V. Application Review Information

A. Evaluation Criteria

At the state or territory level review, the evaluation criteria and weighting of the criteria are as follows:

(1) Recommendations and/or endorsements of student (15 percent total): Endorsement/content of the letter from the applicant's major professor, and the second letter of recommendation.

(2) Academic record and statement of career goals and objectives of student (45 percent total): Quality of the applicant's personal education and career goal statement (30 percent); Strength of academic performance (15 percent).

(3) Additional relevant experience (40 percent total) related to: diversity of education, extra-curricular activities, honors and awards, and interpersonal, written, and oral communications skills. For the Knauss Sea Grant Fellowship Program, relevant experience would be in marine or aquatic-related fields.

At the national review, evaluation criteria are identical to that at the state or territory level, except that in criteria (1), the letter of endorsement from the sponsoring Sea Grant program director will also be considered.

B. Review and Selection Process

At the state or territory level, a panel composed of three members, all from the eligible Sea Grant program, will individually discuss each application based on the evaluation criteria listed in section V.A. Following this discussion, an individual score will be provided by each panel member. Once all applications have been discussed and scored, an average score will be computed for each application. The top scoring applicants will then be submitted by the eligible Sea Grant program to the National Sea Grant College Program for the national review along with a signed letter of endorsement from the Sea Grant program director. Each eligible Sea Grant program may select and forward to the National Sea Grant College Program no more than six (6) applications based on the evaluation criteria. In addition, up to six (6) additional applications may be submitted from graduate students enrolled in universities within the District of Columbia by the eligible Sea Grant program handling those applications.

For the national review, a review panel will be assembled to select the fellowship finalists. The panel will include representation from the Sea Grant Association, the National Sea Grant Advisory Board, and the current class of Fellows. Each panel member is assigned applications to review before the panel meeting. During the panel meeting, panel members will individually discuss each application based on the evaluation criteria listed in section V.A., as well as the signed letter of endorsement from the sponsoring Sea Grant program director. Following this discussion, an individual score for each evaluation criteria will be provided by each panel member. Once all applications have been discussed and scored, an

average score will be computed for each application by the Sea Grant Knauss Program Manager or designee. In general, the applicants will be selected based on the average score; however, the selecting official may select lower scored applicants based on the selection factors below. The selected applicants will then be placed into either the legislative or executive group by the selecting official based upon the applicant's stated preference, the application materials submitted, and the individual comments of the panel members.

C. Selection Factors

The Selecting Official will award in order of average score unless the application is justified to be selected out of rank order based upon any of the following selection factors:

1. Balance/Distribution of funds:
 - a. Across academic disciplines
 - b. By types of institutions
 - c. Geographically
2. Availability of funds
3. Program-specific objectives
4. Degree in scientific area and type of degree sought

The Selecting Official makes final recommendations for award to the Grants Officer who is authorized to obligate the funds.

D. Anticipated Announcement and Award Dates

The competitive selection process and subsequent notification to the eligible Sea Grant Programs will be completed by June 7, 2013. Funds are expected to be awarded by approximately February 1, 2014, the start date that should be used on the Application for Federal Assistance (Form 424) for successful applications.

VI. Award Administration Information

A. Award Notices

The National Sea Grant Office will notify, via e-mail, successful and unsuccessful applicants by informing the eligible Sea Grant program through which the application was submitted. This email will contain a written summary of the review panel comments. The eligible Sea Grant program will, in turn, formally notify each successful and unsuccessful applicant and forward the summary comments provided by the National Sea Grant Office.

The applications that are not ultimately selected for funding will be destroyed one year after submission date.
