

# Federal Traumatic Brain Injury Program State Grant Fact Sheet

## GUAM

Unfunded, Had FY 06 Planning Grant

### **Federal TBI Program**

More than 3.17 million Americans live with a disability as a result of a traumatic brain injury (TBI). Many of these individuals and their families are confronted with inadequate or unavailable TBI services and supports. Passage of the Traumatic Brain Injury Act of 1996 (PL 104-166) signaled a national recognition of the need to improve state TBI service systems. The Act authorized the Health Resources and Services Administration to award grants to States for the purpose of planning and implementing needed health and related service systems changes.

### **Lead State Agency**

Department of Public Health and Social Services
