First Time Webinar Attendees! This Webinar uses *Elluminate to facilitate the webinar*.

If you have not yet participated in a Elluminate webinar then please go to www.illuminate.com/support for instructions on setting up your computer. You should do this at least 72 hours in advance of a live webinar in case you have any problems that need to be resolved. For those with firewall blocking, you may require help from your IT support prior to the event in order to connect. If you have any hardware or software issues you can call Elluminate Support at 1-866-388-8674. You will be prompted to download some software which may take anywhere from 2 to 20 minutes depending upon your Internet connection speed. The steps you will complete are as follows:

1. Check that you have Java installed. If you do not the screen will tell you how to download the latest version of Java.
2. Make sure your speakers and/or microphone are set up correctly. You will need to enter the "Configuration Room" in order to test your audio setup.
3. Do the "Recorded Introduction" to get an overview of how to use Elluminate as a participant. This takes about 5-10 minutes to complete

Once you have completed the steps to set up Elluminate on your computer you will need to verify that you can connect with the Elluminate server at NC State University. To verify that you can connect to the NCSU server visit the following link http://go.ncsu.edu/test_webinar_connection. Once the session is loaded you will see a slide indicating you succeeded. If you are unable to connect to the Elluminate Server
