## A Selected Bibliography

U.S. ARMY WAR COLLEGE LIBRARY

August 2007

**Jointness.** Jointness refers to the mutual support and doctrinal understanding that must exist within all military services. Jointness is a state of mind as well as a statement of fact. It predisposes those who share its goals to emphasize the unique capabilities of the Nation's military services in planning and operations that are by design, from beginning to end, synergistic, cooperative, and interdependent.

**Separate ground, sea and air warfare is gone forever. If ever again we should be involved in war, we will fight it in all elements, with all services, as one single, concentrated effort.**

President Dwight D. Eisenhower  
Special Message to Congress, 3 April 1958

***Joint warfare is team warfare.***

*Joint Pub 1*

***purple-suiter***—An officer assigned to duty on a staff where no particular service predominates. This may be a joint staff, where all services cooperate, or a combined staff, where two or more allied nations participate. He is called *purple* because he loses the identity (and color) of his particular service, and the color purple is not used by any of the services. The official colors are green for Army, blue for Air Force, and white for Navy.

*A Dictionary of Soldier Talk*

***joint***—Connotes activities, operations, organizations, etc., in which elements of two or more Military Departments participate.

## **PREFACE**

This selected bibliography lists references for readings on Jointness, an enduring theme of the U.S. Army War College. A revised and updated version of our earlier bibliographies on jointness, it focuses on aspects of United States armed forces such as joint operations, joint logistics, interservice cooperation, interservice rivalry, joint communications, joint training, and Goldwater-Nichols.

With the exception of some important older titles, most of the books, documents, articles and online resources cited are dated 2004 to the present. All items are available in the U.S. Army War College Library. For your convenience, at the end of the citations, we added Library call numbers, Internet addresses, or database links. Web sites were accessed during July 2007.

This bibliography and others, compiled by our research librarians, are available online through the Library's home page at <http://www.carlisle.army.mil/library/bibliographies.htm>.

## Special Databases

### JDEIS

The Joint Doctrine, Education and Training Electronic Information System (JDEIS) Web Portal is managed for the Chairman of the Joint Chiefs of Staff (CJCS) by Joint Staff J-7 (Operational Plans & Joint Force Development). JDEIS replaces the Joint Electronic Library (JEL) as the primary authoritative source of joint doctrine, education, training and related information supporting Department of Defense and interagency planning and operations, and is not available to the general public. USAWC students, staff, faculty, and other authorized .mil users have access through the JDEIS link on our Library's webpage, <http://www.carlisle.army.mil/library>, or by going directly to <https://jdeis.js.mil>.

### JEL

The Joint Electronic Library (JEL) remains operational as a publicly-accessible source of joint information. <http://www.dtic.mil/doctrine>
