Final Determination in the Antidumping Duty Investigation on Imports of Wooden Bedroom Furniture from the People's Republic of China

On November 9, the Department of Commerce announced its final affirmative determination in the antidumping duty investigation of wooden bedroom furniture from the People's Republic of China (PRC), finding that, with the exception of one company, Chinese producers/exporters made sales of subject merchandise to their U.S. customers at less than fair value, with margins ranging from *de minimis* to 198.08 percent for the individually investigated respondents, 8.64 percent for the 115 companies qualifying for a "separate rate," and a PRC-wide rate of 198.08 percent applicable to all other imports.

The U.S. International Trade Commission (ITC) is scheduled to issue its final injury determination no later than December 23. If the ITC finds that a U.S. industry is injured or threatened with material injury as a result of imports of wooden bedroom furniture from the PRC, the Department will issue an antidumping order and will instruct U.S. Customs and Border Protection to collect cash deposits on entries of subject merchandise at the applicable dumping duty rate.

Mandatory Respondents: Given its limited resources and the extraordinary scope and complexity of the investigation, the Department selected the top seven furniture producers/exporters by volume of ocean-going containers exported to the United States as mandatory respondents. These seven companies, which are listed along with their respective final dumping margins, below, represent approximately 35 percent by value of all imports of wooden bedroom furniture from the PRC to the United States.

Companies Qualified for a "Separate Rate": Based on information provided on the record in the course of this investigation, the Department found that certain companies have demonstrated that their export activities are not controlled by the PRC government. Such status entitles a producer or exporter to a "separate rate" of 8.64 percent, based on the weighted-average of five of the seven mandatory respondents' rates¹ rather than the PRC-wide rate. The complete list of companies we found to qualify for this separate rate is available on Import Administration's website: www.ia.ita.doc.gov, and is included below. These companies represent approximately 65 percent by value of all imports of wooden bedroom furniture from the PRC into the United States.

Product Description: For purposes of this investigation, the product covered is wooden bedroom furniture. Wooden bedroom furniture is generally, but not exclusively, designed, manufactured, and offered for sale in coordinated groups, or bedrooms, in which all of the individual pieces are of approximately the same style and approximately the same material and/or finish. The subject merchandise is made substantially of wood products, including both solid wood and also engineered wood products made from wood particles, fibers, or other wooden materials such as plywood, oriented strand board, particle board, and fiberboard, with or without wood veneers, wood overlays, or laminates, with or without non-wood components or trim such as metal, marble, leather, glass, plastic, or other resins, and whether or not assembled, completed, or finished. The Department has reviewed interested parties' comments with regard to the scope of the investigation. A

¹In accordance with the Department's practice, the weighted-average rate for Section A companies excludes the adverse facts-available rate for Tech Lane and the *de minimis* rate for Markor Tianjin.

complete description of the subject merchandise, including clarifications and exclusions the Department has determined to be appropriate, is included below.

Petitioners: The petition requesting this investigation was filed on behalf of the domestic industry and workers producing wooden bedroom furniture by the American Furniture Manufacturers Committee for Legal Trade and its individual members and the Cabinet Makers, Millmen, and Industrial Carpenters Local 721, UBC Southern Council of Industrial Worker’s Local Union 2305, United Steel Workers of American Local 193U, Carpenters Industrial Union Local 2093, and Teamsters, Chauffeurs, Warehousemen and Helper Local 991.
