

- Name of Organization(s)

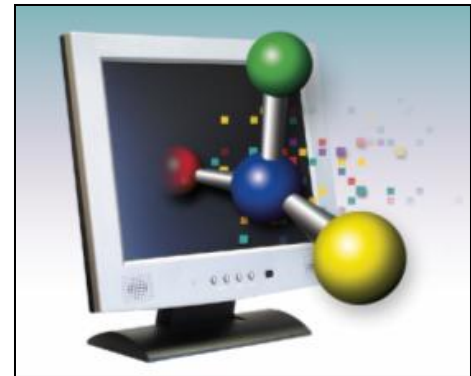

Visual Analytics Inc

- Lead Investigator

Chris Westphal

- Current Team Members

none defined

- Briefly describe research areas of interest
 - **Novel approaches for automating analytical tasks**
 - **Tacit knowledge elicitation methodologies**
 - **Qualifying patterns from distributed, complex, inconsistent, and incomplete data**
 - **Relationships/networks**
 - **Temporal sequences (absolute/relative)**
 - **Geospatial (vector references/alignments)**

- Summarize your unique qualifications and capabilities
 - **Advanced visualization and contextual analytics**
 - **Federated search/integration w/ harmonization and entity resolution**
 - **Meta-data extraction, calculations, & algorithms**
 - **Application of methods for learning, deconfliction, and disambiguation**

- Type of research group you seek to join
 - Larger integrator with strong PMO capabilities
 - Experience with complex modeling scenarios
 - Background with text extraction/classification
 - Cognitive evaluation/research/modeling
 - Multidisciplinary research team
 - Security clearance management
