Foreword

Message from the NASA Administrator 2011 Agency Honor Awards

As we recognize our extraordinary colleagues today, I want to thank the entire NASA workforce for its outstanding effort over the past year. Whether it was staying the course and helping us safely fly out the shuttle manifest or discovering new planets in other solar systems or demonstrating new technologies on Earth – you’ve inspired the next generation and continued to keep us on a path to a bright future. I’m proud of you and the agency’s many accomplishments. Today, we salute our friends and colleagues who have achieved personal and professional milestones and helped us all remember why we work for NASA in the first place.

I want to especially salute the space shuttle workforce that has helped us bravely reach new milestones each and every year of the past three decades. The flagship of our human spaceflight endeavor, the International Space Station, was made possible by the shuttle, and it will lead us to new milestones over the next decade and serve as our anchor for farther exploration.

I am confident that the NASA workforce, the people we honor today and all of their colleagues, are the very best. You are bringing NASA into a new era of achievement and helping to unfold the new direction that will help our country continue to lead the world in human spaceflight and exploration.

Please join me in honoring these men and women who are recognized with Honor Awards today. They are the heart and soul of NASA. They are the teammates who have worked tirelessly beside you to achieve things that no one else is doing. The hard things that our agency is called on to do and does with enthusiasm and professionalism.

I congratulate everyone who is being recognized today and thank you for your dedication. For sharing your gifts with us and using them to benefit people all over the world. It’s my honor to lead the NASA team and to travel the country to meet so many of you in the field, at the launchpads and laboratories and wherever you work to carry out our mission. And it’s my honor to tell everyone I meet about the great work you do. Thank you.

A handwritten signature in black ink that reads "CF Bolden Jr". The signature is stylized and cursive.

Charles F. Bolden, Jr.
NASA Administrator

Assistant Administrator for Human Capital Management

Executive Secretary, Director, Workforce Management and Development Division, Office of Human Capital Management

A vertical space shuttle launch is the central focus, with a large plume of fire and smoke trailing behind it. The shuttle is white with black and gold accents, and the words "United States" are visible on its side. In the upper left, a smaller shuttle is shown in a similar launch phase. The background is a light blue sky with a pattern of faint white stars. The entire image is framed by a film strip border that curves around the edges. The text "2011 AGENCY HONOR AWARDS" is centered in a white rounded rectangle with a black border.

2011 AGENCY HONOR AWARDS
