PART 1 - SUBCONTRACTING GOALS Instructions

Calculating Total Planned Subcontracting Dollars

A. Total estimated dollar value of all planned subcontracting for an Individual Contract Plan; or the offeror's total projected sales, expressed in dollars, and the total value of projected subcontracts to support the sales for a Commercial Plan; i.e., the sum of LB and SB: \$ _____ (This number will be auto calculated when the total Large Business (LB) and total Small Business (SB) fields are populated.)

B. Total estimated dollar value of planned subcontracting with large businesses (LB):
\$ _____

Total estimated dollar value of planned subcontracting with small businesses (SB):
\$ _____

C. Total estimated dollar value and percent of planned subcontracting with small businesses (include veteran-owned, service-disabled veteran-owned, HUBZone, disadvantaged and women-owned small business concerns):
\$ _____ (Percentage of total dollars will auto populate)

Calculating Small Business Subcategories

These numbers have already been captured in SB dollars; therefore, you don't need to roll them up to equal the total small business dollars allocated above. It is possible to have one company that fits into more than one category (i.e. SDVOSB and HUBZone) and the same dollar amount would be allocated to both categories.
