for convenience and Customs purposes, our written description of the scope is dispositive.

Specifically excluded from the scope are new pneumatic tires designed, manufactured and offered for sale primarily for on-highway or on-road use, including passenger cars, race cars, station wagons, sport utility vehicles, minivans, mobile homes, motorcycles, bicycles, on-road or on-highway trailers, light trucks, and trucks and buses. Such tires generally have in common that the symbol “DOT” must appear on the sidewall, certifying that the tire conforms to applicable motor vehicle safety standards. Such excluded tires may also have the following designations that are used by the Tire and Rim Association:

Prefix letter designations:

- P - Identifies a tire intended primarily for service on passenger cars;
- LT - Identifies a tire intended primarily for service on light trucks; and,
- ST - Identifies a special tire for trailers in highway service.

Suffix letter designations:

- TR - Identifies a tire for service on trucks, buses, and other vehicles with rims having specified rim diameter of nominal plus 0.156” or plus 0.250”;
- MH - Identifies tires for Mobile Homes;

¹² A counterbalanced lift truck is a rigid frame, engine-powered machine with lift arms that has additional weight incorporated into the back of the machine to offset or counterbalance the weight of loads that it lifts so as to prevent the vehicle from overturning. An example of a counterbalanced lift truck is a counterbalanced fork lift truck. Counterbalanced lift trucks may be designed for use on smooth floor surfaces, such as a factory or warehouse, or other surfaces, such as construction sites, mines, *etc.*

- HC - Identifies a heavy duty tire designated for use on “HC” 15” tapered rims used on trucks, buses, and other vehicles. This suffix is intended to differentiate among tires for light trucks, and other vehicles or other services, which use a similar designation.
- Example: 8R17.5 LT, 8R17.5 HC;
- LT - Identifies light truck tires for service on trucks, buses, trailers, and multipurpose passenger vehicles used in nominal highway service; and
- MC - Identifies tires and rims for motorcycles.

The following types of tires are also excluded from the scope: pneumatic tires that are not new, including recycled or retreaded tires and used tires; non-pneumatic tires, including solid rubber tires; tires of a kind used on aircraft, all-terrain vehicles, and vehicles for turf, lawn and garden, golf and trailer applications; and, tires of a kind used for mining and construction vehicles and equipment that have a rim diameter equal to or exceeding 39 inches. Such tires may be distinguished from other tires of similar size by the number of plies that the construction and mining tires contain (minimum of 16) and the weight of such tires (minimum 1500 pounds).

APPENDIX III

Instructions for Filing the Response

The following information concerns the procedures interested parties must use the when submitting information regarding the antidumping duty investigation on OTR tires from the PRC:

1. The submission must be properly labeled for submission to the official record in accordance with section 351.303(d)(2) of the Department's regulations.

All submissions that you file with the Department during the course of this investigation must contain a case heading in the upper right-hand corner of first page of the document. The case heading should appear as follows:

A-570-912

Total Pages: **XX**

POI: 10/01/06-03/31/07

NME/IA/8

Proprietary Document, Public Document, or Public Version (please choose one)

Document may be released under APO (if a proprietary document)

The Departments notes that the period of investigation ("POI") is October 1, 2006 through March 31, 2007.

2. The submission must be properly addressed. All future submissions that you file with the Department should be addressed to:

Secretary of Commerce

Attn: Import Administration

Central Records Unit, Room 1870

14th Street and Constitution Avenue, NW

Washington, DC 20230

(attn. Laurel LaCivita or Charles Riggle, Room 4416)

3. **Proprietary versions** of the response should be submitted on the day specified in the cover letter. The **public version** of the response may be filed one business day after the proprietary version.
4. File the original and six copies of the proprietary version. However, if you file an electronic copy of the proprietary version in Word Perfect for Windows format or Microsoft Word, you need file only the original version and four copies. In case of any

difference between the hard copy narrative response and the content of the electronic media, the hard copy narrative response is the controlling version.

File the original and three copies of the public version of your narrative response and attachments, including sample printouts.

5. Submit the required certification of accuracy. Providers of information and the person(s) submitting it, if different (e.g., a legal representative), must certify that they have read the submission and that the information submitted is accurate and complete. The Department cannot accept responses to the letter that do not contain the certification statements. A form for such certification is included at Attachment III(A). You may photocopy this form and submit a completed copy with each of your submissions.
6. The submission must be served on all other persons on the service list and accompanied by a proper certificate of service for this case in accordance with section 351.303(f)(1)-(2) of the Department's regulations, which states:

(1)(i) *In General.* Except as provided in § 351.202(c) (filing of petition), § 351.207(f)(1) (submission of proposed suspension agreement), and paragraph (f)(3) of this section, a person filing a document with the Department simultaneously must serve a copy of the document on all other persons on the service list by personal service or first class mail.

(ii) *Service of public versions or a party's own business proprietary information.* Notwithstanding paragraphs (f)(1)(i) and (f)(3) of this section, service of the public version of a document or of the business proprietary version of a document containing only the server's own business proprietary information, on persons on the service list, may be made by facsimile transmission or other electronic transmission process, with the consent of the person to be served.

(2) *Certificate of Service.* Each document filed with the Department must include a certificate of service listing each person served (including agents), the type of document served, and the date and method of service on each person. The Secretary may refuse to accept any document that is not accompanied by a certificate of service.

This public service list contains the names of parties which have not waived their service rights in the review. When you submit a proprietary document to the Department, you

must serve a copy of this document to **each party listed on the APO service list**. When you submit a public document or a public version of a proprietary document to the Department, you must serve a copy of this document on each party listed on the public service list. In addition, you must provide the Department with a certificate of service that documents that you have served the appropriate documents to the parties on the service lists. A form for such certification is included in Attachment III(B).

The list of interested parties you need to serve with a copy of your submissions, in accordance with section 351.303(f) of the Department's regulations, can also be found on our website at: <http://www.ia.ita.doc.gov/apo/apo-svc-lists.html>.

Start at "Active APOs and Service Lists." Begin your search with the product. Search alphabetically for "new pneumatic off-the-road tires." Once you click on "new pneumatic off-the-road tires," you will see the People's Republic of China (A-570-912). You should then click on People's Republic of China (A-570-912). There will be several options. Select "Investigation" to find the most up-to-date service list.

7. Request **proprietary treatment** for information submitted that you do not wish to be made publicly available. As a general rule, the Department places all correspondence and submissions received in the course of an antidumping proceeding in a public reading file. However, information deemed to be **proprietary information** will not be made available to the public. If you wish to make a request for proprietary treatment for particular information, refer to sections 351.304 and 351.304(a)(2) of the Department's **regulations**. Submit the request for proprietary treatment no later than one business day following the submission of the proprietary version of your response accompanied by:
 - (1) a non-proprietary (public) version of your response that is in sufficient detail to permit a reasonable understanding of the information submitted in confidence,¹³ and/or
 - (2) an itemization of particular information that you believe you are unable to summarize. State the reasons why you cannot summarize each piece of information.

Responses, or portions thereof, that are not adequately summarized may be returned to you and not used.

8. Submit the statements required regarding limited release of proprietary information under the provisions of an **administrative protective order** ("APO"). U.S. law permits limited disclosure to representatives of parties (e.g., legal counsel) of certain business proprietary

¹³ Generally, numerical data are adequately summarized if grouped or presented in terms of indices or figures ranged within ten percent of the actual figure. If a particular portion of the data is voluminous, use ranged figures for at least one percent of the voluminous portion.

information, including electronic business proprietary information, under an APO. (Note that data received under an APO cannot be shared with others who are not covered by the APO.) Under the provisions governing APO disclosure, you must submit either:

- (1) a statement agreeing to permit the release under APO of information submitted by you in confidence during the course of the proceeding, or
- (2) a statement itemizing those portions of the information which you believe should not be released under APO, together with arguments supporting your objections to that release.

We are required by our regulations to reject, at the time of filing, submissions of business proprietary information that do not contain one of these statements. You must state in the upper right-hand corner of the cover letter accompanying your response whether you agree or object to release of the submitted information under APO. (See section 351.303 of the Department's regulations.)¹⁴

9. Place brackets ("[...]") around information for which you request business proprietary treatment. Place double brackets ("[[...]]") around information for which you request proprietary treatment and which you do not agree to release under APO.
10. Provide to all parties whose representatives have been granted an APO (as identified on the Department's website at: <http://www.ia.ita.doc.gov/apo/apo-svc-lists.html>) a complete copy of the submission, proprietary and public versions, except for that information which you do not agree to release under APO. If you exclude information because you do not agree to release it under APO, submit with your response to the Department a certificate of service and a copy of the APO version of the document containing the information that you agree may be released under APO. For parties that do not have access to information under APO, please provide a public version only.
11. Prepare your response in typed form and in English. Repeat the question to which you are responding in your narrative submission and place your answer directly below it.

¹⁴ If you do not agree to release under APO all or part of the proprietary information, but we determine that the information should be released, you will have the opportunity to withdraw the information (see section 351.304(d) of our regulations). However, any information which you withdraw will be taken out of the official record and will not be used in our determination
