CAPABILITIES: Our Veterinary Treatment Facility (VTF) is a full service veterinary clinic. General small animal veterinary practice includes outpatient clinic, yearly exams and immunizations. Medical and surgical services include routine elective surgery (spays, neuters, prophylactic dentistry), general surgery, ECG diagnostics, mail out blood analysis, endoscopy, dermatology (allergy testing and treatment), x-ray diagnostics, and isoflurane anesthesia. Facilities include two treatment rooms and one surgical suite.

LIMITATIONS: Due to our level of staffing and other military obligations, our VTF is unable to provide 24 hour emergency service with in-patient critical care hospitalization. Animals requiring this level of care will be referred to civilian host nation veterinary facilities providing these capabilities.

ACCESS: Patients are seen by appointment only. Emergencies may be seen during office hours depending upon availability of a veterinarian and type of emergency. After hours emergencies are referred to an off-post facility, but will be seen if a veterinarian is present in our facility. Call before bringing an emergency into our clinic to avoid wasting valuable time if there is not a veterinarian present.

REFERRALS: Patients may be referred to the Kaiserslautern VTF for specialized surgical or medical care. Civilian referral clinics are available and are coordinated through our VTF. Specialists in internal medicine, surgery, neurology and ophthalmology are available in the civilian host nation sector.

EMERGENCY CARE: Emergencies are seen during normal operating hours when a veterinarian is available. After-hours emergencies should seek care from an off-post provider. A referral list is provided outside our VTF and a copy is included below.

Be a responsible owner. Don't abandon your pet. Please register your pet at our veterinary clinic.
